It tells the story, through its buildings and landscape, of Manningham's development from a thinly populated rural township to a fully developed, mostly middle-class, fashionable, 19th-century city suburb full of self-assurance, civic pride and high-quality architecture. It examines how successfully and in what ways the suburb and its buildings have subsequently continued to function, following the decline and disappearance of the traditional industries on which its success was originally based and a substantially changed cultural and demographic profile. The publication will appeal to all of those with an interest in Bradford and its buildings. In addition, by supplementing the research project and literary work with a major outreach and film project, the fruits of which help to inform the publication text and are incorporated into the book as a DVD insert, the publication will be extremely effective in engaging and developing new audiences amongst the people living and working in Manningham. It gives them a 'voice', allowing them to share their memories and put forward their own views and opinions on the district which has become increasingly known to outsiders only for its problems of economic out-migration, increasing levels of crime and headline-making outbreaks of civil unrest. By exploring this question and revealing the everyday social processes by which high schoolers define white identities, Pamela Perry offers much-needed insights into the social construction of race and whiteness among youth. Through ethnographic research and in-depth interviews of students in two demographically distinct U.S. high schools—one suburban and predominantly white; the other urban, multiracial, and minority white—Perry shares students' candor about race and self-identification. By examining the meanings students attached (or didn't attach) to their social lives and everyday cultural practices, including their taste in music and clothes, she shows that the ways white students defined white identity were not only markedly different between the two schools but were considerably diverse and ambiguous within them as well. Challenging reductionist notions of whiteness and white racism, this study suggests how we might go "beyond whiteness" to new directions in antiracist activism and school reform. **Shades of White** is emblematic of an emerging second wave of whiteness studies that focuses on the racial identity of whites. It will appeal to scholars and students of anthropology, sociology, and cultural studies, as well as to those involved with high school education and antiracist activities. **Examiner A Weekly Paper on Politics, Literature, Music and the Fine Arts. 1840** **It's Now or Never** A feel-good and funny read from the number one Kindle bestseller **Hachette UK** A classic Carole Matthews with a brand-new look. ----- **Two sisters. Excerpta сурриа Рипол Классик Parish Priests and Their People in the Middle Ages in England Library of Alexandria Fandom as Methodology A Sourcebook for Artists and Writers MIT Press An illustrated exploration of fandom that combines academic essays with artist pages and experimental texts. Fandom as Methodology examines fandom as a set of practices for approaching and writing about art. The collection includes experimental texts, autobiography, fiction, and new academic perspectives on fandom in and as art. Key to the idea of “fandom as methodology” is a focus on the potential for fandom in art to create oppositional spaces, communities, and practices, particularly from queer perspectives, but also through transnational, feminist and artist-of-color fandoms. The book provides a range of examples of artists and writers working in this vein, as well as academic essays that explore the ways in which fandom can be theorized as a methodology for art practice and art history. Fandom as Methodology proposes that many artists and art writers already draw on affective strategies found in fandom. With the current focus in many areas of art history, art writing, and performance studies around affective engagement with artworks and imaginative potentials, fandom is a key methodology that has yet to be explored. Interwoven into the academic essays are lavishly designed artist pages in which artists offer an introduction to their use of fandom as methodology. Contributors Taylor J. Acosta, Catherine Grant, Dominic Johnson, Kate Random Love, Maud Lavin, Owen G. Parry, Alice Butler, Soojin Lee, Jenny Lin, Judy Batalion, Ika Willis. Brands of Faith argues that in order to compete effectively faiths have had to become brands - easily recognizable symbols and spokespeople with whom religious prospects can make immediate connections Mara Einstein shows how religious branding has expanded over the past twenty years to create a blended world of commerce and faith where the sacred becomes secular and the secular sacred. In a series of fascinating case studies of faith brands, she explores the significance of branded church courses, such as Alpha and The Purpose Driven Life, mega-churches, and the popularity of the televangelist Joel Olsteen and television presenter Oprah Winfrey, as well as the rise of Kaballah. She asks what the consequences of this religious marketing will be, and outlines the possible results of religious commercialism - good and bad. Repackaging religion - updating music, creating teen-targeted bibles - is justifiable and necessary. However, when the content becomes obscured, religion may lose its unique selling proposition - the very ability to raise us above the market.
