*Atlantic Publishing Company* Recent studies show that more than 20 million people will visit at least one online dating service a month. Internet dating has several advantages, among them the ability to discover everything about a potential partner before ever meeting them. You can learn their age, religious affiliations, education, expectations, interests, hobbies, and so on. Internet dating allows you to chat online and get to know someone before meeting them. There is also the ability to meet people on a varied schedu≤ you do not have to meet them face-to-face right away. Other advantages include protection of your personal identity, the exchange of photos, the ability to be yourself, less cost, and the ability to search by sexual or ethnic preference, all of which will increase the chances of finding that special someone. Aside from the many advantages, online dating has disadvantages as well. For example, you could be starting an

online relationship with someone who, in actuality, does not look like they do in their photos or their personality is not as they described, it might have to be a long distance relationship, or they have a hidden criminal agenda. This is why you need the assistance of this groundbreaking new book that covers it all, allowing you to find the right partner and make your online dates safe and secure. The book features many available online dating services, such as PerfectMatch, which employs a scientific method to locate matches. eHarmony has a compatibility system that only pairs you with compatible singles. Yahoo Personals helps you choose from thousands of members to find singles in your area. True.com is likely the only dating site that checks new members for criminal activity and marriage history. Match.com guarantees you will meet someone special within six months or they will extend your membership by six months at no cost to you. Also detailed are AmericanSingles.com, FriendFinder.com, Metrodate.com, Lavalife.com, Date.com, JDate.com, Great Expectations at GE-Dating.com and Chemistry.com. ## **THE COUPLE AND FAMILY TECHNOLOGY FRAMEWORK**

---

### **INTIMATE RELATIONSHIPS IN A DIGITAL AGE**

---

*Routledge* Couples and families worldwide have a constant electronic connection to others, a fact that is influencing the concerns and issues they bring to therapy. The authors of this resource help mental health practitioners to better deal with concerns such as online infidelity, online dating, internet addictions, cyber bullying, and many more by introducing the Couple and Family Technology (CFT) framework, a multi-theoretical approach that doesn't require clinicians to change their preferred clinical approach. The CFT framework acknowledges the ways in which couples navigate their relationship with technology and a partner simultaneously, and it attends to, and in some cases incorporates the role of technology in therapeutic ways. Included in the authors' discussion of how different technologies affect relationships is • a survey of what individuals' motivations of usage are • an examination of the specific issues that

emerge in treatment • a study of the risks particularly relevant to intimate relationships, and • an introduction of the first-ever technology-based genogram. They also examine technological usage across different developmental points in a couple's lifespan, with attention given throughout to people from various cultural backgrounds. Along with the CFT framework, the authors also introduce a new discipline of family research: Couple and Family Technology. This discipline integrates three broad perspectives in family science and helps therapists maintain a systemic focus in assessing and treating couples where issues of the Internet and new media are problematic. Online resources can be accessed by purchasers of the book and include videos, additional case studies, glossary, and forms.

*Double Diamond Media* **Hey Stud**, This booklet is designed to help men make the most of the world of online dating and find what they want out of their romantic life as quickly and easily as possible. Whether a man is looking for a beautiful young woman to enjoy some lovely evenings with, a woman to enjoy a longer, on-going arrangement with, or even a steady relationship, this guide should help make the most of the online dating process for him. By addressing each step of the dating process in detail, it will hopefully give men both the confidence and knowledge to approach dating with a better attitude, to enjoy themselves (and, by extension, allow the women they date to enjoy themselves, too), and guide them through some of the tricky spots of Internet dating so their relationships don't fail where so many often do. In the end, this booklet is more of a manual than anything else, but hopefully written in a way that will help men, specially men new to the world of online dating, get what they want out of it: a great woman and a fun time. **ABOUT THE AUTHOR:** Heather Havenwood is the founder of [www.DatingTriggers.com](http://www.DatingTriggers.com) and [www.OnlyDateYoungerWomen.com](http://www.OnlyDateYoungerWomen.com), a coaching and information service which she created just for men, to teach and empower men how to succeed with women. ## **ONLINE DATING FOR MEN**

---

---

### **THE ULTIMATE GUIDE TO ONLINE DATING**

---

No matter what your age, height, weight or physical appearance, there are thousands of women out there eager to meet you and eager for your company...whether short-term or long-term relationships are what you want. If you have found yourself suddenly "on-the-market" again after a relationship has dissolved or are just too busy with your work to spend a lot of time looking for a lady to keep you company, online dating can open the door to the dating scene for you. The good news is that all you need is a computer and an internet connection to get started. The first thing to do is find an online dating site that fits your needs. There are the large sites that offer many extras like live video chat and even match you up with ladies using your profiles and, also, a lot of sites that cater to special interests like religious preferences, outdoor enthusiasts, gays, etc. You need to choose one or two that will meet your needs. I don't recommend the free sites. The paid sites have a money back guarantee if you aren't satisfied and the investment is small. A whole month costs less than one dinner and movie date. The next thing you need to do is write a killer, but honest, profile and upload a recent but flattering picture of yourself. Now you are all set. Start contacting ladies whose profiles sound interesting to you and answer any lady who contacts you...and do so promptly...not, however, on holidays or weekends.

## **ONLINE DATING FULFILLMENT**

---

---

### **THE LAST ONLINE DATING GUIDE YOU WILL EVER NEED**

---

**Book Description: Online Dating Fulfillment: The Last Online Dating Guide You Will Ever Need** is a straightforward and complete guide to the new generation of dating; the online generation. Laura Nadian takes the reader through her 5-step method with clear detail and a little bit of humor to keep it interesting. Chapters include: The Power of the Internet, Step 1: The Basics, Step 2: Knowledge is Power, Step 3: The Golden Profile, Step 4: Finding Your Match, Step 5: The First Date, and Closing Thoughts. From the Author: Online dating seemed like an easy way to meet people and hopefully find a date. Believe me when I tell you, it was not as easy as I thought. Signing up was simple enough, but actually getting connected with a great person for a date was more challenging than I expected. After months with only a few phone calls, too many lame emails, and a few lousy dates, I decided to change my approach. ### **THE BUSINESS OF MARRIAGE IN THE TWENTY-FIRST CENTURY**

---

*NYU Press* **A fascinating look at the changing role of wives in modern America After a half century of battling for gender equality, women have been freed from the necessity of securing a husband for economic stability, sexual fulfillment, or procreation. Marriage is a choice, and increasingly women (and men) are opting out. Yet despite these changes, the cultural power of marriage has burgeoned. What was once an obligation has become an exclusive club into which heterosexual women with the right amount of self-discipline may win entry. The newly exalted professionalized wife is no longer reliant on her husband's status or money; instead she can wield her own power provided she can successfully manage the business of being a wife. Wife, Inc. tells a fiercely contemporary story revealing that today's wives do not labor in kitchens or even homes. Instead, the work of wifedom occurs in online dating sites, on reality television, in social media, and on the campaign trail. Dating, marital commitment, and married life have been reconfigured. No longer the stuff of marriage vows, these realms are now controlled by brand management and marketability. To prosper, women must appear confident, empowered, and sexually savvy. Guiding readers through the stages of the "wife-cycle," Suzanne Leonard follows women as they date, prepare to wed, and toil as wives, using examples from popular television, film, and literature, as well as mass market news, women's magazines, new media, and advice culture. The first major study to focus on this new definition of "working wives," Wife, Inc. reveals how marriage occupies a newly professionalized role in the lives of American women. Being a wife is a business that takes a lot more than a vow to maintain—this book tells that story.**

### MY STORY ON ONLINE DATING APPS

The book profiles my time as an over-40s man engaged with online dating apps, during which period I was stood up, ghosted, verbally abused, propositioned for sex and asked to be a surrogate father to an unborn child. The lessons I learned have been encapsulated in this book for the benefit of men and women engaged with online dating sites and apps such as 'Tinder', 'Bumble', 'Hinge' and others, and who wish to avoid the first date mistakes that I made. **STATE OF INTERNET DATE** My book also provides an overview of Internet dating's major issues, including;

- Why you have a less than 20 per cent chance of finding love online.
- Why black women who seek love should never use 'Tinder'.
- Why all online dating apps should carry a government health warning.
- Why Internet dating apps would prefer that you don't find love.
- Why 90 per cent of online daters may not actually want a relationship.
