### Things Fall Apart

Penguin UK Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in Arrow of God and No Longer at Ease.

### Tsotsi

Canongate Books Tsotsi is an angry young gang leader in the South African township of Sophiatown. A man without a past, he exists only to kill and steal. But one night, in a moonlit grove of bluegum trees, a woman he attempts to rape forces a shoebox into his arms. The box contains a baby, and his life is inexorably changed. He begins to remember his childhood, to rediscover himself and his capacity for love. Turned into an Oscar-winning movie in 2006, Tsotsi's raw power and rare humanity show how decency and compassion can survive against the odds.

## An Ideal Gift for the Young Daughters of the Ummah

Createspace Independent Publishing Platform Allah Ta'ala has created the human being as 'ASHRAFUL MAKHLOOQAAT' (the best of His creation). Males and females have been created differently with their own unique physical and emotional characteristics and needs. All these are signs of His evident power and greatness. A female's first haidh (period / menstruation) is actually a transition or crossing over for her from childhood to adulthood. It is an important time in her life, because along with this change comes huge responsibilities. Apart from physical changes (which take place inside our bodies), we undergo emotional changes (the way we feel), as well as mental changes (the way we understand things). It is, therefore, very important for us to prepare ourselves for this transformation. This body is an amanah (trust) from Allah Ta'ala. We use it to make the ibaadah (worship) of Allah Ta'ala. Therefore, it is important that we take care of it as best we can in order to fulfill the rights of Allah Ta'ala. However, it is not only our physical strength and mental well-being that we ought to worry about, but also our personal hygiene. This booklet has been compiled especially for our young sisters (9 -12 year olds) and may also be used as a guide for those mothers who find it difficult to speak to their daughters about these matters. The first part of the kitaab should be done in Grade 6 and the second part in Grade 7. With the help of Allah Ta'ala and by means of the following information, we will have a better idea of how our bodies work and how to cope with the physical and emotional changes that our bodies undergo. This kitaab is dedicated to all the young sisters of this ummah. We make dua that Allah Ta'ala makes this kitaab a means of Hidaayat (guidance) for you, Insha Allah!

## The Holocaust

## A German Historian Examines the Genocide

A concise history of the Holocaust, covering all the major topics and issues important to that history - the first to be written by a German (non-Jewish) scholar of the younger generation. The History of the Holocaust keeps being written and rewritten in ever greater detail, but almost always by Jewish writers and historians. Wolfgang Benz's book makes an important contribution by bringing German perspectives to that terrible event. His goal is to provide and analyse all the incontrovertible facts and political decisions that led to the dehumanisation and systematic murder of millions of Jews and other ethnic minorities during the Nazi regime. He details the laws, the events, the individuals, and the decisions from 1933 to 1945. The book concludes with a discussion of what the German people really knew. A masterpiece of historical compression, this book is a powerful introduction to the history of the Holocaust.

## What Works in Girls' Education

## Evidence for the World's Best Investment

Brookings Institution Press Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

## Handbook of Test Development

Routledge The second edition of the Handbook of Test Development provides graduate students and professionals with an up-to-date, research-oriented guide to the latest developments in the field. Including thirty-two chapters by well-known scholars and practitioners, it is divided into five sections, covering the foundations of test development, content definition, item development, test design and form assembly, and the processes of test administration, documentation, and evaluation. Keenly aware of developments in the field since the publication of the first edition, including changes in technology, the evolution of psychometric theory, and the increased demands for effective tests via educational policy, the editors of this edition include new chapters on assessing noncognitive skills, measuring growth and learning progressions, automated item generation and test assembly, and computerized scoring of constructed responses. The volume also includes expanded coverage of performance testing, validity, fairness, and numerous other topics. Edited by Suzanne Lane, Mark R. Raymond, and Thomas M. Haladyna, The Handbook of Test Development, 2nd edition, is based on the revised Standards for Educational and Psychological Testing, and is appropriate for graduate courses and seminars that deal with test development and usage, professional testing services and credentialing agencies, state and local boards of education, and academic libraries serving these groups.
