## Camper Rehab

## A Guide to Buying, Repairing, and Upgrading Your Travel Trailer

*Old campers have an appeal that reaches back in time and can send your imagination soaring. Let's face it: they are cool. Who hasn't seen one parked on a boulevard with a "for sale" sign and pictured it bouncing along behind the family car, ready for adventure and fun? Unfortunately, campers are not quite homes, they are not quite cars, and they have their own unique systems and demands that make fixing and upgrading a challenge. Even if you have plenty of DIY experience, a camper speaks a foreign language. Consider Camper Rehab your Rosetta Stone for the language of Shasta, Dutchmen, or Airstream. This book is a top-to-bottom guide to getting a fifth-wheel, teardrop, or other camper trailer ready for the road and beyond. From basic troubleshooting to electrical and plumbing projects, replacing interior surfaces, and clever (sometimes "retro") decorating ideas, this book uses detailed illustrations, color photography, and a wealth of step-by-step, how-to information to get help you get*

*your travel trailer into shape for your next big--or little--adventure. And in case you haven't pulled the trigger on that trailer you're eying on Craigslist just yet, Camper Rehab also walks you through the process of evaluating a potential purchase, identifying which issues are fixable and which are dealbreakers, as well as how to spot hidden problems. Written by accomplished DIY author Chris Peterson, whose light and approachable tone is coupled with the hardworking DIY information you need, Camper Rehab is a must-have for any camper owner or dreamer.*

## A Republic of Rivers

### Three Centuries of Nature Writing from Alaska and the Yukon

*Oxford University Press "The spell of Alaska," Ella Higginson wrote in 1908, "falls upon every lover of beauty who has voyaged along those far northern snow-pearled shores...or who has drifted down the mighty rivers of the interior which flow, bell-toned and lonely, to the sea....No writer has ever described Alaska; no one writer ever will; but each must do his share, according to the spell that the country casts upon him." In A Republic of Rivers, John Murray offers the first comprehensive anthology of nature writing in Alaska and the Yukon, ranging from 1741 to the present. Many of the writers found here are major figures--John Muir, Jack London, Annie Dillard, Barry Lopez, and Edward Abbey--but we also discover the voices of missionaries, explorers, mountain-climbers, Native Americans, miners, scientists, backpackers, and fishermen, each trying to capture something of the beauty of this still pristine land, to render in their own words the spell that the country casts upon them. The range of viewpoints is remarkable. With Annie Dillard we look out at ice floes near the remote Barter Island and see "what newborn babies must see: nothing but senseless variations of light on the retinas." With Frederick Litke we mourn the senseless slaughter of sea mammals. We join scientist Adolph Murie, the father of wolf ecology, as he probes the daily life of an East Fork wolf pack. And we listen as Tlingit Indian Johnny Jack relates the difficulty of maintaining a dignified life close to nature at a time of cultural upheaval for his people. Most of these selections have never appeared in any anthology and some entries--particularly those written by early American and Russian explorers--have never been available to general readers. There is laughter here and there is sorrow, but finally there is communion and liberation as generation after generation encounter the unsurpassed beauty and wildness of the Arctic. Taken together, these forty-nine men and women provide a unique portrait of America's final frontier.*

## Scotland

*From the cities of Glasgow and Edinburgh to the remote wilderness areas, this comprehensive guide explores Scotland's unique culture, history, music, and food, and points out the best pubs, bed and breakfasts, historical landmarks, and other places to visit. 32 maps. color photos.*
