Jivamukti Yoga

Practices for Liberating Body and Soul

[Ballantine Books](#) The long-awaited, complete guide to the popular, vigorous American method of yoga that is deeply rooted in ancient wisdom and scriptures “In this day and age of health and fitness trends, it is assuring to know that Sharon and David encourage their students to draw inspiration from the classical texts of Yoga and timeless scriptural sources.”—Sri Swami Satchidananda Creators of the extremely popular Jivamukti Yoga method and cofounders of the New York City studios where it is taught, Sharon Gannon and David Life present their unique style of yoga for the first time in book form. As they explain their intensely physical and spiritual system of flowing postures, they provide inspiring expert instruction to guide you in your practice. Unlike many books about yoga, Jivamukti Yoga focuses not only on the physical postures but also on how they evolved—the origins of the practices in yoga’s ancient sacred texts and five-thousand-year-old traditions—the psychotherapeutic benefits that accrue with a steady practice, and the spiritual power that is set free when energy flows throughout the mind and body. Jivamukti Yoga, which means “soul liberation,” guides your body and soul into spiritual freedom, physical strength, peace of mind, better health, and Self-realization—the ultimate goal of any practice. Gannon and Life help you understand each of the practices that comprise the yoga path to enlightenment: AHIMSA-The Way of Compassion: choosing nonviolence, respecting all life, practicing vegetarianism, living free of prejudice ASANA-The Way of Connection to the Earth: postures and sequences, breathing, transforming energy, understanding the bandhas KARMA-The Way of Action: creating good karma, giving thanks NADAM-The Way of Sacred Music: appreciating the sacred sounds of yoga MEDITATION-The Way of the Witness: how to sit still and move inward BHAKTI-The Way of Devotion to God: living with love, grace, and peace Whatever yoga you practice, Jivamukti Yoga will help you to strengthen and deepen that practice and lead you onto a path of spiritual clarity and self-discovery. “If there is only one book you read about the practice of Yoga, this should be the one. . . . Illuminating the Path to Enlightenment

[Lama Yeshe Wisdom Archive](#) About one thousand years ago, the great Indian pandit and yogi, Dipamkara Shrijnana (Atisha), was invited to Tibet to re-establish the Buddhadharm, which had been suppressed and corrupted for almost two centuries. One of Atisha's main accomplishments in Tibet was his writing of the seminal text, A Lamp for the Path to Enlightenment, in which he extracted the essence of all 84,000 teachings of the Buddha and organized them into a clear, step-like arrangement that makes it easy for any individual practitioner to understand and practice the Dharma. This genre of teachings is known as lam-rim, or steps of the path, and forms an essential part of every school of Tibetan Buddhism. In this book, His Holiness the Dalai Lama gives a commentary to not only Atisha's revolutionary work but also to Lines of Experience, a short text written by Lama Tsongkhapa, who was perhaps the greatest of all Tibetan lam-rim authors. In bringing together Atisha, Lama Tsongkhapa and His Holiness the Dalai Lama, this book offers readers one of the clearest and most authoritative expositions of the Tibetan Buddhist path ever published, and it is recommended for those at the beginning of the path, the middle and the end. This book is made possible by kind supporters of the Archive who, like you, appreciate how we make these teachings freely available in so many ways, including in our website for instant reading, listening or downloading, and as printed and electronic books. Ornament of Stainless Light

An Exposition of the Kalachakra Tantra

[Simon and Schuster](#) The premiere volume of Thupten Jinpa's thirty-two-volume Library of Tibetan Classics series, inaugurated to coincide with the Dalai Lama's conferral of the initiation rite of Kalachakra in Toronto in April 2004. The Kalachakra, or "wheel of time," tantra likely entered Indian Mahayana Buddhism around the tenth century. In expounding the root tantra, the Indian master Pundarika, one of the legendary Kalki kings of the land of Shambhala, wrote his influential Stainless Light. Ornament of Stainless Light is an authoritative Tibetan exposition of this important text, composed in the fifteenth century by Khedrup Norsang Gyatso, tutor to the Second Dalai Lama. One of the central projects of Kalachakra literature is a detailed correlation between the human body and the external universe. In working out this complex correspondence, the Kalachakra texts present an amazingly detailed theory of cosmology and astronomy, especially about the movements of the various celestial bodies. The Kalachakra tantra is also a highly complex system of Buddhist theory and practice that employs vital bodily energies, deep meditative mental states, and a penetrative focus on subtle points within the body's key energy conduits known as channels. Ornament of Stainless Light addresses all these topics, elaborating on the external universe, the inner world of the individual, the Kalachakra initiation rites, and the tantric stages of generation and completion, all in a highly readable English translation.

The Practice of Nada Yoga

Meditation on the Inner Sacred Sound

[Simon and Schuster](#) Meditation exercises for listening to the four levels of sound, to still the body, quiet the mind, open the heart, and connect with the Divine • Details the teachings on nada yoga from the Hatha Yoga Pradipika with clear, step-by-step instructions to find and hear the inner sacred sound of nada • Explains the 4 levels of sound through a series of practical meditation exercises • Includes instructions for a daily nada yoga meditation practice as well as ways to strengthen your advanced practice The ancient practice of nada yoga is not complex. It is the yoga of listening. It is a journey from the noise of the external world inward to a place of peace and bliss, to the source of the transformational power of sound--the nada. By meditating on the inner sacred sound of the nada, we can release ourselves from mind chatter and obsessive thinking. We can still the body, quiet the mind, and open the heart to create a state of mind where joy naturally arises. Sharing his experiential understanding of the classic Hatha Yoga Pradipika, Baird Hersey offers precise, step-by-step instructions on how to find the inner sound of the nada. He explains the first three levels of sound--first, how to truly hear the ordinary sounds of the world around us (vaikhari); second, how to quiet the sounds of the mind (madhyama), such as sound memories and internal dialogue; and third, how to access visual sounds (pashyanti), tapping in to our ability to see sounds and hear colors. Mastering the first three levels prepares one for the fourth level of sound (para), the heart of the practice that connects one to the inner sound of the nada. The author provides detailed exercises to guide you through each level of sound and instructions for a daily nada yoga meditation practice. Hersey explains that by focusing our minds on this internal sound we reunite our essential self with the eternal and infinite. In this re-union we find bliss in both body and mind, an uplifted spirit, and heightened states of consciousness.

The Origins of Yoga and Tantra

Indic Religions to the Thirteenth Century

[Cambridge University Press](#) Yoga, tantra and other forms of Asian meditation are practised in modernized forms throughout the world today, but most introductions to Hinduism or Buddhism tell only part of the story of how they developed. This book is an interpretation of the history of Indic religions up to around 1200 CE, with particular focus on the development of yogic and tantric traditions. It assesses how much we really know about this period, and asks what sense we can make of the evolution of yogic and tantric practices, which were to become such central and important features of the Indic religious scene. Its originality lies in seeking to understand these traditions in terms of the total social and religious context of South Asian society during this period, including the religious practices of the general population with their close engagement with family, gender, economic life and other pragmatic concerns.

The Great Secret of Mind

Special Instructions on the Nonduality of Dzogchen

[Shambhala Publications](#) Dzogchen (Great Perfection) goes to the heart of our experience by investigating the relationship between mind and world and uncovering the great secret of mind's luminous nature. Weaving in personal stories and everyday examples, Pema Rigtsal leads the reader to see that all phenomena are the spontaneous display of mind, a magical illusion, and yet there is something shining in the midst of experience that is naturally pure and spacious. Not recognizing this natural great perfection is the root cause of suffering and self-centered clinging. After introducing us to this liberating view, Pema Rigtsal explains how it is stabilized and sustained in effortless meditation: without modifying anything, whatever thoughts of happiness or sorrow arise simply dissolve by themselves into the spaciousness of pure presence. The book is divided into chapters on the view, meditation as the path, conduct, the attainment, and the four bardos. Each chapter consists of mini-sections that can be read as stand-alone Dharma talks. Pema Rigtsal has studied and lived with several authentic Dzogchen masters and has surprising stories to tell about their unconventional methods to introduce students to the subtle view of Dzogchen.

Xu Di and volume contributors highlight the moral education and ethics found throughout the Dunhuang with numerous stories of the personal journeys and growth of the Buddha and bodhisattvas, discussing and analyzing these teachings, and their possible implications for modern education systems throughout China and the world today.

Kundalini Tantra

[Yoga Publications Trust](#) In the last few decades, yoga has helped millions of people to improve their concepts of themselves. Yoga realises that man is not only the mind, he is body as well. Yoga has been designed in a such a way that it can complete the process of evolution of the personality in every possible direction. Kundalini yoga is a part of the tantric tradition. Even though you may have already been introduced to yoga, it is necessary to know something about tantra also. Since the dawn of creation, the tantrics and yogis have realised that in this physical body there is a potential force. It is not psychological or transcendental; it is a dynamic potential force in the material body, and it is called Kundalini. This Kundalini is the greatest discovery of tantra and yoga. Scientists have begun to look into this, and a summary of the latest scientific experiments is included in this book.

Addressing one of the most popular topics in the yoga profession, this book offers sixty-seven model sequences of yoga poses (asanas) that cover the broad range of yoga student experience, including multiple sequences for beginning, intermediate, and advanced students; yoga for kids, teens, women across the life cycle, and seniors; classes to relieve depression and anxiety; and sequences for each of the major chakras and ayurvedic constitutions. This edition offers text printed in font size 14. *Hatha Yoga Pradipika* is a classical text describing Hatha Yoga. It is the oldest surviving text on Hatha Yoga. Swami Swatmarama, a disciple of Swami Goraknath, wrote the text, drawing upon previous texts and his own experiences. While the text describes asanas (postures), purifying practices (shatkarma), mudras (finger and hand positions), bandhas (locks), and pranayama (breath exercises), it also explains that the purpose of Hatha Yoga is the awakening of kundalini (subtle energy), advancement to Raja Yoga, and the experience of deep meditative absorption known as samadhi. Yogi Swatmarama was a 15th and 16th century yogic sage in India. He is best known for compiling the yoga manual *Hatha Pradipika* or *Light on Hatha Yoga*. Swatmarama maintains throughout the text that Hatha Yoga's true purpose is the arousal of the Kundalini, until perfection in Raja Yoga is achieved, i.e. liberation.

Negotiating the Modern

Orientalism and Indianness in the Anglophone World

Routledge This book explicates long-standing literary celebrations of 'India' and 'Indian-ness' by charting a cultural history of Indianness in the Anglophone world, locating moments (in intellectual, religious and cultural history) where India and Indianness are offered up as solutions to modern moral, ethical and political questions in the 'West.' Beginning in the early 1800s, South Asians actively seek to occupy and modify spaces created by the scholarly discourses of Orientalism: the study of the East ('Orient') via Western ('European') epistemological frameworks. Tracing the varying fortunes of Orientalist scholars from the inception of British rule, this study charts the work of key Indologists in the colonial era. The rhetorical constructions of East and West deployed by both colonizer and colonized, as well as attempts to synthesize or transcend such constructions, became crucial to conceptions of the 'modern.' Eventually, Indian desire for political sovereignty together with the deeply racialized formations of imperialism produced a shift in the dialogic relationship between South Asia and Europe that had been initiated and sustained by orientalists. This impetus pushed scholarly discourse about India in Europe, North America and elsewhere, out of what had been a direct role in politics and theology and into high 'Literary' culture.
