Style City

How London Became a Fashion Capital

Frances Lincoln Limited **One of Britain's greatest cultural achievements of the late 20th century was the establishment of British designer fashion. Robert O'Byrne explores this phenomenon from the mid-'70s, when designer fashion scarcely existed in Britain, to the new millennium, by which time London ranked alongside Paris, New York, and Milan as a world-class fashion capital. The book describes and illustrates all the key players and influences of British fashion in the period: not only the designers but also the music, the clubs, the parties, the amazing dressing-up tradition, and London itself. The language of fashion is visual, and this sumptuous book reflects that with evocative photographs by Norman Parkinson, David Bailey, Patrick Lichfield, Barry Lategan, and others, including iconic images such as the young Princess of Wales, Katherine Hamnett at 10 Downing Street wearing her "60 percent don't want Pershing" T-shirt, Margaret Thatcher in Aquascutum, and other rare shots from the designers' own archives.**

High Fashion

The 20th Century Decade by Decade

From the Golden Age of Haute Couture in the 1900s to the lifestyle brands of the 1990s, this book looks, decade-by-decade, at the high fashion of the 20th century. Each chapter examines the significant stylistic changes that occurred in the decade in question, and places these in their cultural and political context. The book is illustrated throughout with photographs and drawings of the clothes and the people who wore them. Alongside the individual chapters, three designers that made their mark on fashion are discussed, as well as three key looks per decade. Many of the designers are household names; some are lesser known. But all these individuals, whether through their designs or their business practices, are exemplars of their age.
