REWRITING THE RULES OF RETIREMENT FOR SMART PROFESSIONALS

Why do some professionals thrive when they retire while others struggle and even go into decline? Often we are ill-prepared to make the life-changing transition from full-time employment, whether we leave by choice or not. Our professional work is an important part of our identity, and filling that void and making productive use of our time and skills can be a major challenge. Mike Mister and Rebecca Hill explore alternatives to the traditional "rules" of retirement in this practical guide for busy, mid to later-career professionals making the transition out of large organisational life. Using case studies and insights gleaned from their consulting work, Mister and Hill present a roadmap to reinvent retirement and build a rewarding 'encore' career. Having a purpose is key to professional and personal fulfillment, and the authors show you how to evaluate your options and make informed decisions when it comes to your encore. What motivates and inspires you? What are your lifestyle and financial needs? How can you leave the legacy you desire? The authors include tools and exercises that encourage reflection, help you assess your strengths, and create a personal action plan to make your ideas a reality. Your encore can be the most

exciting time of your life. From retraining in a new career path to making an impact by mentoring others or volunteering, a wealth of interesting possibilities awaits you! It's never too early or too late to start! As Chip Conley says in his book *Wisdom at Work*: "Rewire, don't retire"!

ENLARGE YOUR VISION IN ENTREPRENEURSHIP

HOW TO START A BUSINESS & RETIRE YOUNG

CreateSpace To enlarge your vision in entrepreneurship takes commitments and learning financial education. The successful entrepreneur or investor has developed the ability to control the little voice and has replaced it with an inner dialogue based on grand visions of what can be. By developing this ability within yourself, you will see opportunities that no one else sees. While others are quick to point out why your vision will not work, you will have the motivation to prove them wrong. Now, while you will never want to scale your dreams back, you will need to make them a reality one-step at a time. It may sound contradictory, but when realizing your big dreams, you need to remember to start small. When you dream a big dream, it is easy to get excited and have the desire to live it right now. However, before you quit your job, develop a plan that lays the ground work for your venture and begins realizing positive cash flow. Just because an idea is good does not mean that it will create cash flow on day one. In fact, many new businesses are around a long time before they start to turn a profit. Elijah Miti takes you through mentorship in this book for

you to finally start your Business successfully.
