Eats, Shoots & Leaves The Zero Tolerance Approach to Punctuation Penguin We all know the basics of punctuation. Or do we? A look at most neighborhood signage tells a different story. Through sloppy usage and low standards on the internet, in email, and now text messages, we have made proper punctuation an endangered species. In Eats, Shoots & Leaves, former editor Lynne Truss dares to say, in her delightfully urbane, witty, and very English way, that it is time to look at our commas and semicolons and see them as the wonderful and necessary things they are. This is a book for people who love punctuation and get upset when it is mishandled. From the invention of the question mark in the time of Charlemagne to George Orwell shunning the semicolon, this lively history makes a powerful case for the preservation of a system of printing conventions that is much too subtle to be mucked about with. The Jewel House Elizabethan London and the Scientific Revolution Yale University Press The #1 New York Times-bestselling author of A Discovery of Witchsexamines the real-life history of the scientific community of Elizabethan London. Travel to the streets, shops, back alleys, and gardens of Elizabethan London, where a boisterous and diverse group of men and women shared a keen interest in the study of nature. These assorted merchants, gardeners, barber-surgeons, midwives, instrument makers, mathematics teachers, engineers, alchemists, and other experimenters formed a patchwork scientific community whose practices set the stage for the Scientific Revolution. While Francis Bacon has been widely regarded as the father of modern science, scores of his London contemporaries also deserve a share in this distinction. It was their collaborative, yet often contentious, ethos that helped to develop the ideals of modern scientific research. The book examines six particularly fascinating episodes of scientific inquiry and dispute in sixteenth-century London, bringing to life the individuals involved and the challenges they faced. These men and women experimented and invented, argued and competed, waged wars in the press, and struggled to understand the complexities of the natural world. Together their stories illuminate the blind alleys and surprising twists and turns taken as medieval philosophy gave way to the empirical, experimental culture that became a hallmark of the Scientific Revolution. “Elegant and erudite.” —Anthony Grafton, American Scientist “A truly wonderful book, deeply researched, full of original material, and exhilarating to read.” —John Carey, Sunday Times “Widely accessible.” —Ian Archer, Oxford University “Vivid, compelling, and panoramic, this revelatory work will force us to revise everything we thought we knew about Renaissance science.” —Adrian Johns, author of The Nature Book Little Red Riding Hood Houghton Mifflin Harcourt (HMH) A retelling of the folk tale about a little girl who finds a wolf in her grandmother's clothing. University Press With tips on vocabulary learning and how to approach the test, this book covers all the vocabulary that is needed to achieve a band score of 6.5 and above **The Happiness Industry** How the Government and Big Business Sold Us Well-Being **Verso Books** Why are we so interested in measuring happiness? What was a Buddhist monk doing at the 2014 World Economic Forum in Davos lecturing the world's leaders on mindfulness? Why do many successful corporations have a 'chief happiness officer'? What can the chemical composition of your brain tell a potential employer about you? In the past decade, governments and corporations have become increasingly interested in measuring the way people feel: 'the Happiness index', 'Gross National Happiness', 'well-being' and positive psychology have come to dominate the way we live our lives. As a result, our emotions have become a new resource to be bought and sold. In a fascinating investigation combining history, science and ideas, **William Davies** shows how well-being influences all aspects of our lives: business, finance, marketing and smart technology. This book will make you rethink everything from the way you work, the power of the 'Nudge', the ever-expanding definitions of depression, and the commercialization of your most private feelings. **The Happiness Industry** is a shocking and brilliantly argued warning about the new religion of the age: our emotions. **Complete IELTS Bands 4-5 Teacher's Book** **Cambridge University Press** **Complete IELTS** combines the very best in contemporary classroom practice with stimulating topics aimed at young adults wanting to study at university. **Complete IELTS Bands 4-5** prepares students for the IELTS test at B1 (foundation level).
