Founded in 1959 with the purpose of disseminating the most recently developed scientific information to groups in industry, government, high schools, and universities, REA has since become a successful and highly respected publisher of study aids, test preps, handbooks, and reference works. REA's Test Preparation series includes study guides for all academic levels in almost all disciplines. Research & Education Association publishes test preps for students who have not yet completed high school, as well as high school students preparing to enter college. Students from countries around the world seeking to attend college in the United States will find the assistance they need in REA's publications. For college students seeking advanced degrees, REA publishes test preps for many major graduate school admission examinations in a wide variety of disciplines, including engineering, law, and medicine. Students at every level, in every field, with every ambition can find what they are looking for among REA's publications. While most test preparation books present practice tests that bear little resemblance to the actual exams, REA's series presents tests that accurately depict the official exams in both degree of difficulty and types of questions. REA's practice tests are always based upon the most recently administered exams, and include every type of question that can be expected on the actual exams. REA's publications and educational materials are highly regarded and continually receive an unprecedented amount of praise from professionals, instructors, librarians, parents, and students. Our authors are as diverse as the fields represented in the books we publish. They are well-known in their respective disciplines and serve on the faculties of prestigious

high schools, colleges, and universities throughout the United States and Canada. **PASSING THE SAT II: GERMAN SUBJECT TEST ABOUT THIS BOOK** This book provides you with an accurate and complete representation of the SAT II: German Subject Test. Inside you will find a complete course review, as well as six REA practice tests based on the actual exam. Our practice tests contain every type of question that you can expect to encounter on the actual exam. Following each test you will find an answer key with detailed explanations designed to help you master the test material. **ABOUT THE TEST** Who takes the test and what is it used for? Students planning to attend college take the SAT II: German Subject Test for one of two reasons: (1) Because it is an admission requirement of the college or university to which they are applying, "OR" (2) To demonstrate proficiency in German. The SAT II: German exam is designed for students who have taken two to four years of German. Who administers the test? The SAT II: German Subject Test is developed by the College Board and administered by Educational Testing Service (ETS). The test development process involves the assistance of educators throughout the country, and is designed and implemented to ensure that the content and difficulty level of the test are appropriate. When and where is the test given? The SAT II: German Subject Test is offered once a year, in June, at many locations throughout the country. To receive information on upcoming administrations of the exam, consult the publication *Taking the SAT II: Subject Tests*, which can be obtained from your guidance counselor or by contacting: College Board SAT Program P.O. Box 6200 Princeton, NJ 08541-6200 Phone: (609) 771-7600 Website: <http://www.collegeboard.com> Is there a registration fee? You must pay a registration fee to take the SAT II: German Subject Test. Consult the publication *Taking the SAT II: Subject Tests* for information on the fee structure. Financial assistance may be granted in certain situations. To find out if you qualify and to register for assistance, contact your academic advisor. **HOW TO USE THIS BOOK** What do I study first? Remember that the SAT II: German Subject Test is designed to test knowledge that you have acquired throughout your education. Therefore, the best way to prepare for the exam is to refresh yourself by thoroughly studying our review material and taking the sample tests provided in this book. Our practice tests will familiarize you with the types of questions, directions, and format of the SAT II: German Subject Test. To begin your studies, read over our course review and suggestions for test-taking. Then take the first practice test to determine your area(s) of weakness. When you're done, restudy the review material, focusing on your specific problem areas. The course review includes the information you need to know when taking the exam. Make sure to take the remaining practice tests to further test yourself and become familiar with the format of the SAT II: German Subject Test. Further recommendations are detailed in our study schedule in the front of this book. When should I start studying? It is never too early to start studying for the SAT II: German test. The earlier you begin, the more time you will have to sharpen your skills. Do not procrastinate! Cramming is not an effective way to study! The sooner you learn the format of the exam, the more comfortable you will be when you take it. **FORMAT OF THE SAT II: GERMAN TEST** The SAT II: German is a one-hour exam consisting of 80 to 85 multiple-choice questions that are designed to measure the gradual development of competence in the German language acquired over a period of years. About 50% of the test measures vocabulary and structure in context or grammar. The rest measures reading comprehension. In light of Educational Testing Service's stated intention to comply with the German spelling reform (Rechtschreibreform), REA, too, has sought to adhere to the spelling reform throughout this book. **SCORING THE SAT II: GERMAN TEST** How do I score my practice tests? The SAT II: German Test, like all other SAT Subject Tests, is scored on a 200-800 scale. Your exam is scored by crediting one point for each correct answer and deducting one-third of a point for each incorrect answer. There is no deduction for answers that are left blank. Use the worksheet below to calculate your raw score and to record your scores for the six practice tests. When will I receive my score report and what will it look like? You can expect to receive your score report within about five weeks after you take the test. This report will include your scores, percentile ranks, and interpretive information. **STUDYING FOR THE SAT II: GERMAN TEST** It is critical to choose the time and place for studying that works best for you. Some students may set aside a certain number of hours every morning to study, while others may choose to study at night before going to sleep. Only you can determine when and where your study time will be most effective. Be consistent and use your time wisely. Work out a study routine and stick to it! When you take the practice tests, try to make your testing conditions as much like the actual test as possible. Turn your television and radio off, and sit down at a quiet desk or table free from distraction. Make sure to clock yourself with a timer. As you complete each practice test, score it and thoroughly review the explanations to the questions you answered incorrectly; however, do not review too much at any one time. Concentrate on one problem area at a time by reviewing the questions and explanations, and by studying our review until you are confident you completely understand the material. Keep track of your scores. By doing so, you will be able to gauge your progress and discover general weaknesses in particular sections. You should carefully study the reviews that cover your areas of difficulty, as this will build your skills in those areas. **TEST-TAKING TIPS** Although you may be unfamiliar with standardized tests such as the SAT II: German Subject Test, there are many ways to acquaint yourself with this type of examination and help alleviate your test-taking anxieties. Here are six specific ways you can give yourself a leg up: Become comfortable with the format of the exam. When you are practicing, simulate the conditions under which you will be taking the actual test. Stay calm and pace yourself. This will allow you to sit down for the actual exam with much more confidence. Read all of the possible answers. Just because you think you have found the correct response, do not automatically assume that it is the best answer. Read through each choice to be sure that you are not making a mistake by jumping to conclusions. Use the process of elimination. Go through each answer to a question and eliminate as many of the answer choices as possible. By eliminating just two answer choices, you give yourself a better chance of getting the item correct, since there will only be two choices left from which to make your guess. Work quickly and steadily. You will have only 1 hour, so avoid focusing on any one question too long. Taking the practice tests in this book will

help you learn to budget your time. Learn the directions and format for each section of the test. Familiarizing yourself with the directions and format of the exam will save you valuable time on the day of the actual test. Be sure that the answer oval you are marking corresponds to the number of the question in the test booklet. Since the exam is graded by machine, marking one wrong answer can throw off your answer key and your score. Be extremely careful when filling in your answer sheet. Before the Test Make sure you know where your test center is well in advance of your test day so you do not get lost on the day of the test. On the night before the test, gather together the materials you will need the next day: - Your admission ticket - Two forms of identification (e.g., driver 's license, student identification card, or current alien registration card) - Two No. 2 pencils with erasers - Directions to the test center - A wristwatch (if you wish) but not one that makes noise, as it may disturb other test-takers On the day of the test, you should wake up early (it is hoped after a decent night 's rest) and have a good breakfast. Dress comfortably so that you are not distracted by being too hot or too cold while taking the test. Also, plan to arrive at the test center early. This will allow you to collect your thoughts and relax before the test, and will also spare you the stress of being late. If you arrive after the test begins, you will not be admitted and you will not receive a refund. During the Test When you arrive at the test center, try to find a seat where you feel you will be comfortable. Follow all the rules and instructions given by the test supervisor. If you do not, you risk being dismissed from the test and having your scores canceled. Once all the test materials are passed out, the test instructor will give you directions for filling out your answer sheet. Fill this sheet out carefully since the information you supply will appear on your score report. After the Test When you have completed the SAT II: German Subject Test, you may hand in your test materials and leave. Then, go home and relax! Complete Practice Bundle for the SAT and ACT *Princeton Review* **ALL THE PRACTICE YOU NEED FOR BOTH THE SAT AND ACT!** The Princeton Review's Complete Practice Bundle for the SAT and ACT brings you access to 14 full-length practice tests, additional practice questions, two sets of flashcards, and much more. GLOSSARY EXCERPT About Research & Education Association

Research & Education Association (REA) is an organization of educators, scientists, and engineers specializing in various academic fields. Founded in 1959 with the purpose of disseminating the most recently developed scientific information to groups in industry, government, high schools, and universities, REA has since become a successful and highly respected publisher of study aids, test preps, handbooks, and reference works. REA's Test Preparation series includes study guides for all academic levels in almost all disciplines. Research & Education Association publishes test preps for students who have not yet completed high school, as well as high school students preparing to enter college. Students from countries around the world seeking to attend college in the United States will find the assistance they need in REA's publications. For college students seeking advanced degrees, REA publishes test preps for many major graduate school admission examinations in a wide variety of disciplines, including engineering, law, and medicine. Students at every level, in every field, with every ambition can find what they are looking for among REA's publications. While most test preparation books present practice tests that bear little resemblance to the actual exams, REA's series presents tests that accurately depict the official exams in both degree of difficulty and types of questions. REA's practice tests are always based upon the most recently administered exams, and include every type of question that can be expected on the actual exams. REA's publications and educational materials are highly regarded and continually receive an unprecedented amount of praise from professionals, instructors, librarians, parents, and students. Our authors are as diverse as the fields represented in the books we publish. They are well-known in their respective disciplines and serve on the faculties of prestigious high schools, colleges, and universities throughout the United States and Canada.

PASSING THE SAT II: FRENCH SUBJECT TEST ABOUT THIS BOOK This book provides you with an accurate and complete representation of the SAT II: French Subject Test. Inside you will find topical reviews packed with the information and strategies you'll need to do well on the exam, as well as six REA practice tests based on the actual College Board exam. Our practice tests contain every type of question that you can expect to encounter on the SAT II: French Test. Following each of our tests, you will find an answer key and step-by-step detailed explanations designed to help you master the test material.

ABOUT THE TEST Who takes the test and what is it used for? Planning to attend college? Then you should take the SAT II: French Subject Test if: (1) Any of the colleges to which you're applying require the test for admission, OR (2) You wish to demonstrate proficiency in French. The SAT II: French exam is designed for students who have at least two years of strong preparation in the language. Who administers the test? The SAT II: French Subject Test is developed by the College Board and administered by Educational Testing Service (ETS). The test development process involves the assistance of educators throughout the United

States, and is designed and implemented to ensure that the content and difficulty level of the test are appropriate. When should the SAT II: French Subject Test be taken? Most students take the Subject Tests towards the end of their junior year or at the beginning of their senior year. You should take the SAT II: French Subject Test while you are taking a French class. You're likely to be rusty if you haven't been in a French class for several months. If you are applying to a college that requires SAT II: Subject Test scores as part of the admissions process, you should take the SAT II: French Subject Test in time for your colleges to see your score. If your scores are being used only for placement purposes, wait as long as you can to get the most preparation in your French courses as possible. Make sure to contact the colleges to which you are applying for more specific information. When and where is the test given? The SAT II: French Subject Test is administered six times a year - in October, November, December, January, May, and June - at test centers across the United States. The test given in November is the only one that includes a listening portion (which is not covered in this book). To receive information on upcoming administrations of the exam, consult the publication *Taking the SAT II: Subject Tests*, which can be obtained from your guidance counselor or by contacting: College Board SAT Program P.O. Box 6720 Princeton, NJ 08541-6720 (609) 771-7070 Website: www.collegeboard.com Is there a registration fee? To take the SAT II: French Test, you must pay a registration fee. For a fee schedule, consult the publication "Taking the SAT II: Subject Tests." Financial assistance may be granted in certain situations. To find out if you qualify and to register for assistance, contact your academic advisor.

HOW TO USE THIS BOOK What do I study first? The SAT II: French Subject Test is designed to test knowledge that you have acquired throughout your education. Therefore, the best way to prepare yourself for the actual exam is to refresh your knowledge by thoroughly studying our review material and test-taking tips and by taking the sample tests provided in this book. They will familiarize you with the types of questions, directions, and the format of the SAT II: French Subject Test. To begin your studies, follow this simple plan: (1) Read over the reviews and the suggestions for test-taking. (2) Take one of our practice tests to determine your area(s) of weakness. (3) Study the review material, focusing on your specific problem areas. The reviews include the information you need to know when taking the exam. Make sure to take the remaining practice exams to further test yourself and become completely comfortable with the format and content of the actual SAT II: French Subject Test. Consult our study schedule for a detailed test-preparation timetable. When should I start studying? It is never too early to start studying for the SAT II: French Test. The earlier you begin, the more time you will have to sharpen your skills. Do not procrastinate! Cramming is not an effective way to study, since it does not allow you the time needed to learn the test material. The sooner you learn the format of the exam, the more comfortable you will be when you take it.

FORMAT OF THE SAT II: FRENCH SUBJECT TEST The SAT II: French Test is a one-hour exam consisting of 85 to 90 multiple-choice questions - the number of items has been known to vary from one form of the test to another. The questions you'll encounter on the SAT II: French Subject Test are designed to measure the gradual development of competence in the French language acquired over a period of years. The test measures your grasp of the language in three distinct areas: - Vocabulary-in-context: Approx. 30%. Tests your knowledge of vocabulary and basic idioms within culturally authentic contexts. - Structure: 30-40%. Tests your ability to choose words or expressions that are grammatically correct within a sentence or longer paragraphs. - Reading: 30-40%. Tests your understanding of main and supporting ideas, themes, and settings of a text. Passages are drawn from texts like essays, historical works, newspapers, magazines, advertisements, and timetables.

ABOUT THE REVIEW SECTIONS The reviews in this book will teach you the skills and concepts needed to approach SAT II: French Subject Test questions. We cover sentence structure, grammar, verb conjugation, spelling, and capitalization. Systematic review will help you identify the kinds of errors that often appear in vocabulary-in-context and structure questions. By using the reviews in conjunction with the practice tests, you will be able to sharpen your skills and put yourself in the best possible position to succeed on the SAT II: French Subject Test.

STUDYING FOR THE SAT II: FRENCH SUBJECT TEST It is vital that you choose the time and place for studying that works best for you. Some students may set aside a certain number of hours every morning, while others may study at night before going to sleep. Only you can determine when and where your study time will be most effective. Be consistent and use your time wisely. Work out a study routine and stick to it! When you take the practice tests, try to make your testing conditions as much like the actual test as possible. Turn your television and radio off, and sit down at a quiet table free from distraction. Make sure to clock yourself with a timer. As you complete each practice test, score your test and thoroughly review the explanations to the questions you answered incorrectly; however, do not review too much at any one time. Concentrate on one problem area at a time by reviewing the questions and explanations, and by studying the review until you are confident you completely understand the material. Keep track of your scores. By doing so, you will be able to gauge your progress and discover general weaknesses in particular sections. You should carefully study the reviews that address your areas of difficulty; this will strengthen your skills and build your confidence.

TEST-TAKING TIPS Although you may be unfamiliar with standardized tests such as the SAT II: French Subject Test, there are many ways to acquaint yourself with this type of examination and help alleviate your test-taking anxieties. Here are ways to help you become accustomed to the SAT II: French Subject Test, some of which may apply to other standardized tests as well. Become comfortable with the format of the SAT II: French Subject Test. When you are practicing to take the test, simulate the conditions under which you will be taking the actual test. Stay calm and pace yourself. After simulating the test only a couple of times, you will boost your chances of doing well, and you will be able to sit down for the actual exam much more confidently. Know the directions and format for each section of the test. Familiarizing yourself with the directions and format of the different test sections will not only save you time, but will also ensure that you are familiar enough with the SAT II: French Subject Test to avoid anxiety (and the mistakes caused by being anxious). Work on the easier questions first. Within each group of questions, the easier ones are usually at

the beginning. If you find yourself working too long on one question, make a mark next to it in your test booklet and continue to the next question. After you answer all the questions you can, go back to the ones you have skipped. If you are unsure of an answer, guess. However - if you do guess, guess wisely. Use the process of elimination by going through each answer to a question and eliminating as many of the answer choices as possible. By eliminating two answer choices, you give yourself a fifty-fifty chance of answering correctly, since there will only be two choices left from which to make your guess. Mark your answers in the appropriate spaces on the answer sheet. Each numbered row will contain four ovals corresponding to each answer choice for that question. Fill in the circle that corresponds to your answer darkly, completely, and neatly. You can change your answer, but remember to completely erase your old answer. Any stray lines or unnecessary marks may cause the machine to score your answer incorrectly. When you have finished working on a section, you may want to go back and check to make sure your answers correspond to the correct questions. Marking one answer in the wrong space will throw off the rest of your test, whether it is graded by machine or by hand. You don't have to answer every question. You are not penalized if you do not answer a question. The only penalty you receive is if you answer a question incorrectly. Try to use the guessing strategy, but if you are truly stumped by a question, you do not have to answer it. Work quickly and steadily. You have a limited amount of time to work on each section, so you need to work quickly and steadily. Avoid focusing on one problem for too long. Taking the practice tests in this book will help you to learn how to budget your time. Before the Test Make sure you know exactly where your test center is well in advance of your test day so you do not get lost on the day of the test. On the night before the test, gather together the materials you will need the next day: - Your admission ticket - Two forms of identification (e.g., driver's license, student identification card, or current alien registration card) - Two No. 2 pencils with erasers - Directions to the test center - A watch, if you wish, but not one that makes noise, as it may disturb other test-takers On the day of the test, you should wake up early (we hope after a decent night's rest) and have a good breakfast. Dress comfortably, so that you are not distracted by being too hot or too cold while taking the test. Also, plan to arrive at the test center early. This will allow you to collect your thoughts and relax before the test, and will also spare you the stress of being late. If you arrive after the test begins, you will not be admitted or receive a refund. During the Test When you arrive at the test center, try to find a seat where you feel you will be comfortable. Follow all the rules and instructions given by the test supervisor. If you do not, you risk being dismissed from the test and having your scores canceled. Once all the test materials are passed out, the test instructor will give you directions for filling out your answer sheet. Fill out this sheet carefully, since this information will appear on your score report. Remember - since no scratch paper will be provided, you can write in your test booklet. After the Test When you have completed the SAT II: French Subject Test, you may hand in your test materials and leave. Then, go home and relax. You should receive your score report about five weeks after you take the test. This report will include your scores, percentile ranks, and interpretive information. YOUR SCORE REPORT You should receive your score report about five weeks after you take the test. This report will include your scores, percentile ranks, and interpretive information. When you register for the test, you can also take advantage of two different reporting options: Score Choice and the Writing Sample Copy Service. Score Choice allows you to review your scores before instructing the College Board to send them to the colleges you have chosen. If you decide your scores are too low, you can take the test again. Only you and your high school will know your original scores. The Writing Sample Copy Service provides you with three copies of your graded essay, which you can send to colleges for admissions purposes. Additionally, if you plan to take the test again, a copy of your essay with graders' comments can be invaluable in assessing your strengths and weaknesses.
