Unique case studies and examples of worldwide practices illustrate how concepts and techniques are applied in real-world business situations. It explores how management accounting techniques are adapted and modified to support specific industries from energy to media sectors and covers topical issues such as: Environmental accounting Environmental auditing and ISO14001/EMAS The balanced scorecard Kaizen costing Target costing Social responsibility Features Integrates the most up-to-date and relevant research with a broad approach to management accounting. Presents compelling examples of 'real' organisations, exploring the interactions of management accounting in practice. Extends knowledge of management accounting concepts and techniques to how they can be used for strategic decision making and management control. Uses Excel to develop and apply solutions methods. Examines how management accounting techniques are

adapted and modified to support specific industries from energy to media sectors. Covers topical issues such as activity-based budgeting, the balanced scorecard, target costing, capacity planning, quality management, Six Sigma and performance measurement. Fully compliant with developments within the professional bodies such as CIMA and ACCA. Offers end-of chapter exercises to extend your critical thinking and applications of key concepts. Provides short case studies, so you can practise manipulating and analysing data. This is the ideal textbook for students studying management accounting at advanced undergraduate and postgraduate level. **Multi Pack Management Accounting with Reading Management Accounting** Prentice Hall This multipack consists of Atkinson: Management Accounting Pearson International Edition 4th Edition (ISBN 0131230263) and Young: Reading Management Accounting 4th Edition (ISBN 0131422154). Each of the books authors is both a scholar and a top consultant for Fortune 500 and smaller companies. As a result, they have a unique focus: to help readers better understand management accounting topics, research, and issues from the perspective of a business manager. KEY TOPICS A twelve chapter organization and framework addresses the needs of future business managers--specifically, how to interpret and use accounting information to make good decisions. The book answers many pertinent questions: What defines the nature, focus, and scope of management accounting? What determines the cost of products or customers? How do costs change over the products life cycle? What approaches do managers use to compute the costs of their products and services? How can we use cost for planning and decision-making purposes? How can we use revenue and cost information for capacity planning and profit planning and evaluation purposes? design, and how does cost information inform the process of control? MARKET: For management accountants, cost system designers, incentive compensation system designers, and balanced scorecard implementers. Reading Management Accounting contains thirty-nine recent business press and academic articles--all representing state-of-the-art thinking and examples on a wide variety of management accounting topics in many types of service and manufacturing contexts. The articles parallel the contents of Management Accounting 4/e (Atkinson, et al.), but can be used with any core management and cost accounting text. Grids in the Instructors Manual help correlate the readings to many popular texts. **Business Accounting Vol 1 with Accounting Dictionary** Financial Times/Prentice Hall **Financial Accounting** Financial Times/Prentice Hall This text leads readers through their studies of financial accounting step-by-step, balancing theory and real-life practice. It includes topical coverage of corporate governance, international accounting standards, statement of principles (SOP), e-business, and information technology as they apply to financial accounting. **Accounting: An Introduction, 6/E** Pearson Higher Education AU Accounting: an introduction by Atrill provides a clear and approachable introduction to accounting and finance for those seeking to understand the main concepts and their practical application to good decision-making.
