Practical Japanese Made Simple

Borden Publishing Company

Japanese Reading for Beginners

Speak Japanese Today!

A Little Language Goes a Long Way!

Cultural-Insight Books *Japanese for the World* Compiled by Japanologist/author Boy Lafayette De Mente, *Speak Japanese Today* is designed for anyone who comes into contact with Japanese and wants to communicate with them in their own language. The first portion of the book provides an introduction to the pronunciation of Japanese and an easy overview of the structure of the language. It also includes basic greetings, farewells, telling time, everyday expressions about the weather, giving directions, telling distances, counting, money, telephoning and much more. *Speak Japanese Today* is unique in that it also provides vocabulary and sentences for airline pilots, stewardesses, Immigration officials, Customs officials, hotel staff, restaurant staff, bartenders, shop clerks, taxi drivers, tour guides, doctors, people hosting Japanese students, and more. With a little practice, a person can communicate as many as 500 key concepts using only a 100-word vocabulary. *Speak Japanese Today* contains more than 700 key words which is close to the total number of words most people use in their own language in the course of a day. All of the words and expressions in the book are given in Romanized Japanese along with an easy-to-master pronunciation phonetic system that uses standard English. Just pronounce the phonetics as if they were English, and the sounds come out in Japanese

Cortina's Conversational Japanese

Intended for Self-study and for Use in Schools, with a Simplified System of Pronunciation

A Reference Grammar of Japanese

University of Hawaii Press *This title explains the use of Japanese words such as wa, ga and mo looking at the rules and meanings of words in their literary forms.*

Cortina's Conversational Japanese

Intended for Self-study and for Use in Schools, with a Simplified System of Pronunciation

Japanese Language, Gender, and Ideology

Cultural Models and Real People

Oxford University Press *A collection of articles by established as well as young scholars in Japanese language and gender studies. This volume brings together studies that advance our understanding of the relationship between Japanese language and gender, with particular focus on examining local linguistic practices in relation to dominant ideologies.*

Japanese In Plain English

McGraw-Hill Education *With this book, "you can speak Japanese in no time! Its easy-to-use pronunciation system and straightforward presentation of the basics of the language - with plenty of useful sentences - help you break the language barrier quickly and confidently." - back cover.*

Japanese in Thirty Hours

First Course in Japanese Language for Either Class Room Use Or for Self Study, Systematized Direct Method

The Structure of the Japanese Language

MIT Press *Conventional grammars tell us when we can use given grammatical patterns. However, they almost invariably fail to tell us when we cannot use them. Many of the chapters of this book are concerned with the latter problem. They attempt to explain why some sentences that should be grammatical according to the explanations given in conventional grammars are in fact ungrammatical. In this sense, the book can be called a grammar of ungrammatical sentences.... It deals only with those problems of Japanese—and only a handful of them—that are either completely ignored or erroneously treated in conventional grammars. For these features I hope that the book will give the reader a revealing account of a kind seldom found in other Japanese grammars or in grammars of any other languages. —from the author's Preface Some features of Japanese are peculiarities of the language, while others are shared by English and various other languages of the world. At times two features, one in Japanese and one, for example, in English, that may look totally unrelated on casual inspection turn out to be a manifestation of the same principle, either syntactic or semantic, which governs the two languages. Whenever possible each feature of Japanese that the book discusses is contrasted with the features in English that are overtly or covertly related to it, and the similarities and differences that exist between the two languages with respect to this feature are examined. Thus the book can also be called a contrastive grammar of Japanese and English. The book reveals a wide variety of semantic*

and syntactic factors (some of them not very well known to linguists working on English) that control the usage of certain grammatical patterns. It also shows what kinds of sentences the linguist working on a nonnative language should check with native speakers of the language to prove or disprove his initial hypothesis. So in a third sense, Professor Kuno's study might be called a textbook of field methods in linguistic analysis. Because *The Structure of the Japanese Language* is both descriptive and analytical (the generalizations given in the book have been developed within the framework of the theory of transformational grammar but are presented without recourse to the complex formalisms of the theory), it will prove useful both as a basic handbook of supplementary reading for second-year or more advanced courses in Japanese and as a source of material for students and researchers doing work in Japanese or non-Indo-European linguistics. This is volume three in the series, *Current Studies in Linguistics*.

Subjectification

Various Paths to Subjectivity

Walter de Gruyter *Subjectification is a widespread phenomenon and has emerged as a most pervasive tendency in diachronic semantic change (Traugott) and in synchronic semantic extension (Langacker). Its importance is increasingly valued despite the fact that it is an area that has been treated differently by different scholars. One of the book's objectives is to generate a clearer understanding of the two major models of subjectivity, to see where they can meet but also where intrinsic differences present barriers to any integration. Another objective is to speculate on whether the notions of subjectivity and subjectification have reshaped our understanding of grammar. The goals of the volume are the following: The volume brings together contributions dealing with particular areas of grammar in the framework of subjectivity and subjectification. Starting with Stein and Wright's 1995 edition, publications on the specific process have broadened the scope of this research. Indeed, the question 'how far have we come?', addressed in the introduction, has become central in reaching a clearer understanding of the above framework and even expanding it. Individual papers explore not only wider questions and implications on the theoretical status of subjectivity and subjectification in language, but are empirically supported by thorough and extensive data from different languages (Asian languages, German, Spanish, Greek, Dutch, English). These studies of particular areas of grammar (modals, adjectives) or of levels of analysis (syntax) can help implement or adapt the existing accounts of subjectivity made in the literature. The challenge for every single paper is to show whether the two major approaches (Langacker's and Traugott's) can possibly be integrated or whether they are fundamentally different. The papers also investigate into the questions whether we have a continuum from highly subjective to more objective, whether subjective need be opposed to objective, or whether subjective may also be understood in contrast to neutral (which is often the case in Traugott's examples of grammaticalization). Furthermore, the issue of intersubjectivity, i.e., putting the addressee's perspective onstage, is also discussed.*

Handbook of English-Japanese Etymology

Basic Japanese

Learn to Speak Japanese in 10 Easy Lessons (Fully Revised & Expanded with Manga Illustrations, Audio Download & Japanese Dictionary)

Tuttle Publishing *An introduction to Japanese through authentic, commonly-used sentences. This best-selling Japanese textbook is a user-friendly guide for beginners designed for use in a classroom or self-study. It adopts a very different approach from other Japanese language books—teaching you the underlying sentence structures and patterns of Japanese along with essential vocabulary and phrases so you can attain basic fluency quickly. The emphasis is on acquiring a working knowledge of simple, everyday Japanese sentences. This new edition has been thoroughly updated and expanded to reflect the way Japanese is spoken in Japan today. Manga illustrations have been added to each dialogue along with the latest jargon for the internet, social media, cellphones, and IT, and a bidirectional dictionary is included at the back. Each self-contained lesson presents a simple four-step method: Step 1: Basic Sentences: Each lesson begins with a few simple sentences. Essential vocabulary and phrases are learned within the context of these sentences. Audio recordings by native speakers are in the downloadable audiok. Step 2: Communication Notes: A detailed discussion of each sentence follows to assist you in understanding the underlying structure and how to form new sentences based on the same pattern. Step 3: Everyday Conversations: Authentic dialogues with manga illustrations*

and native-speaker recordings show you how people communicate naturally in Japan today through simple, everyday interactions. Step 4: Exercises: Several sets of easy exercises help reinforce your understanding of the key points presented in the lesson and review what you have learned so you can move on to the next lesson.

Soliloquy in Japanese and English

John Benjamins Publishing *Language is recognized as an instrument of communication and thought. Under the shadow of prevailing investigation of language as a communicative means, its function as a tool for thinking has long been neglected in empirical research, vis-a-vis philosophical discussions. Language manifests itself differently when there is no interlocutor to communicate and interact. How is it similar and how does it differ in these two situations communication and thought? "Soliloquy in Japanese and English" analyzes experimentally-obtained soliloquy data in Japanese and in English and explores the potential utility of such data for delving into this uncharted territory. It deals with five topics in which elimination from discourse of an addressee is particularly relevant and significant. Four are derived from Japanese: the sentence-final particles "ne" and "yo," deixis and anaphora, gendered speech, linguistic politeness; the fifth topic is the use of the second person pronoun "you" in soliloquy in English.*

Japanese: A Comprehensive Grammar

Routledge *Japanese: A Comprehensive Grammar is a thorough reference guide to modern Japanese grammar. With its detailed treatment of all grammatical structures, it explores the complexities of the language fully, concentrating on the real patterns of use in contemporary Japanese as spoken and written by native speakers. This edition has been fully updated throughout, incorporating a new structure now organised by topic and providing specific attention to areas of particular difficulty. Examples have been updated throughout to reflect current usage and a glossary of linguistic terms has been added. Features include: Clear grammar points put into context using examples from a range of Japanese media Inclusive coverage of both colloquial and standard Japanese Extensive cross-referencing in all parts of the book A detailed index of Japanese and English terms Written by experts in this field, Japanese: A Comprehensive Grammar will be an essential reference source for the learner and user of Japanese at all levels.*

Mangajin

A Text-book of Colloquial Japanese

Japanese For Dummies

For Dummies Japanese is a wonderful language, very different from European languages. It is also the gateway to the rich culture of the exciting and complex island nation of Japan. Some people get intimidated by the prospect of speaking Japanese—worried that it's just too complex and different—but these fears are unfounded. While you can devote a lifetime to the study of this or any language, picking up the basics of Japanese doesn't require any more than an interest and a willingness to try something new. Japanese For Dummies has everything you need to get off the ground with speaking the language. Author and Professor of Japanese Eriko Sato starts you off with the essentials of grammar and pronunciation, giving you a working sense of the language, before showing you Japanese in action. You'll then explore vocabulary and expressions through dialogues taking place in situations such as: Introductions and greetings Eating and drink ing Shopping Exploring the town Talking on the telephone Asking directions Getting around Staying at a hotel You'll also discover social customs, formalities, and manners, from how and when to bow to how to unwrap a present. Whether you simply want to introduce yourself to the Japanese language, say a few words to a neighbor or coworker, or you're planning a major trip or study abroad in Japan, Japanese For Dummies will enable you to get the basics fast and work towards your own goal at your own pace. You'll also find out about: How to use karaoke to help you learn Japanese Movies that will introduce you to Japanese culture and language Learning Japanese the "gourmet" way When ignoring "no, thank you" shows good manners Proper table manners Proper body language How to sound fluent And much more! With helpful vocabulary summaries, a mini-dictionary at the end, and an audio CD full of conversations and pronunciations, Japanese For Dummies assumes no prior knowledge of Japanese on your part—providing the perfect guide for a quick-but-thorough, lighthearted-but-not-lightweight introduction to the language.

Colloquial Japanese

The Complete Course for Beginners

Routledge The latest edition of this popular Japanese course for beginners has been completely rewritten to make learning the language easier and more enjoyable than ever before.

Complete Japanese Verb Guide

Tuttle Publishing *The Complete Japanese Verb Guide is a handy, easy-to-use guide to one of the building blocks of language learning—verbs. To effectively learn Japanese, a strong knowledge of Japanese grammar and vocabulary is needed. This book will come to the rescue as it shows learners how to conjugate the 600 most common Japanese verbs quickly, and with very little effort. This is the only guide to list all verb forms in both Japanese script and romanized form, while giving an accurate English translation for each conjugated form, making this book far more comprehensive than any other book on the subject. Compiled by Japanese language experts at The Hiro Japanese Center, more than 30 different verbal forms are given for each verb including all forms used in contemporary spoken, written, formal and conversational Japanese—making this the ideal reference when reading any sort of Japanese printed materials including manga, newspapers, magazines and books. The Complete Japanese Verb Guide places an expert resource at your fingertips, giving you the information you need to speak, read, and write Japanese sentences correctly. Key features of this book are: Includes all the most useful verbs and Kanji (logographic Chinese characters) in Japanese, including less common ones. A wealth of example sentences are given to demonstrate correct verb usage. Over 30 forms are given for each verb including polite or formal, plain, negative, potential, conditional, passive, causative, and many more. Both Kana, Japanese script, and romanized forms are given for each entry. An ideal study guide for the standard Advanced Placement college test and the Japanese Language Proficiency Exam. Special sections are devoted to compound verbs and suru verbs such as Kaimono suru (to shop), benkyo suru (to study), and much more.*

Discourse Modality

Subjectivity, Emotion, and Voice in the Japanese Language

John Benjamins Publishing *The emotional aspects of language have so far not received the attention they deserve. This study focuses on nonpropositional, i.e. expressive and interactional meanings of Japanese signs, with special emphasis on understanding their cognitive, psychological and social meanings. It shows how the Japanese language is richly endowed to express personal voice and emotive nuances, and confronts the theoretical issues related to this. The author proposes a new theoretical framework for Discourse Modality, a primary concern for Japanese speakers, to analyze the 'expressiveness' of language.*

The Everything Conversational Japanese Book

Basic Instruction For Speaking This Fascinating Language In Any Setting

Simon and Schuster *A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.*

Japanese Language Patterns

A Structural Approach

Essential Japanese Vocabulary

Learn to Avoid Common (and Embarrassing!) Mistakes: Learn Japanese Grammar and Vocabulary Quickly and Effectively

Tuttle Publishing *This is a clear, simple and compact guide to colloquial, everyday Japanese. Acquire basic proficiency in spoken Japanese. A streamlined, efficient approach. Perfect for self-learners or classroom use. Includes kanji and kana. Essential Japanese Vocabulary teaches all the Japanese grammar you need to speak and understand simple spoken Japanese. Covering only what is essential, it provides an efficient way for learners who have limited time to gain basic proficiency and begin to communicate naturally with Japanese language speakers. Intended for both self-study and classroom use the guide offers a practical course in colloquial Japanese, but leaves aside forms that are unnecessary or little used as well as those that are more important for written Japanese. In short chapters, it helps the user understand the logic of Japanese grammar, while its straightforward explanations and clear examples make learning as easy as possible. The book includes a glossary of grammatical terms and an index, as well as appendixes on Japanese pronunciation and verb conjugation. In a focused and convenient approach, Essential Japanese Vocabulary is an indispensable tool for beginners just starting to learn Japanese or a handy aid for more experienced learners who wish to refresh their knowledge.*

Japanese Conversation-grammar

Key to the Japanese Conversation-grammar ...

Linguistic Emotivity

Centrality of Place, the Topic-comment Dynamic, and an Ideology of Pathos in Japanese Discourse

John Benjamins Publishing *Linguistic Emotivity explores expressive and emotive meanings in Japanese from the perspective of the Place of Negotiation theory. The Place of Negotiation theory provides a framework for understanding how linguistic signs function in the place of communication (in cognitive, emotive, and interactional places). The theory finds the indexicality of a sign fundamental and views meanings as being negotiated among interactants who share not only information but, more significantly, feelings. Using analytical tools recognized in conversation and discourse analyses, the book analyzes emotive topics (vocatives, emotive nominals, quotative topics, etc.) and emotive comments (da and ja-nai, interrogatives, stylistic shifts, etc.) in contemporary Japanese discourse. It argues for the importance of emotivity in Japanese, in the context of the Japanese culture of pathos. Linguistic Emotivity challenges the traditional view of language that privileges logos, form, information, and abstraction, and instead, it proposes a philosophical shift toward pathos, expression, emotion, and linguistic event/action.*
