A New Reference Grammar of Modern Spanish, 4th Edition Routledge This text provides a comprehensive guide to the forms and structures of the Spanish spoken and written in Spain and Latin America. Examples have been introduced, drawing on contemporary Spanish and Latin American usage.

Conceptualism in Latin American Art Didactics of Liberation University of Texas Press Conceptualism played a different role in Latin American art during the 1960s and 1970s than in Europe and the United States, where conceptualist artists predominantly sought to challenge the primacy of the art object and art institutions, as well as the commercialization of art. Latin American artists turned to conceptualism as a vehicle for radically questioning the very nature of art itself, as well as art's role in responding to societal needs and crises in conjunction with politics, poetry, and pedagogy. Because of this distinctive agenda, Latin American conceptualism must be viewed and understood in its own right, not as a derivative of Euroamerican models. In this book, one of Latin America's foremost conceptualist artists, Luis Camnitzer, offers a firsthand account of conceptualism in Latin American art. Placing the evolution of conceptualism within the history Latin America, he explores conceptualism as a strategy, rather than a style, in Latin American culture. He shows how the roots of conceptualism reach back to the early nineteenth century in the work of Símon Rodríguez, Símon Bolívar's tutor. Camnitzer then follows conceptualism to the point where art crossed into politics, as with the Argentinian group Tucumán arde in 1968, and where politics crossed into art, as with the Tupamaro movement in Uruguay during the 1960s and early 1970s. Camnitzer concludes by investigating how, after 1970, conceptualist manifestations returned to the fold of more conventional art and describes some of the consequences that followed when art evolved from being a political tool to become what is known as "political art."

The Middle Voice and Connected Constructions in Ibero-Romance A variationist and dialectal account John Benjamins Publishing Company The reflexive constructions that are the focus of this book are the constructions broadly described with the term "middle": i.e., those that can appear in all persons, and in which the reflexive marker (RM) cannot be understood as a full referential pronoun. One goal of this study is to provide a corpus-based typology of middle and related uses that allow us to compare the behaviour of the RM in these constructions with previous typological accounts, where competing models (based either on changes of diathesis or on the semantics of the verbal event) can be found. A second goal is to shed light on the evolution of the different functions of the RM, by exploring the factors that affect its productivity, with a specific focus on those verbs where reflexive marking is most variable, that is, anticausative verbs and verbs with no change of valency. These reflexive constructions show a notable difference in productivity in Spanish and Galician, although the languages are closely related and contiguous. The languages are thus good candidates for a contrastive and variationist analysis serving these two goals. The semantic class of the predicate, its aspectual properties and the animacy of the subject are some of the most relevant factors that are taken into account to understand the motivations behind the presence (or absence) of the RM. By relying on a corpus of interviews from rural communities across peninsular Spain (except Catalonia), space as a relevant extra-linguistic variable is taken into account, helping uncover previously unknown geographical patterns.

World Literature Goodwill Trading Co., Inc. The American Voice Literary Culture and U.S. Imperialism From the Revolution to World War II
Oxford University Press on Demand John Carlos Rowe, considered one of the most eminent and progressive critics of American literature, has in recent years become instrumental in shaping the path of American studies. His latest book examines literary responses to U.S. imperialism from the late eighteenth century to the 1940s. Interpreting texts by Charles Brockden Brown, Poe, Melville, John Rollin Ridge, Twain, Henry Adams, Stephen Crane, W. E. B Du Bois, John Neihardt, Nick Black Elk, and Zora Neale Hurston, Rowe argues that U.S. literature has a long tradition of responding critically or contributing to our imperialist ventures. Following in the critical footsteps of Richard Slotkin and Edward Said, Literary Culture and U.S. Imperialism is particularly innovative in taking account of the public and cultural response to imperialism. In this sense it could not be more relevant to what is happening in the scholarship, and should be vital reading for scholars and students of American literature and culture.

They address works from Mexico, Chile, Peru, Ecuador, Colombia, Cuba, Brazil, Argentina, Guatemala, Nicaragua, and Uruguay, as well as from indigenous communities found within these national distinctions, including the Kaqchikel Maya and Zapotec. The volume's essays help instructors teach poetry written from the second half of the twentieth century on, meaningfully connecting this contemporary corpus with older poetic traditions. Contributors address teaching various topics, from the *silva* and the long poem to Afro-descendant poetry, in ways that bring performance, digital approaches, queer theory, and translation into action. The insights offered here will demonstrate how Latin American poetry can become a part of classes in African diasporic studies, indigenous studies, history, and anthropology. **The Princeton Encyclopedia of Poetry and Poetics Fourth Edition Princeton University Press** The most important poetry reference for more than four decades—now fully updated for the twenty-first century Through three editions over more than four decades, The Princeton Encyclopedia of Poetry and Poetics has built an unrivaled reputation as the most comprehensive and
