### The 9/11 Commission Report

### Final Report of the National Commission on Terrorist Attacks Upon the United States

Createspace Independent Publishing Platform Nearly three thousand people died in the terrorist attacks of September 11, 2001. In Lower Manhattan, on a field in Pennsylvania, and along the banks of the Potomac, the United States suffered the single largest loss of life from an enemy attack on its soil. In November 2002 the United States Congress and President George W. Bush established by law the National Commission on Terrorist Attacks Upon the United States, also known as the 9/11 Commission. This independent, bipartisan panel was directed to examine the facts and circumstances surrounding the September 11 attacks, identify lessons learned, and provide recommendations to safeguard against future acts of terrorism.

### The Ragged Trousered Philanthropists

NYU Press The Ragged Trousered Philanthropists is a classic representation of the impoverished and politically powerless underclass of British society in Edwardian England, ruthlessly exploited by the institutionalized corruption of their employers and the civic and religious authorities. Epic in scale, the novel charts the ruinous effects of the laissez-faire mercantilist ethics on the men, women, and children of the working classes, and through its emblematic characters, argues for a socialist politics as the only hope for a civilized and humane life for all. It is a timeless work whose political message is as relevant today as it was in Tressell's time. For this it has long been honoured by the Trade Union movement and thinkers across the political spectrum.

### Reputation Capital

### Building and Maintaining Trust in the 21st Century

Springer Science & Business Media • ... release reputation bearers from the burden of being constantly monitored and reduce the likelihood of government or public supervision and control. • ... strengthen client trust, ease the recruitment and retention of capable employees and improve access to capital markets or attract investors. • ... legitimate positions of power and build up reserves of trust which - lowed companies and politicians - but also researchers and journalists - to put their issues on the public agenda, present them credibly and mould them in their own interests. But a fear of loss is not the only reason for the steadily increasing - portance of reputation in corporate management today (or more especially, in the minds of top management). Rather, the main reason is that corporate reputation has shifted from being an unquantifiable 'soft' factor to a measurable indicator in the sense of management control. And it is a variable that is obviously relevant to a company's performance: recent studies by the European Centre for Reputation Studies and the Ludwig-Maximilians- Universität of Munich compared the stock market performance of a portfolio of the top 25% of reputation leaders (based on regular reputation measurements in the wider public) with that of the German DAX 30 stock market index. The results show that a portfolio consisting of reputation leaders 1 outperformed the stock market index by up to 45% - and with less risk. Fig. 1. Performance of 'reputation portfolios' vs.

### The Inverting Pyramid

### Pension Systems Facing Demographic Challenges in Europe and Central Asia

World Bank Publications Europe's pension systems -among the most celebrated features of its social welfare model- face tremendous challenges. With only 11 percent of the world's population, Europe spends about 60 percent of global outlays on social protection, largely in pensions. In many countries, pension rules have encouraged people to retire sooner, while enjoying longer lives. Payroll taxes on a continuously expanding contributory base have financed these benefits. This model of pension provision is now being severely tested as pension systems reach maturity, while the population is aging and the labor force is starting to shrink. Measures to enable a continued tradition of providing old age security will include • raising retirement ages such that pensions are provided in the last 15 years of life, when work capacity traditionally diminishes • encouraging immigration to help fill the declining work force • rationalizing pension spending, putting priority on preventing old age poverty, and • encouraging savings to help provide the more comfortable retirement that individuals have come to expect. Some measures may be more appropriate in particular countries than others, yet undertaking all of them will likely require less drastic changes in any one of them. The specific choices will need to be discussed and agreed among each country's own population, and be accompanied by enabling changes in pension policy, tax policy, financial markets policy, and labor policy. The fundamental issue is that, with these changes, the important achievements of European social policy can withstand the demographic onslaught and continue to provide old age security for generations to come.

### The Structuring of Organizations

#### A Synthesis of the Research

Prentice Hall How do organizations structure themselves? A synthesis of the empirical literature in the field, supported by numerous examples and illustrations, provides images that produce a theory. The author introduces five basic configurations of structure - the simple structure, the machine bureaucracy, the professional bureaucracy, the divisionalized form, and the adhocracy. This book reveals that structure seems to be at the root of many questions about organizations and why they function as they do.

### Historical Painting Techniques, Materials, and Studio Practice

#### Preprints of a Symposium, University of Leiden, the Netherlands, 26–29 June 1995

Getty Publications Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangka. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

## Ward Layouts with Single Rooms and Space for Flexibility

The Stationery Office This report is the result of a three-year programme of research which examines the benefits of single rooms in acute hospital accommodation and establishes the minimum space requirements around the hospital bed. It will underpin the updating of HBN 4, currently in progress. The main issues addressed are: contributing to control of healthcare associated infections; complying with the Disability Discrimination Act 1995; meeting the needs of the Manual Handling Operations Regulations 1992, particularly with regards to lifting patients; meeting the needs of patient privacy and choice. The report seeks affordable solutions encompassing all these issues. It concludes that single rooms provide considerable benefits for patients, clinicians and NHS trusts through helping in infection control, reducing the risk of adverse clinical errors, allowing privacy, and providing flexibility with the potential for increased capacity.

## Visual Methods in Social Research

SAGE There has been an explosion of interest in visual culture - coming largely from work in sociology, anthropology and cultural studies and while there are a number of practical and technical manuals available for film, photographic and other visual media, there is a dearth of writing that combines both the practical and the technical. This book redresses this with a balanced approach that is written primarily for students in the social sciences who wish to use visual materials in the course of empirical, qualitative field research. It should also be of interest to experienced researchers who wish to expand their methodological approaches.

### Hospital-Based Emergency Care

### At the Breaking Point

National Academies Press Today our emergency care system faces an epidemic of crowded emergency departments, patients boarding in hallways waiting to be admitted, and daily ambulance diversions. Hospital-Based Emergency Care addresses the difficulty of balancing the roles of hospital-based emergency and trauma care, not simply urgent and lifesaving care, but also safety net care for uninsured patients, public health surveillance, disaster preparation, and adjunct care in the face of increasing patient volume and limited resources. This new book considers the multiple aspects to the emergency care system in the United States by exploring its strengths, limitations, and future challenges. The wide range of issues covered includes: • The role and impact of the emergency department within the larger hospital and health care system. • Patient flow and information technology. • Workforce issues across multiple disciplines. • Patient safety and the quality and efficiency of emergency care services. • Basic, clinical, and health services research relevant to emergency care. • Special challenges of emergency care in rural settings. Hospital-Based Emergency Care is one of three books in the Future of Emergency Care series. This book will be of particular interest to emergency care providers, professional organizations, and policy makers looking to address the deficiencies in emergency care systems.

## The Shock Doctrine

## The Rise of Disaster Capitalism

Penguin UK 'Impassioned, hugely informative, wonderfully controversial, and scary as hell' John le Carré Around the world in Britain, the United States, Asia and the Middle East, there are people with power who are cashing in on chaos; exploiting bloodshed and catastrophe to brutally remake our world in their image. They are the shock doctors. Exposing these global profiteers, Naomi Klein discovered information and connections that shocked even her about how comprehensively the shock doctors' beliefs now dominate our world - and how this domination has been achieved. Raking in billions out of the tsunami, plundering Russia, exploiting Iraq - this is the chilling tale of how a few are making a killing while more are getting killed. 'Packed with thinking dynamite ... a book to be read everywhere' John Berger 'If you only read one non-fiction book this year, make it this one' Metro Books of the Year 'There are a few books that really help us understand the present. The Shock Doctrine is one of those books' John Gray, Guardian 'A brilliant book written with a perfectly distilled anger, channelled through hard fact. She has indeed surpassed No Logo' Independent
