KEY=SEMINAR - ROGERS ELAINA

The French Wars of Religion 1559-1598

Routledge In the second half of the sixteenth century, France was racked by religious civil wars and peace was only restored when Henry of Navarre finally converted to Catholicism, deciding - in his immortal phrase - that 'Paris is worth a mass'. In this lucid introduction to a complex period in French history, Robert Knecht: Explains the evangelical and Lutheran origins of the Huguenot Church in France Challenges simplistic interpretations of the religious conflict as purely a cloak for political rebellion Provides concise analysis of the wars themselves and the ferment of political ideas which they generated Evaluates the extent of France's recovery under Henry IV This third edition has been updated throughout to take account of the latest scholarship, particularly on the Massacre of St. Bartholomew and the reign of Henry III when the monarchy almost succumbed to the challenge posed by the Catholic League.

There is a new colour plate section and the main text is supported by a full glossary of terms, maps and three detailed genealogical tables, as well as a carefully chosen selection of original documents. Each book in the Seminar Studies in History series provides a concise and reliable introduction to complex events and debates. Written by acknowledged experts and supported by extracts from historical Documents, a Chronology, Glossary, Who's Who of key figures and Guide to Further Reading, Seminar Studies in History are the essential guides to understanding a topic.

The French Wars of Religion, 1559-1598

Addison-Wesley Longman Limited Taken from a series which provides analyses of complex issues in A level modern history topics, this book looks at the France during 1559-1598. It examines the effects of the civil war - political, economic and social - and considers the extent of the kingdom's recovery under Henry IV.

The French Civil Wars, 1562-1598

Routledge The French Wars of Religion tore the country apart for almost fifty years. They were also part of the wider religious conflict between Catholics and Protestants which raged across Europe during the 16th century. This new study, by a major authority on French history, explores the impact of these wars and sets them in their full European context.

The French Civil Wars, 1562-1598

Longman Group United Kingdom This text is a new account of the French Civil Wars, explaining both conflicts and the attempts for peace in early modern France.

The French Wars of Religion, 1562-1629

Cambridge University Press This book is a 2005 edition of Mack P. Holt's classic study of the French religious wars of the sixteenth and seventeenth centuries. Drawing on the scholarship of social and cultural historians of the Reformation, it shows how religion infused both politics and the socio-economic tensions of the period to produce a long extended civil war. Professor Holt integrates court politics and the political theory of the elites with the religious experiences of the popular classes, offering a fresh perspective on the wars and on why the French were willing to kill their neighbors in the name of religion. The book has been created specifically for

undergraduates and general readers with no background knowledge of either French history or the Reformation. This edition updates the text in the light of new work published in the decade prior to publication and the 'Suggestions for further reading' has been completely re-written.

Germany and the Coming of the French Wars of Religion

BRILL Germany and the French Wars of Religion, 1560-1572 explores how the first decade of the religious wars in France was interpreted by German Protestants and why they felt compelled to intervene.

The World of the Siege

Representations of Early Modern Positional Warfare

BRILL The World of the Siege examines the conduct of early modern sieges (15th-18th centuries) in relation to the creation and interpretation of siege narratives. The volume provides insights into the convergences and divergences of diverse (military) cultures across Europe and Asia.

Climate, Catastrophe, and Faith

How Changes in Climate Drive Religious Upheaval

Oxford University Press The world has repeatedly suffered severe climate-driven shocks, which have resulted in famine, disease, violence, social upheaval, and mass migration. Such episodes have often been understood in religious terms, through the language of apocalypse, millennium, and Judgment. And they have frequently had real religious consequences, for instance by spawning new religious movements and revivals, or driving the persecution of religious minorities. Philip Jenkins shows how climate change has redrawn the world's religious maps, and how man-made climate change is likely to do so once again.

The Wars of Religion in France, 1559-1576

Politics and 'Politiques' in Sixteenth-Century France

A Conceptual History

Cambridge University Press Explores conceptions of politics in early modern France, and the controversies the word 'politique' attracted during the Wars of Religion.

Rumours of Revolt

Civil War and the Emergence of a Transnational News Culture in France and the Netherlands, 1561-1598

BRILL This book explores the reception of foreign news during the Dutch Revolt and the French Wars of Religion, shedding new light on the connections between these conflicts and demonstrating the emergence of critical news audiences.

Theodore Beza and the Quest for Peace in France 1572 - 1598

BRILL This volume presents a fascinating account of the political strategies, religious attitudes, and resistance activities of Theodore Beza and other French Protestant leaders between the Saint Bartholomew's Day massacres (1572) and the Edict of Nantes (1598).

Luther, Conflict, and Christendom

Reformation Europe and Christianity in the West

Cambridge University Press Martin Luther was the subject of a religious controversy that never really came to an end. The Reformation was a controversy about him.

Philip II

Routledge Any assessment of Philip II's rule assumes the appearance of a paradox. In analysing the nature and impact of Philip II's rule and government, the author seeks to examine the extent of the changes in royal finance, the economic and social issues, the impact of religion -- both within Spain and throughout its Empire -- and the aims and motives behind the king's foreign policy.

The Royalist War Effort 1642-1646

Routledge The English Civil War remains the most prolonged and traumatic example of internal violence in the history of the state. The Royalist War Effort, 1642-1646 shows the build up to the outbreak of the war, detailing how the war was fought, and how, ultimately, it was won and lost. In his new introduction to this second edition, Ronald Hutton places his vivid account of the Royalist war effort into modern historical context, bringing the reader up-to-date with recent developments in the study of the English civil war. He analyses the influences which affected his own interpretation of events, ensuring that The Royalist War Effort, 1642-1646 remains

the most informative and compelling account of the Royalist experience in the English civil war.

A History of Sixteenth-century France, 1483-1598

Renaissance, Reformation, and Rebellion

Palgrave Macmillan

Renaissance Warrior and Patron

The Reign of Francis I

Cambridge University Press A paperback of Knecht's comprehensive account of one of France's most important monarchs.

Reformation in Britain and Ireland

Oxford University Press on Demand This text draws upon the growing genre of writing about British History to construct an innovative narrative of religious change in the four countries/three kingdoms.

French Renaissance Monarchy

Francis I & Henry II

Routledge First published in 1984, Professor Knecht's study quickly established itself as the best short account of the period. The reigns of Francis I and Henry II, spanning the first half of the sixteenth century, are one of the most colourful and formative periods of French history. In addition to examining the nature and effectiveness of their reigns, Professor Knecht also examines their foreign policies which brought them into conflict with other major powers. For this new edition the author has added a new chapter on

patronage and the arts.

The Emergence of Pastoral Authority in the French Reformed Church (c.1555-c.1572)

BRILL The Emergence of Pastoral Authority in the French Reformed Church, c.1555-c.1572 offers an account of the issues and ambiguities connected to the implementation of the authority of the first generation of Geneva-trained French Reformed pastors.

Warfare, State and Society on the Black Sea Steppe, 1500–1700

Routledge This crucial period in Russia's history has, up until now, been neglected by historians, but here Brian L. Davies' study provides an essential insight into the emergence of Russia as a great power. For nearly three centuries, Russia vied with the Crimean Khanate, the Polish-Lithuanian Commonwealth and the Ottoman Empire for mastery of the Ukraine and the fertile steppes above the Black Sea, a region of great strategic and economic importance – arguably the pivot of Eurasia at the time. The long campaign took a great toll upon Russia's population, economy and institutions, and repeatedly frustrated or redefined Russian military and diplomatic projects in the West. The struggle was every bit as important as Russia's wars in northern and central Europe for driving the Russian state-building process, forcing military reform and shaping Russia's visions of Empire.

From Renaissance Monarchy to Absolute Monarchy French Kings, Nobles, and Estates

JHU Press Evans (classics, U. of British Columbia) examines the history of the great emperor, whose reign marks the transition between Late Antiquity and the Byzantine period, including what is presently known about his life, the social structure of the empire, its relations with its neighbors, and naturally, its wars. It also examines theological issues, which split the empire and left deep

divisions after Justinian's death. Annotation copyright by Book News, Inc., Portland, OR.

The Rise and Fall of Renaissance France (Text Only)

HarperCollins UK The history of Renaissance France is rich and varied.

Mendicants, Military Orders, and Regionalism in Medieval Europe

Routledge The new religious orders of the 12th and 13th centuries - the military orders and the mendicants - were established as international orders. Yet they were inevitably dependent on regional and local conditions for recruitment and finance, and could not escape involvement in the power structures, whether secular or ecclesiastical, of the areas in which they were based. This book examines the tensions that arose from this, and how they evolved and were manifested. It looks in particular at the orders' early expansion, and at the special conditions that applied in frontier regions, notably those in Northern and Central Europe which have typically been less well studied.

Exit from Hegemony

The Unraveling of the American Global Order

Oxford University Press, USA "We live in a period of uncertainty about the fate of American global leadership and the future of international order. The 2016 election of Donald Trump led many to pronounce the death, or at least terminal decline, of liberal international order - the system of institutions, rules, and values associated with the American-dominated international system. But the truth is that the unravelling of American global order began over a decade earlier. Exit from Hegemony develops an integrated approach to understanding the rise and decline of hegemonic orders. It calls attention to three drivers of transformation in contemporary order. First, great powers, most notably Russia and China, contest existing norms and values, while simultaneously building new spheres of international order through regional institutions. Second, the loss of the "patronage monopoly" once enjoyed

by the United States and its allies allows weaker states to seek alternative providers of economic and military goods - providers who do not condition their support on compliance with liberal economic and political principles. Third, transnational counter-order movements, usually in the form of illiberal and right-wing nationalists, undermine support for liberal order and the American international system, including within the United States itself. Exit from Hegemony demonstrates that these broad sources of transformation - from above, below, and within - have transformed past international orders and undermine prior hegemonic powers. It provides evidence that that all three are, in the present, mutually reinforcing one another and, therefore, that the texture of world politics may be facing major changes""--

The French Religious Wars 1562–1598

Bloomsbury Publishing The eight French Wars of Religion began in 1562 and lasted for 36 years. Although the wars were fought between Catholics and Protestants, this books draws out in full the equally important struggle for power between the king and the leading nobles, and the rivalry between the nobles themselves as they vied for control of the king. In a time when human life counted for little, the destruction reached its height in the St Bartholomew's Day Massacre when up to 10,000 Protestants lost their lives.

Factional Struggles

Divided Elites in European Cities & Courts (1400-1750)

BRILL

The Winter King

Frederick V of the Palatinate and the Coming of the

Thirty Years' War

Routledge Elector Palatinate Frederick V - the Winter King - would be an insignificant figure in the history of Europe were it not for the tremendous conflagration that he helped to ignite. Frederick's conflict with Holy Roman Emperor Ferdinand II over the throne of Bohemia plunged Europe into thirty years of savage violence, fiery devastation, and terrible privation during the first half of the seventeenth century. More than simply a biographical study of Frederick, The Winter King provides a fresh and compelling study into the causes of the Thirty Years' War. Examining the early stages of the war through the locus of Frederick, it reconciles the forces of confession, conscience and constitutionalism that affected Frederick's decision making at critical junctures throughout the crisis. By placing constitutionalism rather than religion at the centre of events, it offers a subtle yet convincing new account of the conflict. Drawing on political and personal correspondence, backed up with a wealth of archival and secondary sources, Dr Pursell presents Frederick's choices and alternatives and interprets his words and responses to them. Considering the war from Frederick's perspective he argues convincingly that the war is best understood not simply as a struggle between Protestant and Catholic powers, but rather as an extended constitutional conflict, entwining religious and political factors, fought within the Holy Roman Empire.

The Logic of Violence in Civil War

Cambridge University Press By analytically decoupling war and violence, this book explores the causes and dynamics of violence in civil war. Against the prevailing view that such violence is an instance of impenetrable madness, the book demonstrates that there is logic to it and that it has much less to do with collective emotions, ideologies, and cultures than currently believed. Kalyvas specifies a novel theory of selective violence: it is jointly produced by political actors seeking information and individual civilians trying to avoid the worst but also grabbing what opportunities their predicament affords them. Violence, he finds, is never a simple reflection of the optimal strategy of its users; its profoundly interactive character defeats simple maximization logics while producing surprising outcomes, such as relative nonviolence in the 'frontlines' of civil war.

Making Money in Sixteenth-Century France

Currency, Culture, and the State

Cornell University Press Coinage and currency—abstract and socially created units of value and power—were basic to early modern society. By controlling money, the people sought to understand and control their complex, expanding, and interdependent world. In *Making Money in Sixteenth-Century France*, Jotham Parsons investigates the creation and circulation of currency in France. The royal Cour des Monnaies centralized monetary administration, expanding its role in the emerging modern state during the sixteenth century and assuming new powers as an often controversial repository of theoretical and administrative expertise. The Cour des Monnaies, Parsons shows, played an important role in developing the contemporary understanding of money, as a source of both danger and opportunity at the center of economic and political life. More practically, the Monnaies led generally successful responses to the endemic inflation of the era and the monetary chaos of a period of civil war. Its work investigating and prosecuting counterfeiters shone light into a picaresque world of those who used the abstract and artificial nature of money for their own ends. Parsons's broad, multidimensional portrait of money in early modern France also encompasses the literature of the age, in which money's arbitrary and dangerous power was a major theme.

Renaissance Diplomacy

Cosimo, Inc. Famed historian's definitive history of the origins of diplomacy, tracing the diplomat's role as it emerged in the Italian city-states and spread northward in the 16th and 17th centuries.

Noble Power During the French Wars of Religion

The Guise Affinity and the Catholic Cause in Normandy

Cambridge University Press A study of the political affinities of the Guise family in France during the sixteenth century.

The St. Bartholomew's Day Massacre

A Brief History with Documents

Macmillan Higher Education A riveting account of the Saint Bartholomew's Day Massacre, its origins, and its aftermath, this volume by Barbara B. Diefendorf introduces students to the most notorious episode in France's sixteenth century civil and religious wars and an event of lasting historical importance. The murder of thousands of French Protestants by Catholics in August 1572 influenced not only the subsequent course of France's civil wars and state building, but also patterns of international alliance and long-standing cultural values across Europe. The book begins with an introduction that explores the political and religious context for the massacre and traces the course of the massacre and its aftermath. The featured documents offer a rich array of sources on the conflict — including royal edicts, popular songs, polemics, eyewitness accounts, memoirs, paintings, and engravings — to enable students to explore the massacre, the nature of church-state relations, the moral responsibility of secular and religious authorities, and the origins and consequences of religious persecution and intolerance in this period. Useful pedagogic aids include headnotes and gloss notes to the documents, a list of major figures, a chronology of key events, questions for consideration, a selected bibliography, and an index.

Defense of Liberty Against Tyrants

Peter Smith Publisher

The Valois

Kings of France 1328-1589

A&C Black The house of Valois ruled France for 250 years, playing a crucial role in its establishment as a major European power. This extremely well-written and structured book will appeal to the general reader.

Beneath the Cross

Catholics and Huguenots in Sixteenth-century Paris

Oxford University Press, USA This study focuses on the popular religious fanaticism and hatred caused by the religious conflicts of 16th-century France, particularly the St Bartholomew's Day massacres of 1572. It uses an array of sources to examine the violence which escalated during this period.

Broadsheets

Single-Sheet Publishing in the First Age of Print

BRILL A landmark study of single-sheet publishing during the first two centuries after the invention of printing. Long disregarded as ephemera or cheap print, broadsheets emerge as both a crucial communication medium and an essential underpinning of the economics of the publishing industry.

A Popular History of France From The Earliest Times (Complet)

Library of Alexandria Translated by Robert Black.

The Plain Man's Pathways to Heaven

Kinds of Christianity in Post-Reformation England, 1570-1640

Oxford University Press A lively account of popular religion in England under Elizabeth I and the early Stuarts, a time when everyone had to go to church and almost everyone was religious to some extent. The book deals with the religious beliefs and practices of ordinary people - mainly by quoting their actual words.
