FORWARD DRIVE

THE RACE TO BUILD THE CLEAN CAR OF THE FUTURE

Earthscan This comprehensive account of the past, present and future of the automobile examines the key trends, key technologies and key players involved in the race to develop clean, environmentally friendly vehicles that are affordable and that do not compromise on safety or design. Undertaking a rigorous interrogation of our global dependency on oil, the author demonstrates just how unwise and unnecessary this is in light of current developments such as the fuel cell revolution and the increasing viability of hybrid cars, which use both petrol and electricity - innovations that could signal a new era of clean, sustainable energy. The arguments put forward draw on support from an eclectic range of sources - including industry insiders, scientists, economists and environmentalists - to make for an enlightening read.

HOW DID YOU FIND ME?

iUniverse When my father passed away in April, 2000, my sister and I were confronted with the clear fact that our mother could no longer take care of herself. Dad had done such a good job "covering" for her, that the family was not aware of Mom's increasing incapacity. It was upto my sister and I, then, to determine what was going on inside Mom's body to cause these changes, and what needed to happen for her to be as safe and happy as she could be after losing her partner of 62 years. This book is a very personal account of the time from my father's death to my mother's death. During these six years, our family worked through lots of tough decisions, shared lots of memories, and expressed lots of love. We learned about things we never expected to learn. We did things we never expected to do. We had to shift perceptions and our roles as we carried out the necessary steps in helping our mom through Alzheimer's. Until you experience it yourself, it is hard to imagine how you will feel when the parent who bore you looks at you blankly and treats you like a stranger.

MUSTANG BY DESIGN

GALE HALDERMAN AND THE CREATION OF FORD'S ICONIC PONY CAR

CarTech Inc p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial} Without question, the 1964-1/2 Mustang is one of the most important and influential cars in automotive history. When Ford launched the Mustang, it created an automotive revolution. Award-winning designer and stylist Gale Halderman was at the epicenter of the action at Ford, and, in fact, his initial design sketch formed the basis of the new Mustang. He reveals his involvement in the project as well as telling the entire story of the design and development of the Mustang. Authors and Mustang enthusiasts James Dinsmore and James Halderman go beyond the front doors at Ford into the design center, testing grounds, and Ford facilities to get the real, unvarnished story. Gale Halderman offers a unique behind-the-scenes perspective and firsthand account of the inception, design, development, and production of the original Mustang. With stinging losses from the Edsel fresh in minds at Ford, the Mustang project was an uphill battle from day one. Lee Iacocca and his assembled team had a herculean task to convince Henry Ford II to take a risk on a new concept of automobile, but with the help of Hal Sperlich's detailed market research, the project received the green light. Henry Ford II made it clear that jobs were on the line, including Iacocca's, if it failed. The process of taking a car from sketch to clay model to prototype to preproduction and finally finished model is retraced in insightful detail. During the

process, many fascinating experimental cars, such as the Mustang I two-seater, Mustang II prototype, Mustang Allegro, and Shorty, were built. But eventually the Mustang, based on the existing Ford Falcon, received the nod for final production. In a gala event, it was unveiled at the 1964 World's Fair in New York. The Mustang received public accolades and critical acclaim, and soon it became a runaway hit. After the initial success, Ford designers and Gale Halderman designed and developed the first fastback Mustangs to compliment the coupes. The classic Mustang muscle cars to follow, including the GT, Mach 1, and others, are profiled as well. The Mustang changed automotive history and ushered in the pony car era as a nimble, powerful, and elegantly styled sports coupe. But it could so easily have stumbled and wound up on the scrap pile of failed new projects. This is the remarkable and dramatic story of how the Mustang came to life, the demanding design and development process, and, ultimately, the triumph of the iconic American car.

HOW TO MAKE A FRIEND

Random House Have you ever thought someone was watching you . . . but there was no one there? One summer's evening, Alice sees something out of the corner of her eye. She turns to look: just a trick of the light. She is no longer the lonely little girl she once was, with her games of make-believe and imaginary friend, Sam. Then Alice's world is shattered in a tragic accident, and Sam creeps out of the shadows and back into her life. At first Alice is comforted by his presence: a best friend to help fill the void in her heart. Perhaps even help her find someone real to share her life with. But Alice and Sam know he can only exist if she wants him there. So when Alice decides it's time for him to leave, who will get hurt in order for him to stay alive? A compelling novel that fans of page-turners such as Clare Mackintosh's I LET YOU GO and S. K. Tremayne's THE ICE TWINS will be gripped by.

BUILT FOR SPEED: WORLD'S FASTEST ROAD CARS

THE ART OF RAY HARRYHAUSEN

Watson-Guipill Publications Now available in paperback, The Art of Ray Harryhausen focuses on the lifetime of work that Harryhausen has preserved, much of which is published here for the first time. His collection includes preliminary sketches, elaborate drawings of key scenes, carefully plotted storyboards, and the models that were used in films. Harryhausen begins by exploring his early work and influences, then takes readers through projects divided by theme - fairy tales, dinosaurs and aliens, for example. This body of work lets readers discover how the artist develops an idea from his imagination to the breathtaking character that appears on the screen.
