TURNING BELIEVERS INTO NON-BELIEVERS AND NON-BELIEVERS INTO BELIEVERS

CreateSpace Independent Publishing Platform Religion is the opium of the people, said Karl Marx many centuries ago. For more than a billion people living in India and abroad, Hinduism is the religion and a way of life. In this multi-award winning book, Swami Achuthananda cracks open the opium poppy pods, analyzes the causes for euphoria, and comes away with a deeper understanding of the people and their religion. *** Winner 2014 Next Generation Indie Book Awards (Religious Non-fiction) *** This is a comprehensive book on Hinduism. It tells you why Hindus do the things they do - and don't. Written in a casual style, the book guides you through the fundamentals of the religion. It then goes further and debunks a number of long-standing myths, some of them coming from the academia (of all places). While most books shy away from contentious issues, this book plunges headlong by taking on controversies, like the Aryan Invasion Theory, idol worship, RISA scholarship and many more. In fact one-third of the book is just on controversies that you rarely find in any other literature. SANÂTANA DHARMA

AN ADVANCED TEXT BOOK OF HINDU RELIGION AND ETHICS

Forgotten Books Excerpt from *Sanâтана Dharma: An Advanced Text Book of Hindu Religion and Ethics* The Board of Trustees of the Central Hindu College has laid down the following principles on which religious and moral teaching is to be given in all Institutions under its control. The object of the Central Hindu College being to combine Hindu religious and ethical training with the western education suited to the needs of the time, it is necessary that this religious and ethical training shall be of a wide, liberal and unsectarian character, while at the same time it shall be definitely and distinctively Hindu. It must be inclusive enough to unite the most divergent forms of Hindu thought, but exclusive enough to leave outside it forms of thought which are non-Hindu. It must avoid all doctrines which are the subject of controversy between schools recognised as orthodox; it must not enter into any of the social and political questions of the day; but it must lay a solid foundation of religion and ethics on which the student may build, in his manhood, the more specialised principles suited to his intellectual and emotional temperament. AN INTRODUCTION TO HINDUISM

Cambridge University Press **This book provides a much-needed thematic and historical introduction to Hinduism, the religion of the majority of people in India. Dr Flood traces the development of Hindu traditions from their ancient origins, through the major deities of Visnu, Siva and the Goddess, to the modern world. Hinduism is discussed as both a global religion and a form of nationalism. Emphasis is given to the tantric traditions, which have been so influential; to Hindu ritual, which is more fundamental to the life of the religion than are specific beliefs or doctrines; and to Dravidian influences from south India. An Introduction to Hinduism examines the ideas of dharma, particularly in relation to the ideology of kingship, caste and world renunciation. Dr Flood also introduces some debates within contemporary scholarship about the nature of Hinduism. It is suitable both for the student and for the general reader.**

RELIGION AND COMMODIFICATION

'MERCHANDIZING' DIASPORIC HINDUISM

Routledge Sustaining a Hindu universe at an everyday life level requires an extraordinary range of religious specialists and ritual paraphernalia. At the level of practice, devotional Hinduism is an embodied religion and grounded in a materiality, that makes the presence of specific physical objects (which when used in worship also carry immense ritual and symbolic load) an indispensable part of its religious practices. Traditionally, both services and objects required for worship were provided and produced by occupational communities. The almost sacred connection between caste groups and occupation/profession has been clearly severed in many diasporic locations, but importantly in India itself. As such, skills and expertise required for producing an array of physical objects in order to support Hindu worship have been taken over by clusters of individuals with no traditional, historical connection with caste-related knowledge. Both the transference and disconnect just noted have been crucial for the ultimate commodification of objects used in the act of Hindu worship, and the emergence of an analogous commercial industry as a result. These

developments condense highly complex processes that need careful conceptual explication, a task that is exciting and carries enormous potential for theoretical reflections in key fields of study. Using the lens of 'visuality' and 'materiality,' Sinha offers insights into the everyday material religious lives of Hindus as they strive to sustain theistic, devotional Hinduism in diasporic locations--particularly Singapore, Malaysia, and Tamilnadu--where religious objects have become commodified.

THE REGULATION OF RELIGION AND THE MAKING OF HINDUISM IN COLONIAL TRINIDAD

UNC Press Books How can religious freedom be granted to people who do not have a religion? While Indian indentured workers in colonial Trinidad practiced cherished rituals, "Hinduism" was not a widespread category in India at the time. On this Caribbean island, people of South Asian descent and African descent came together—under the watchful eyes of the British rulers—to walk on hot coals for fierce goddesses, summon spirits of the

dead, or honor Muslim martyrs, practices that challenged colonial norms for religion and race. Drawing deeply on colonial archives, Alexander Rocklin examines the role of the category of religion in the regulation of the lives of Indian laborers struggling for autonomy. Gradually, Indians learned to narrate the origins, similarities, and differences among their fellows' cosmological views, and to define Hindus, Muslims, and Christians as distinct groups. Their goal in doing this work of subaltern comparative religion, as Rocklin puts it, was to avoid criminalization and to have their rituals authorized as legitimate religion—they wanted nothing less than to gain access to the British promise of religious freedom. With the indenture system's end, the culmination of this politics of recognition was the gradual transformation of Hindus' rituals and the reorganization of their lives—they fabricated a "world religion" called Hinduism.

HINDUISM, A RELIGION TO LIVE BY

STUDIES IN RELIGION AND EDUCATION

Routledge First published in 1984. John M. Hull was a leading figure in the controversies which had surrounded religious education since the late 1960s. This book brings together in one volume 21 of his published papers and articles, which had previously appeared in journals, conferences, reports and books in Belgium, Australia, Canada, the United States, as well as the United Kingdom. This book is essential reading for all teachers, clergy, parents and students seriously concerned with the issues confronting religious education and Christian upbringing in our secular and pluralist world.

WORLD FAITHS IN EDUCATION

Routledge First published in 1978. The world religions movement gave way to a new form of religious education which was wide ranging in content and open in approach. This development raised a number of issues. How broad should the syllabus be? Should Humanism and Marxism be included? How should Christianity be taught? What role has the believer of any one faith in the teaching of RE? As curriculum development gathers momentum so the need to discuss such questions becomes urgent. This book is devoted to examining the place of world faiths in education by members of a variety of faiths. It will help students and teachers to think their way through the many challenges facing RE today. The book argues a new framework for the subject. The contributors hope that they have provided a sign-post pointing to a future in which all who are concerned that

children should grow up with an understanding of the ultimate meaning of life, whatever their own faiths, may be able to work together to make the subject vital and worthwhile.

WHO INVENTED HINDUISM

ESSAYS ON RELIGION IN HISTORY

Yoda Press **Who Invented Hinduism?** presents ten masterly essays on the history of religious movements and ideologies in India by the eminent scholar of religious studies, David N. Lorenzen. Stretching from a discussion on the role of religion, skin colour and language in distinguishing between the Aryas and the Dasas, to a study of the ways in which contact between Hindus, on the one hand, and Muslims and Christians, on the other, changed the nature of the Hindu religion, the volume asks two principal questions: how did the religion of the Hindus affect the course of Indian history and what sort of an impact did the events of Indian history have on the Hindu religion. The essays cast a critical eye on scholarly Arguments which are based as much on current fashion or on conventional wisdom as on evidence available in historical documents. Taking issue with renowned scholars such as Louis Dumont, Romila Thapar, Thomas Trautmann and Dipesh Chakrabarty on some central conceptions of the religious history of India, Lorenzen establishes alternative positions on the same through a thorough and compelling look at a vast array of literary sources. Touching upon some controversial arguments, this well-timed and insightful volume draws attention to the unavoidably influential role of religion in the history of India, and in doing so, it creates a wider space for further discussion focusing on this central issue.
