MING TEA MURDER

Penguin It's scones and scandal for Indigo Tea Shop owner Theodosia Browning in the latest from the New York Times bestselling author of Steeped in Evil... Normally Theodosia wouldn't attend a black tie affair for all the tea in China. But she can hardly say no to her hunky, handsome boyfriend, Max, who directs public relations for the Gibbes Museum in Charleston. Max has organized an amazing gala opening for an exhibit of a genuine eighteenth century Chinese teahouse, and the crème de la crème of Charleston society is invited. In the exotic garden staged in the museum's rotunda, a Chinese dragon dances to the beat of drums as it weaves through the crowd. The guests are serenaded by a Chinese violin as they sample an assortment of tempting bites. And to give them a memento of the occasion, there's even a photo booth. But Theodosia makes a grim discovery behind the booth's curtains: the body of museum donor Edgar Webster. While Theodosia prefers tea service over the service of justice, this case is difficult to ignore—especially after Max becomes a suspect. Now she must examine the life of the fallen philanthropist and find out who really wanted him to pay up... **INCLUDES DELICIOUS RECIPES AND TEA TIME TIPS!**

HOW TO SUCCEED IN THE MUSIC BUSINESS WITHOUT SELLING YOUR SOUL

ALONE

Sourcebooks, Inc. This must-read for lovers of Stephen King's The Shining will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

A GRAMMAR OF SHAOWU

A SINITIC LANGUAGE OF NORTHWESTERN FUJIAN

Walter de Gruyter GmbH & Co KG This is the first comprehensive grammar of Shaowu, a Min language spoken in Shaowu city and its environs in northwestern Fujian province, China. The book offers first-hand linguistic data collected over four years in the field, now placed at the disposal of researchers and students working in language documentation, comparative linguistics and Sinitic typology. It can serve as a reference grammar for those interested in learning the Shaowu language, thereby helping to preserve it. In addition, the book provides insights into Shaowu's classification which has been widely debated, thus elucidating its genetic affiliation. The book first presents Shaowu's geography, demography and history. It then profiles the language's phonology and lexicon, before providing a detailed description of its syntax, notably on its nominal, predicate, clausal and complex sentence structures, which are the focus of the book. The typological profile of Shaowu is also treated with the conclusion that the language has Gan, Hakka, Mandarin and even some Wu overlays on its Min base. The Shaowu language serves an excellent example to illustrate the degree of hybridity a language can attain due to intensive language contact over time.

IN BATTLE FOR PEACE

THE STORY OF MY 83RD BIRTHDAY

Oxford University Press W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. One of the most neglected and obscure books by W. E. B. Du Bois, *In Battle for Peace* frankly documents Du Bois's experiences following his attempts to mobilize Americans against the emerging conflict between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial-he was later acquitted-and faced political persecution for over a decade. Part autobiography and part political statement, *In Battle for Peace* remains today a powerful analysis of race in America. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by Manning Marable, this edition is essential for anyone interested in African American history.

THE TUNGARA FROG

A STUDY IN SEXUAL SELECTION AND COMMUNICATION

University of Chicago Press In a Panamanian pond, male túngara frogs (*Physalaemus pustulosus*) gather in choruses, giving their "advertisement" call to the females that move

among them. If a female chooses to make physical contact with a male, he will clasp her and eventually fertilize her eggs. But in vying for the females, the males whose calls are most attractive may also attract the interest of another creature: the fringe-lipped bat, a frog eater. In the Túngara Frog, the most detailed and informative single study available of frogs and their reproductive behavior, Michael J. Ryan demonstrates the interplay of sexual and natural selection. Using techniques from ethology, behavioral ecology, sensory physiology, physiological ecology, and theoretical population genetics in his research, Ryan shows that large males with low-frequency calls mate most successfully. He examines in detail a number of explanations for the females' preferences, and he considers possible evolutionary forces leading to the males' success. Though certain vocalizations allow males to obtain mates and thus should be favored by sexual selection, this study highlights two important costs of such sexual displays: the frogs expend considerable energy in their mating calls, and they advertise their whereabouts to predators. Ryan considers in detail how predators, especially the fringe-lipped bat (*Trachops cirrhosus*), affect the evolution of the túngara frog's calls.
