NINETEEN EIGHTY-FOUR

publi "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

Springer Science & Business Media This book developed from sections of my doctoral dissertation, "The Possibility of Religious Knowledge: Causation, Coherentism and Foundationalism," Brown University, 1982. However, it actually had its beginnings much earlier when, as an undergraduate at the University of Virginia, I first read Hume's "Of Miracles" and became interested in it. (Fascinated would be too strong.) My teacher put the following marginal comment in a paper I wrote about it: "Suppose someone told you that they had been impregnated by an angel whispering into their ear. Wouldn't you think they had gone dotty?" She had spent time in England. I thought about it. I agreed that I would not have believed such testimony, but did not think this had much to do with Hume's argument against belief in miracles. What surprised me even more was the secondary literature. I became convinced that Hume's argument was misunderstood. My main thesis is established in Part I. This explains Hume's argument against justified belief in miracles and shows how it follows from, and is intrinsically connected with, his more general metaphysics. Part II Part I. It should give the reader a more complete understanding builds on of both the structure of Hume's argument and of his crucial and questionable premises. Chapters 5 and 11 are perhaps the most technical in the book, but they are also the least necessary. They can be skipped by the reader who is only interested in Hume on miracles.

It's an allegorical novella. It got published in August 1945. The fiction based on Farm animals, the author has named them too. Such as Major (a majestic-looking pig), 3-dogs (Bluebell, Jessie, and Pincher), many hens, pigeons, ducklings, sheeps and cows. Two horses, Boxer and Clover. Amongst them, Major is their leader. He wanted to speak on "the nature of life on this earth" and "How any animal is now living". The author has nicely elaborated through these Characters about the animals' misery and slavery. Animals complain that despite their hard labour, why then do they continue in the miserable condition? They also complain about human beings that they use to steal nearly the whole of their produce. Their main enemy is - Man. So, remove Man from the scene and the root cause of hunger and overwork will be abolished for ever. The book narrates about the agony of ill-treated farm animals. Then what decision they take and how this Animal Farm born, everything has become very interesting. The ultimate satire on fascism. A must-read book.
