THE EARLY HISTORY OF THE LOS ANGELES COUNTY SHERIFF'S DEPARTMENT

Linden Pub This account of the struggle to bring law and order to a city rich with gold rush money, at odds with Mexican bandits, and teeming with forty-niners and confederate sympathizers chronicles the chaotic early days of Los Angeles, which boasted the highest homicide rate in America by 1850. From profiles of the frontier-style lawmen hired to stop the initial mayhem to an analysis of the city's modern sheriff's office—the largest in America—this book draws comparisons between the uproar of the early days, the racial tensions that erupted during the Watts riots, and the safety issues that preoccupy the police force today.

POLICE SELECTION AND TRAINING

THE ROLE OF PSYCHOLOGY

Springer Science & Business Media The New Police Officer During the past twenty years the tasks required of police officers have expanded and changed with dramatic rapidity. The traditional roles of the police had been those of law enforcement and the maintenance of public order. As a consequence police officers were typically large-bodied males, selected for their physical abilities and trained to accept orders and enforce the law. Over the past two decades, however, the industrialized nations have placed a variety of new demands on police officers. To traditional law enforcement and public order tasks have been added social work, mental health duties, and community relations work. For example, domestic disputes, violence between husbands and wives, lovers, relatives, etc., have increased in frequency and severity (or at least there has been a dramatic increase in reporting the occurrence of domestic violence). Our societies have no formal system to deal with domestic disputes and the responsibility to do so, in most countries, has fallen to the police. In fact, in some areas as many as 60% of calls for service to the police are related to domestic disputes (see the chapter in this text by Dutton). As a result the police officer has had to become a skilled social worker, able to intervene with sensitivity in domestic situations. Alternatively, in the case of West Germany, the officer has had to learn to work cooperatively with social workers (see the chapter by Steinhilper).

STONING THE KEEPERS AT THE GATE

SOCIETY'S RELATIONSHIP WITH LAW ENFORCEMENT

Lantern Books In *Stoning the Keepers at the Gate*, police psychologist Lawrence N. Blum, Ph.D. looks at the role of law enforcement in modern times and argues that, while bad cops need to be rooted out, blanket condemnation of the police threatens the very liberties that make such condemnation possible, as well as the safety of the American public in their homes and lives. Blum argues that the enormous stresses officers experience--from violent physical attack to unrewarded or misunderstood acts of heroism--require special understanding, an understanding that is often missing from police departments themselves. Blum provides a unique insight into the dynamics, practices, and activities within police agencies that influence police officers' actions, and that often hide the real sources of police behaviors that are thought of as faulty, insensitive, or inappropriate. A passionate call not only for understanding but a reappraisal of whose actions are scrutinized within and outside of police agencies, police accountability, and the nature of policing itself in the twenty-first century. *Stoning the Keepers at the Gate* is a dynamic and fascinating analysis of the role of law enforcement today.

STORM SURGE

Xlibris Corporation Sgt. Garland Flowers, a homicide detective for the Los Angeles County Sheriffs Department, has a dilemma. He loves his wife and he loves his job, but his two loves are not compatible. This conflict is causing the breakup of his marriage and any hopes for a normal home life. The long hours, constant demands of the job, and Garlands preoccupation with his cases have caused the couple to separate. The turmoil in his personal life, though, does not compare with what is in store for him in his latest case. Garland and his partner, Archie Penner, are called to investigate a murder in a ghetto community adjacent to the city of Los Angeles. The scene they encounter resembles a disaster area. "The place looks like a cyclone went through it" is how the deputy at the scene describes it. A triple murder, including a pre-adolescent girl, has been perpetrated. The apartment has been left in shambles, with furniture thrown about as if by a raging storm. Two of the victims, a man and a woman, are in the master bedroom. The mans neck is broken and the woman has been strangled. Both appear to have been dispatched by an incredibly powerful assailant. In the other bedroom is their child, the product of a racially mixed marriage. The body of the child is neatly laid out in repose. She has been smothered. No items in the room have been displaced ... quite a contrast from the other rooms. Further assessment of the crime scene rules out robbery as a motive. Could this crime have been racially motivated? The crime has all the earmarks of an act of personal rage. With little to go on, no fingerprints, no witnesses or other clues as to the perpetrators identity or motive, the detectives have no place to turn. That is, until another multiple homicide two weeks later gives Flowers his first break. A thumbprint has been lifted from the second crime scene. The fingerprint identifies the suspect as a man by the name of B.C. Jones, a recent parolee from Soledad Prison. Jones is six feet six inches in height and weighs 280 pounds, and none of it is fat. His chest and arms are massive. For six years he has been lifting weights in prison, where he was sent for killing his father. He committed the crime with his bare hands. Jones is a mulatto, the product of a black father and a white mother. He is also simple-minded, having endured a childhood of constant physical abuse. He is a social outcast, and is extremely bitter about his racially mixed blood. In his mind, his lack of racial identity is the root of all of his problems, and he feels compelled to do something about it. During the course of the investigation Sgt. Flowers pieces together the psychological puzzle that motivates Jones to commit these murders. Meanwhile, Jones discovers that he has been named as the suspect in these crimes and flees to the home of his only known relative, an aunt who lives in Gulfport, Mississippi.

While staying with her he is arrested for a minor offense. A routine record check is made, and the Gulfport Police Department learns that Jones is wanted for murder in Los Angeles. The L. A. County Sheriffs Department is immediately notified. Sgt. Flowers is assigned the task of traveling to Mississippi to pick up the prisoner and return him to Los Angeles for trial. The Deep South is not a place Flowers has ever given any thought of visiting. After all, this is 1969, and desegregation is still new to these parts ... and Garland Flowers happens to be black. Born and reared in California, he has heard horrifying stories of how blacks are treated in the South, and is concerned about the kind of cooperation and assistance he will receive from the Southern law enforcement officers. But his reception is not what he expects. The absence of racial prejudice that he encounters upon
