## **MAKING A GOOD SCRIPT GREAT**

---

Samuel French , Incorporated "Making a good script great is not just a matter of having a good idea. Nor is it a matter of just putting that good idea down on paper. In scriptwriting, it's not just the writing but also the rewriting that counts. [This book] focuses on the rewriting process and offers specific methods to help you craft tighter, stronger, and more workable scripts. While retaining all the valuable insights that have made the first edition one of the all-time most popular screenwriting books, this expanded, second edition adds new chapters that take you through the complete screenwriting process, from the first draft through the shooting draft. If you're writing your first script, this book will help develop your skills for telling a compelling and dramatic story. If you're a veteran screenwriter, this book will articulate the skills you know intuitively. And if you're currently stuck on a rewrite, this book will help you analyze and solve the problems and get your script back on track."--Back cover.

## PRIVATE LESSONS FROM THE WORLD'S FOREMOST DIRECTORS

---

Farrar, Straus and Giroux From Scorsese and Lynch to Wenders and Godard, interviews with twenty of the world's greatest directors on how they make films--and why Each great filmmaker has a secret method to his moviemaking--but each of them is different. In *Moviemaker Master Class*, Laurent Tirard talks to twenty of today's most important filmmakers to get to the core of each director's approach to film, exploring the filmmaker's vision as well as his technique, while allowing each man to speak in his own voice. Martin Scorsese likes setting up each shot very precisely ahead of time--so that he has the opportunity to change it all if he sees the need. Lars Von Trier, on the other hand, refuses to think about a shot until the actual moment of filming. And Bernardo Bertolucci tries to dream his shots the night before; if that doesn't work, he roams the set alone with a viewfinder, imagining the scene before the actors and crew join him. In these interviews--which originally appeared in the French film magazine *Studio* and are being published here in English for the first time--enhanced by exceptional photographs of the directors at work, Laurent Tirard has succeeded in finding out what makes each filmmaker--and his films--so extraordinary, shedding light on both the process and the people behind great moviemaking. Among the other filmmakers included are Woody Allen, Tim Burton, Joel and Ethan Coen, and John Woo.

## STORYTELLING IN FILM AND TELEVISION

---

Harvard University Press Derided as simple, dismissed as inferior to film, famously characterized as a vast wasteland, television nonetheless exerts an undeniable, apparently inescapable power in our culture. The secret of television's success may well lie in the remarkable narrative complexities underlying its seeming simplicity, complexities Kristin Thompson unmask in this engaging analysis of the narrative workings of television and film. After first looking at the narrative techniques the two media share, Thompson focuses on the specific challenges that series television presents and the tactics writers have devised to meet them--tactics that sustain interest and maintain sense across multiple plots and subplots and in spite of frequent interruptions as well as weeklong and seasonal breaks. Beyond adapting the techniques of film, Thompson argues, television has wrought its own changes in traditional narrative form. Drawing on classics of film and television, as well as recent and current series like *Buffy the Vampire Slayer*, *The Sopranos*, and *The Simpsons*, she shows how adaptations, sequels, series, and sagas have altered long-standing notions of closure and single authorship. And in a comparison of David Lynch's *Blue Velvet* and *Twin Peaks*, she asks whether there can be an "art television" comparable to the more familiar "art cinema."

This book will particularly please readers who are interested in the behind the scenes story of both the genius of Allen and the way the show originated and evolved. Created in 1954, The Tonight Show is the longest-running and most successful late night program and it was Allen who invented the formula with which we are all now familiar...makes for great reading.- Bookviews.comSteve Allen had a tremendous influence on me. He was the inspiration for everything we do here.- Jay LenoSteve Allen was an enormous influence on television. His early work is really the foundation for what late night shows have become.- David LettermanEverybody who ever has done a talk show should pay a royalty to Steve Allen.- Bill MaherIf you have ever turned on the TV after the 11 o'clock news and laughed, you owe Steve Allen a debt of gratitude. That's how Entertainment Weekly described Steve Allen's enormous contribution to American popular culture in a tribute to the legendary entertainer after his death on October 30, 2000. Steve Allen created the Tonight show - America's longest running entertainment show and most successful late-night TV show. In so doing he led the way for other American icons: Johnny Carson, Jack Paar, David Letterman, and Jay Leno. The formula we all now take for granted did not exist before Allen: the desk, the opening monologue, breezy chats with celebrities, wacky stunts, comedy sketches, cameras roaming down the hall and outside the theater, off-the-cuff interviews with passers-by, and ad-lib banter with the studio audience. It's all great fun and it's all due to the incredibly witty, incurably silly, musically gifted, and ever-likeable Steve Allen.Based on exclusive interviews, Ben Alba has produced this wonderful history of the first Tonight show, complete with terrific photos from the show and revealing insights from over 30 entertainment legends who knew and worked with Steve Allen - including Sid Caesar, Carl Reiner, Jonathan Winters, Don Knotts, Louis Nye, Tom Poston, Bill Dana, Steve Lawrence and Eydie Gorme, Andy Williams, Tim Conway, the Smothers Brothers, Diahann Carroll, Eartha Kitt, Bill Dana, and Doc Severinsen. In addition, Jay Leno, David Letterman, Bill Maher, Bob Costas, and other TV veterans reflect on Allen's contributions.Starting with Allen's early career in radio, Alba shows how the young radio talent developed many of the elements that would soon light up late-night television. He then highlights Allen's

many innovations that made the Tonight show so appealing and enduring: the single-guest and single theme shows, road shows and live segments from across the country, Broadway shows visiting Tonight, creating a forum for jazz artistry and a groundbreaking showcase for African-American talent, musical tributes, and the use of the studio audience as a comedy goldmine. Alba has created an invaluable, entertaining, and revealing behind-the-scenes look at the birth of an American television institution and its brilliant inventor, whose influence continues to make America stay awake and laugh -night after nig

## **THE WIRE**

---

### **URBAN DECAY AND AMERICAN TELEVISION**

---

Bloomsbury Publishing USA The first collection of critical essays on HBO's *The Wire* - the most brilliant and socially relevant television series in years *The Wire* is about survival, about the strategies adopted by those living and working in the inner cities of America. It presents a world where for many even hope isn't an option, where life operates as day-to-day existence without education, without job security, and without social structures. This is a world that is only grey, an exacting autopsy of a side of American life that has never seen the inside of a Starbucks. Over its five season, sixty-episode run (2002-2008), *The Wire* presented several overlapping narrative threads, all set in the city of Baltimore. The series consistently deconstructed the conventional narratives of law, order, and disorder, offering a view of America that has never before been admitted to the public discourse of the televisual. It was bleak and at times excruciating. Even when the show made metatextual reference to its own world as Dickensian, it was too gentle by half. By focusing on four main topics (Crime, Law Enforcement, America, and Television), *The Wire: Urban Decay and American Television* examines the series' place within popular culture and its representation of the realities of inner city life, social institutions, and politics in contemporary American society. This is a brilliant collection of essays on a show that has taken the art of television drama to new heights.

### **VALE'S TECHNIQUE OF SCREEN AND TELEVISION WRITING**

---

Taylor & Francis Vale's Technique of Screen and Television Writing is an updated and expanded edition of a valuable guide to writing for film and television. Mr. Vale takes the aspiring writer through every phase of a film's development, from the original concept to the final shooting script. Teachers of the craft as well as writers and directors have acclaimed it as one of the best books ever written on how to write a screenplay. This book combines practical advice for the aspiring or established writer with a lucid overview of the unique features of this most contemporary art form, distinguishing film and video from other media and other kinds of storytelling. It teaches the reader to think in terms of the camera and gives practical advice on the realities of filmmaking. At the same time, Vale, who began his own career as a scriptwriter for the great French director Jean Renoir, provides a solid grounding in the history of drama from the Classical Greek theater through the great cinematic works of the twentieth century. Both philosophical and pragmatic, this is a very readable book for students and active professionals who want to improve their writing skills, and for film enthusiasts interested in knowing more about what they see on the screen. Mr. Vale is that rare combination, a practitioner of great experience who can offer a lucid explanation of his craft. Eugene Vale was born in Switzerland and began his career in France in the 1930s. He was an award-winning novelist, film and TV scriptwriter and teacher, whose works include the bestselling novel *The Thirteenth Apostle* and the scripts for *Francis of Assisi*, *The Bridge of San Luis Rey*, and *The Second Face*. He also worked in many other areas of the motion picture industry, including directing, producing, cutting, distribution and finance. His archives are held by Boston University and University of Southern California. Mr. Vale died in 1997, shortly after he completed the updated version of this handbook.

## PSYCHOLOGICAL REFLECTIONS ON CINEMATIC TERROR

---

### JUNGIAN ARCHETYPES IN HORROR FILMS

---

Praeger Pub Text In this examination of the psychology of terror, Iaccino uses Jungian archetypes to analyze significant works in the horror film genre. In the past, Jungian archetypes have been used to interpret mythologies, to examine great works of literature, and to explain why sexual stereotypes persist in our society. Here, for the first time, Iaccino applies such models as the Cursed Wanderers, the Warrior Amazons, the Random Destroyers, and the Techno-Myths to highlight recurrent themes in a wide range of films, from early classics such as *Nosferatu* to the contemporary *Nightmare on Elm Street* and *Alien* series. With this innovative approach, Iaccino gains a new perspective on the psychology of the often powerful compulsion to be scared.

## PETER BROOK: THREADS OF TIME

---

---

## **A MEMOIR**

---

Bloomsbury Publishing The theatre's greatest contemporary director tells the story of his life Peter Brook is the modern stage's greatest inventor. For over fifty years he has held audiences spellbound with his critically acclaimed productions. Now he has finally written an account of his life. Born in 1925 in London, at twenty-one Brook became the enfant terrible of British theatre directing major post-war productions of Shakespeare at Stratford-upon-Avon, opera at Covent Garden and new plays in London's West End. He even made films. In 1964 he produced Peter Weiss's Marat/Sade for the RSC and his whole approach to theatre became radicalised. Throughout the 1970s and 1980s Brook began exploring the roots of non-Western theatre which once again changed his view of what theatre could be for actors and audiences. His journey took him to Paris where he founded a company at the Bouffes du Nord theatre where he still works today. Brook's biography charts all the stages of his aesthetic and spiritual journey, and touches on all parts of a career that has been widely reported but never previously talked about from his personal perspective. "First there was the master conjurer adept at musicals, farces, opera and Shakespeare. Then there was the philosopher-king. . . who has devoted his energies to a quest for a theatre that was simple in form and rich in meaning" (Michael Billington)

Random House Lessons in creativity and business from the president of Pixar and Disney Animation \_\_\_\_\_ 'Just might be the best business book ever written.' Forbes Magazine This is the story behind the company that changed animation forever. Here, the founder of Pixar reveals the ideas and techniques that have made Pixar one of the most widely admired creative businesses, and one of the most profitable. As a young man, Ed Catmull had a dream: to make the world's first computer-animated movie. When an early partnership with George Lucas led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986, he couldn't have known what would come. Nine years later and against all odds, Toy Story was released. It was the start of a new generation of animation. Through its focus on the joy of storytelling, inventive plots and emotional authenticity, Pixar revolutionised how animated films were created. ## **ON DECOLONIALITY**

---

### **CONCEPTS, ANALYTICS, PRAXIS**

---

Duke University Press In *On Decoloniality* Walter D. Mignolo and Catherine E. Walsh explore the hidden forces of the colonial matrix of power, its origination, transformation, and current presence, while asking the crucial questions of decoloniality's how, what, why, with whom, and what for. Interweaving theory-praxis with local histories and perspectives of struggle, they illustrate the conceptual and analytic dynamism of decolonial ways of living and thinking, as well as the creative force of resistance and re-existence. This book speaks to the urgency of these times, encourages delinkings from the colonial matrix of power and its "universals" of Western modernity and global capitalism, and engages with arguments and struggles for dignity and life against death, destruction, and civilizational despair.

### **THE BASICS OF SCREENWRITING**

Routledge In this introduction to screenwriting, author Darsie Bowden provides sage, real-world advice and instruction on the process of writing film screenplays. This text will help budding screenwriters to structure their dramas, refine their characterizations, and craft their language, while also introducing them to the appropriate screenplay formats. It covers the complexities of writing for the screen and points out the contradictions to expect if readers pursue this work as a career. In addition to covering the elements of the dramatic film screenplay, Bowden discusses writing for such "alternative" markets as documentaries, independent films, experimental films, and other non-Hollywood options. Features of the text include: guidelines for working as a screenwriter; applications and exercises to enhance skills; suggested readings for further development; and a comprehensive list of resources for screenwriting.
