Jungle Pilot The Gripping Story of the Life and Witness of Nate Saint, Martyred Missionary to Ecuador Discovery House Pub Hear a story of faithfulness to Christ when pilot Nate Saint and four other missionaries were killed in Ecuador by the people they had come to serve. Let the Nations be Glad The Supremacy Of God In Missions Inter-Varsity Press Mission is not the ultimate goal of the church. Worship is. Missions exist because worship doesn't. Worship is ultimate.' John Piper's contemporary classic draws on key biblical texts to demonstrate that worship is the ultimate goal of the church and that proper worship fuels missionary outreach. Piper offers a biblical defence of God's supremacy in all things, providing a sound theological foundation for missions. He examines whether Jesus is the only way to salvation and issues a passionate plea for God-centredness in the missionary enterprise, seeking to define the scope of the task and the means for reaching 'all nations'. Let the Nations Be Glad! is a trusted resource for missionaries, pastors, church leaders, youth workers, seminary students, and all who want to connect their labours to God's global purposes. This third edition has been revised and expanded throughout and includes new material on the 'prosperity gospel'. End of the Spear Tyndale House Publishers, Inc. 2005 ECPA Retailer's Choice Award winner for best biography/autobiography! Steve Saint was five years old when his father, missionary pilot Nate Saint, was speared to death by a primitive Ecuadorian tribe. In adulthood, Steve, having left Ecuador for a successful business career in the United States, never imagined making the jungle his home again. But when that same tribe asks him to help them, Steve, his wife, and their teenage children move back to the jungle. There, Steve learns long-buried secrets about his father's murder, confronts difficult choices, and finds himself caught between two worlds. Soon to be a major motion picture (January 2006), End of the Spear brilliantly chronicles the continuing story that first captured the world's attention in the bestselling book, Through Gates of Splendor. For the Gospel's Sake The Rise of the Wycliffe Bible Translators and the Summer Institute of Linguistics Wm. B. Eerdmans Publishing Informed take on the amazing growth of a very unusual missionary organization The two-sided mission organization comprising Wycliffe Bible Translators and the Summer Institute of Linguistics is a paradox that begs for an explanation. The Summer Institute has long been doing laudable linguistic, humanitarian work in many countries, while Wycliffe has been one of the largest, fastest growing, and most controversial Christian missionary enterprises in the world. In this wide-ranging study Boone Aldridge—a religious historian and twenty-year insider at WBT-SIL—looks back at the organization's early years, from its inception in the 1930s to the death of its visionary founder, William Cameron Townsend, in 1982. He situates the iconic institution within the evolving landscape of mid-twentieth-century evangelicalism, examines its complex and occasionally confusing policies, and investigates the factors that led, despite persistent criticism from many sides, to its remarkable rise to prominence. Suffering and the Sovereignty of God Crossway In the last few years, 9/11, a tsunami, Hurricane Katrina, and many other tragedies have shown us that the vision of God in today's churches in relation to evil and suffering is often frivolous. Against the overwhelming weight and seriousness of the Bible, many Christians are choosing to become more shallow, more entertainment-oriented, and therefore irrelevant in the face of massive suffering. In Suffering and the Sovereignty of God, contributors John Piper, Joni Eareckson Tada, Steve Saint, Carl Ellis, David Powlison, Dustin Shramek, and Mark Talbot explore the many categories of God's sovereignty as evidenced in his Word. They urge readers to look to Christ, even in suffering, to find the greatest confidence, deepest comfort, and sweetest fellowship they have ever known. The Savage My Kinsman Vine Books Forty years ago the world was shocked by the news that Auca Indians had martyred Jim Elliot and four other American missionaries in the jungles of Ecuador. That was the first chapter of one of the most breathtaking stories of the 20th century. This book tells the story in text and pictures of

Elisabeth Elliot's venture into Auca territory to live with the same Indians who had killed her husband. Encyclopedia of Christianity in the United States Rowman & Littlefield From the Founding Fathers through the present, Christianity has exercised powerful influence in America—from its role in shaping politics and social institutions to its hand in art and culture. Latin American History Goes to the Movies Understanding Latin America's Past through Film Routledge Latin American History Goes to the Movies combines the study of the rich history of Latin America with the medium of feature film. In this concise and accessible book, author Stewart Brewer helps readers understand key themes and issues in Latin American history, from pre-Columbian times to the present, by examining how they have been treated in a variety of films. Moving chronologically across Latin American history, and pairing historical background with explorations of selected films, the chapters cover vital topics including the Spanish conquest and colonialism, revolution, religion, women, U.S.-Latin American relations, and more. Through films such as City of God, Frida, and Che, Brewer shows how history is retold, and what that retelling means for public memory. From Apocalypto to Selena, and from Christopher Columbus to the slave trade, Latin American History Goes to the Movies sets the record straight between the realities of history and cinematic depictions, and gives readers a solid foundation for using film to understand the complexities of Latin America's rich and vibrant history.

Un pilote en mission. Du rêve de l'enfant à la vocation de l'adulte KARTHALA Editions Cahier photos de 16 pages. Cet ouvrage est une des très rares autobiographies qu'un pilote d'aviation en service missionnaire nous ait laissées. Il est même la seule publication francophone qui ait paru dans ce domaine depuis celle de Léon Bradfer intitulée À grands coups d'ailes vers l'Afrique missionnaire, datant de 1938, un père belge mû par la conviction que l'aviation pouvait ouvrir des horizons nouveaux pour la mission. Offert à titre posthume par Claude Heiniger décédé à l'âge de cinquante-sept ans après de longs mois de maladie, il relate les entrelacs d'un parcours dont la densité aura été exceptionnelle. En six chapitres, ce pilote en mission nous fait survoler le monde sur pas moins de quatre continents, nous emmenant d'une enfance laotienne à sa Suisse d'origine non sans de grands détours à travers les décors américains et les pistes camerounaises. C'est donc l'aventure d'une vocation déjà dessinée fort jeune, doublée d'une passion débordante pour l'aviation, qui nous est ici retracée. En chroniqueur pointu de son art, l'auteur distingue ce que le pilote en mission et la mission du pilote peuvent avoir de commun et de différent, tout en nous décrivant avec minutie les scènes vécues de ses vols jusqu'aux situations les plus critiques. Il nous donne également la chance de pénétrer de l'intérieur ce monde peu connu de l'aviation dite «missionnaire», un service exigeant appelé à soutenir principalement le travail des traducteurs de la Bible en langue autochtone dans les régions difficiles d'accès. Un autre monde également peu connu, régi par une activité scientifique hautement spécialisée, certes engagée, mais à visée également culturelle et éducative. De façon originale, ce récit de vie, vrai et émouvant, contribue à enrichir un des nombreux pans de l'histoire missionnaire du XXe siècle. Claude Heiniger a passé son enfance au Laos, obtenu sa Maturité scientifique à Genève, son Master en théologie protestante à la Faculté de l'Université de Genève et ses Licences de mécanicien d'aéronef, de pilote privé, de pilote commercial, de pilote de ligne et d'instructeur aux États-Unis, puis en Suisse. Pilote au service de la Société Internationale de Linguistique au Cameroun de 1983 à 1991, puis instructeur de vol à Moody Aviation Institute, au Tennessee, de retour en Suisse, il a assumé diverses responsabilités tant dans l'aéronautique qu'en entreprise avant de prendre celles de Quality Manager et de Chief Flight Instructor puis de Chief Ground Instructor à Air-Espace, École d'aviation de Suisse romande dont il a été un des co-fondateurs. An impossible dream? No. With no mission board to support or guide her, and less than ten dollars in her pocket, Gladys Aylward left her home in England to answer God's call to take the message of the gospel to China. With the Sino-Japanese War waging around her, she struggled to bring the basics of life and the fullness of God to orphaned children. Time after time, God triumphed over impossible situations, and drew people to Himself. The Little Woman tells the story of one woman's determination to serve God at any cost. With God all things are possible! A true story of a determined missionary, Gladys Aylward : The Little Woman will challenge you to bold and expectant faith. Pastor Paul Jorden, Bethel Community Church "I have read many books in my time—more than I care to remember—but none quite like this. I Can See the Shore Growing Up Yanomamo Today Dawson brings to life a little-known world of shamanism, rituals, and secret initiations of the stone-aged culture of the Yanomamo tribe, with whom he shares the Gospel and deals with his own personal life and death situations. Nerves of Steel How I Followed My Dreams, Earned My Wings, and Faced My Greatest Challenge Thomas Nelson Nerves of Steel is the captivating true story of Tammie Jo Shults's remarkable life—from growing up the daughter of a humble rancher, to breaking through gender barriers as one of the Navy's first female F/A-18 Hornet pilots, to safely landing the severely crippled Southwest Airlines Flight 1380 and helping save the lives of 148 people. Tammie Jo Shults has spent her entire life loving the skies. Though the odds were against her, she became one of the few female fighter pilots in the Navy. In 1994, after serving her country honorably for eight years, Tammie Jo left the Navy and joined Southwest Airlines in the early 1990's. On April 17, 2018, Tammie Jo was called to service once again. Twenty minutes into a routine domestic flight, Captain Shults was faced with the unthinkable—a catastrophic engine failure in the Boeing 737 caused an explosion that severed hydraulic and fuel lines, tearing away sections of the plane, puncturing a window, and taking a woman's life. Captain Shults and her first officer, Darren Ellisor, struggled to stabilize the aircraft. Drawing deeply from her well of experience, Tammie Jo was able to wrestle the severely damaged 737 safely to the ground. Not originally scheduled for that flight, there is no doubt God had prepared her and placed her right where she needed to be that day. Low Level Hell Hachette UK 'The best 'bird's eye view' of the helicopter war in Vietnam in print today ... Mills has captured the realities of a select group of aviators who shot craps with death on every mission' R.S. Maxham, Director, US Army Aviation Museum The aeroscouts of the 1st Infantry Division have three words emblazoned on their unit patch: Low Level Hell. It was the perfect concise definition of what those intrepid aviators experienced as they ranged the skies of Vietnam from the Cambodian border to the Iron Triangle. The Outcasts, as they were known, flew low and slow. They were the aerial eyes of the division in search of the enemy. Too often for longevity's sake they found the Viet Cong and the fight was on. These young pilots, who were usually 19 to 22 years old, invented the book as they went along. Charisma and Christian Life Gladys Aylward - Her Personal Story Rescue the Captors Life Sentence Publishing American bush pilot Russell Stendal, on routine business, landed his plane in a remote Colombian village. Gunfire exploded throughout the town and within minutes Russell's 142 day ordeal had begun. The Colombian cartel explained that this was a kidnapping for ransom and that he would be held until payment was made. Held at gunpoint deep in the jungle and with little else to occupy his time, Russell got ahold of some paper and began to write. He told the story of his life and kept a record of his experience in the guerrilla camp. His "book" became a bridge to the men who held him hostage and now serves as the basis for this incredible true story of how God's love penetrated a physical and ideological jungle. How did this incredible true story affect Russell? "At first my mind went wild with thoughts of revenge and violence. Then, after a while, I was able to see through their attempt to break me down and brainwash me. I started making a determined effort to throw all their stories and dramas out of my mind and not to let my thoughts dwell on them at all. I would trust God that He would take care of my wife and I would close my mind to my captors' input. I decided to think about positive values instead." "I told them that they had two choices, either kill me, or let me go for whatever small amount my family could afford. One of the guerrillas turned and asked me if I was afraid to die. I replied that dying is obviously uncomfortable, but yes, I was prepared to die." "My captors tied me up and left the rope on day and night. They were seriously trying to completely break me psychologically and then brainwash me. Every day new things were done to alter me and work

towards that goal. My captors started telling me scare stories. Some of these stories were about wild animals. They told me some of the wildest, hair-raising tales about lions and tigers that I have ever heard. These stories were designed both to intimidate me, reducing my ability to sleep, and to cause me to think twice before I decided to try to escape into the jungle again." "God used my hostage situation to show me that I had been guilty of resisting God's hand on my life and had therefore been unwittingly spending an unnecessary amount of time in that spiritual birth canal being squeezed all out of shape instead of coming out into the light and being born again. I decided that I was going to forget my own big missionary plans and projects, and instead I would concentrate on discerning where God was moving and then try to jump on His bandwagon - God taught me how to be a true missionary for Him. I began to react towards problems and adversity as opportunities to learn important things and as opportunities for God to use me to bring glory to Himself. My life changed to one of victory in Jesus Christ. I still have problems, difficulties, and even an occasional defeat; but now I can clearly see the design and purpose that God has for my life. If I have the right attitude, God can reign over everything that happens in my life and teach me something useful from even the most difficult experiences." "Banty Rooster: The Story of My Life Lulu Press, Inc Leon R. Smith was born into a poor family in 1931, but he never let his modest roots prevent him from chasing his dreams. He was like a banty rooster, which is a small fighting rooster with a feisty attitude—one that walks with its chest out, struts its stuff, and commands the attention of others. At seventeen years old, he joined the National Guard, and after joining the U.S. Army in November 1948 and completing basic training, he was sent to Japan, where occupation duty was a soldier's paradise. He spent twenty-five years in the Army, serving during the Korean War and jungle fighting in Vietnam. During the Cuban Missile Crisis, he could never be fifteen minutes away from a telephone. If he received a call and somebody said, "cocked pistol," he had thirty minutes to start loading his unit on airplanes. After retiring from the Army in 1970, Smith owned small businesses and became a truck driver, traveling millions of miles across the United States and Canada. While walking God's trail all over the world, Steve has spotted the Creator's hand at work in many significant life moments?from finding the love of his life to befriending the tribe that murdered his missionary father; from living in the Ecuadorian jungle to creating a major motion picture and presenting it before the United Nations. Sometimes triumphant, sometimes tragic, Steve's invariably thrilling tales are those of a born storyteller."--Publisher's website. Peace Child Baker Books From Cannibals to Christ-Followers--A True Story In 1962, Don and Carol Richardson risked their lives to share the gospel with the Sawi people of New Guinea. Peace Child tells their unforgettable story of living among these headhunters and cannibals, who valued treachery through fattening victims with friendship before the slaughter. God gave Don and Carol the key to the Sawi hearts via a redemptive analogy from their own mythology. The "peace child" became the secret to unlocking a value system that had existed through generations. This analogy became a stepping-stone by which the gospel came into the Sawi culture and started both a spiritual and a social revolution from within. With an epilogue updating how the gospel has impacted the Sawi people, this missionary classic will inspire a new generation of readers who need to hear this remarkable story and the lessons it teaches us about communicating Christ in a meaningful way to those around us. Icarus BibliotecaOnline SL A story packed with action and adventure, yet mercifully free of car chases, angry policemen, murderous mercenaries and gun fights - indeed no gun or knife is drawn in anger from one end of the book to the other. Trust Spain's top-selling novelist, Vázquez-Figueroa, to pull this off now that he is at the peak of his powers. For this epic, he has chosen the life and times of Jimmie Angel, an American pioneer aviator who lived through the early days of aviation with passionate intensity as an intrepid pilot, becoming involved in just about every impossible venture on offer in those heady days in the first half of the twentieth century - distant wars, stunts for air shows and films, missions for oil companies, pioneering aviation in China - and crowning his achievements with the discovery of the highest waterfall in the world: Angel Falls in the Venezuelan jungle. The story centers on his adventures as a hired pilot in the Guiana Highlands - the most mysterious corner of the Americas, lying between Venezuela and Brazil. This extraordinary setting features the striking, age-old tabular mountains called tepuis - flat-topped massifs that tower oddly above assorted stretches of jungle and plain, in a remote region that was entirely unknown then, and that remains largely unknown even today. At the top of a particularly imposing tepui, a Scottish gold-seeker, John McCracken, had found gold and

diamonds aplenty after spending most of his life wandering in the jungles of South America. Wishing to return there as an old man, and no longer able for long treks through such remote territory, he employs the services of a pilot reputed to be the most daring of them all, Jimmie Angel, the idea being to fly straight to "his" tepui and land on it - at a time when airdromes were few and far between, and when obtaining fuel supplies was always a problem. The adventures of McCracken and Angel as they strike out into the unknown form a gripping story, with vivid portraits of astonishing landscapes and colorful individuals and peoples, and cameo recollections of adventures with such figures as Lawrence of Arabia and Howard Hughes. As we have come to expect from this author, in the end the small group of central characters emerge as the essential substance of the work: powerfully drawn, they grow in themselves and in our minds as they face up to each new day and the unknown trials it inevitably brings. A story well told, characters well drawn, and a spectacular setting vividly captured. Yet Vázquez-Figueroa does not stop there: he also manages to convey the excitement of a virgin world where nothing can be taken for granted, where success or failure depend solely on the human qualities of the protagonists, and where everything still remains to be conquered with whatever help the new-born technology of the time can contribute. Lost in the Amazon The True Story of Five Men and their Desperate Battle for Survival Thomas Nelson In 1995, Stephen Kirkpatrick joined a five-man expedition into the remote jungles of the Peruvian Amazon. Kirkpatrick's assignment was to document an area of the rainforest that had never before been photographed, nor by most accounts, ever explored by white men. Within hours of their departure, an inaccurate map and a series of bad decisions leave the group hopelessly lost in the depths of the Amazon jungle. What began as a career-making photo expedition quickly turned into a desperate struggle for survival. The five men battle poisonous reptiles, hungry bugs, torrential rains, brutal heat, and an unforgiving landscape in an attempt to find their way back to civilization. They soon learn that survival is not only a physical, but a mental and spiritual challenge as well. Lost in the Amazon is a gripping, sometimes humorous, and ultimately inspirational story about the human drive to survive, and about clinging to faith in the worst circumstances imaginable. TALES OF WAR PILOT Smithsonian Inst Press Kirkland was a fighter pilot in the Pacific during WWII, flew atomic bomb test flights, and flew helicopter rescue missions in Korea. The Crash of the Dragonfly Unbelievable Trials Lead to Unimaginable Blessings EABooks Publishing The Crash of the Dragonfly takes you on a journey into the tropical jungles of Southern Palawan where you witness that the God of Daniel, King David and Peter performs the same miracles, shows the same protection, and leads us today as He did then. In that remote, mountainous region, the Searls family faced malaria, witch doctors, poverty, satanic oppression, political and religious antagonism and Muslim rebels. Daily survival required looking to the Lord Jesus. Fears had to be met with faith. Through hardships, God provided everything they needed to homeschool their children and do the work of the ministry. He encouraged them with miracles, protection, and the salvation of many. Embodied in this true story are Rick's flights as a jungle pilot to mountainous villages where you'll be introduced to Palawano tribes. See their way of life and get to know their beliefs that kept them in bondage to fears and superstitions. How can the gospel make a difference and set them free from the oppression fears bring? The Searls hit a crossroad. What looked like the end of a man's ministry turned out to be the beginning of something greater. Carolyn shares how the Lord leads us on the course He wants us to take if we are willing to turn the corner with Him. Would you like to build strong relationships with people who think and live differently than you do? Principles in this book can be applied to all relationships. You'll have an opportunity to learn about a different culture and how one adjusts. Carolyn shows the role a disciplined mind plays in successful living and lets you see how a new church was started. At the end of each chapter is a personal application and prayer of dedication. Adventures in the book reveal God's mighty power over adversity with great victory. A plane crash that was looked at with dread, disappointment, and even failure became the catalyst God used to lead to unimaginable blessings and salvation. Whatever trials you face in life, never give up. It's always too soon to quit. It was, and remains, the only open-water ditching of a commercial jet. The subsequent rescue of survivors took nearly three hours and involved the coast guard, navy, and marines. This gripping account of that fateful day recounts what was happening inside the cabin, the cockpit, and the helicopters as the crews struggled against the weather and dwindling daylight to rescue the survivors, who had only their life vests and a lone escape chute to keep them afloat. ¡Alégrese las naciones! Renegade Hero The True Story of RAF Pilot Terry Peet and His Clandestine Mercy Flying with the CIA Casemate Publishers Cold war helicopter ace Terry Peet lived for flying. He was a go anywhere, do anything, Royal Air Force pilot with a reputation for sheer guts. Whether ferrying troops to remote jungle landing zones or snatching casualties from makeshift clearings surrounded by two-hundred-foot high trees, he willingly pushed himself and his primitive Sycamore helicopter to the limit. During two years in the hot spots of Malaya and Borneo with the RAF, he repeatedly cheated death and earned a Queens Commendation for Valuable Service in the Air. Then suddenly he disappeared without trace, apparently drowned tragically while on a recreational scuba dive off the North Wales coast. Six years later he dramatically reappeared in a back-from-the-dead drama worthy of fiction. The media hailed him enthusiastically as a renegade hero and Flying Pimpernel when the story of his mysterious disappearance and subsequent extraordinary double life unfolded. In fact he had been recruited by the CIA for a clandestine air force involved in paramilitary operations in the former Belgian Congo. He was told that his departure from the RAF had to be covert. The summary presented in his eventual court martial crucially omitted this. It also failed to disclose that his employment as a mercenary, or contract pilot to use the CIAs more inoffensive terminology, received the tacit approval of British intelligence. Moreover, a claim that the RAF had not seen or heard anything of him following his disappearance in Anglesey was completely untrue. This book is the true revelation of an entirely mysterious affair as told to the author by Terry Peet.
