Anthropology, Theatre, and Development** **The Transformative Potential of Performance** *Springer* **The contributors explore diverse contexts of performance to discuss peoples' own reflections on political subjectivities, governance and development. The volume refocuses anthropological engagement with ethics, aesthetics, and politics to examine the transformative potential of political performance, both for individuals and wider collectives. system, Marco Copercini - Books Reviews: Pedrazzini, M.C., e M. Verna, a cura di. 2018. Paris, un lieu commun. Milano: LED Edizioni, pp. 110, Dino Gavinelli *Del sangue e del vino* *Rubbettino Editore* Il romanzo d'esordio di Ettore Castagna si staglia nel trapasso fra il Seicento e il Settecento, in un ambiente mediterraneo rurale e feroce. Tre generazioni che partono da una coppia di greci in fuga dalla selvaggia invasione balcanica a mano dei turchi nella seconda metà del Seicento. Il romanzo ha la cadenza di una tragedia classica ma il ritmo di un moderno thriller. Una storia da un Sud antico tra elementi fantastici, bassezze morali, mondi infimi e aperture epiche. Un eroismo sceso tra le persone qualunque e, dunque, universale. Un percorso di redenzione, non solo dei protagonisti ma persino del lettore. Qui la verità è più forte di ogni giudizio. È la verità narrativa. Assoluta e definitiva. *Global Tarantella Reinventing Southern Italian Folk Music and Dances* *University of Illinois Press* Tarantella, a genre of Southern Italian folk music and dance, is an international phenomenon--seen and heard in popular festivals, performed across the Italian diaspora, even adapted for New Age spiritual practices. The boom in popularity has diversified tarantella in practice while setting it within a host of new, unexpected contexts. *Incoronata* Inserra ventures into the history, global circulation, and recontextualization of this fascinating genre. Examining tarantella's changing image and role among Italians and Italian Americans, Inserra illuminates how factors like tourism, translation, and world music venues have shifted the ethics of place embedded in the tarantella cultural tradition. Once rural, religious, and rooted, tarantella now thrives in settings urban, secular, migrant, and ethnic. Inserra reveals how the genre's changing dynamics contribute to reimagining Southern Italian identity. At the same time, they translate tarantella into a different kind of performance that serves new social and cultural groups and purposes. Indeed, as Inserra shows, tarantella's global growth promotes a reassessment of gender relations in the Italian South and helps create space for Italian and Italian-American women to reclaim gendered aspects of the genre. *Little Italy in the Great War Philadelphia's Italians on the Battlefield and Home Front* *Temple University Press* The Great War challenged all who were touched by it. Italian immigrants, torn between their country of origin and country of relocation, confronted political allegiances that forced them to consider the meaning and relevance of Americanization. In his engrossing study, *Little Italy in the Great War*, Richard Juliani focuses on Philadelphia's Italian community to understand how this vibrant immigrant population reacted to the war as they were adjusting to life in an American city that was ambivalent toward them. Juliani explores the impact of the Great War on many immigrant soldiers who were called to duty as reservists and returned to Italy, while other draftees served in the U.S. Army on the Western Front. He also studies the impact of journalists and newspapers reporting the war in English and Italian, and reactions from civilians who defended the nation in industrial and civic roles on the home front. Within the broader context of the American experience, *Little Italy in the Great War*

examines how the war affected the identity and cohesion of Italians as a population still passing through the assimilation process. **Touch the Earth** *Simon and Schuster* A New York Times bestseller that TODAY calls “beautiful” and “stunning!” This interactive book immerses children in a fun and unique journey. Jump aboard the White Feather Flier, a magical plane that can go wherever you want! Just press a button printed on the page, and point the plane up in the air to fly, or down to land it! Fly to the top of a mountain! Send clean water to thirsty people! Dive deep into the ocean (the Flier turns into a submarine!) to pick up pollution and bring back the fish! The book includes words to a special poem written by Julian Lennon, specifically for **Touch the Earth**. This is the first book in a planned trilogy. Music and Women's Rites Among Kosovarian Roma. Con DVD Sense of Origins A Study of New York's Young Italian Americans** *State University of New York Press* Studies the relationship between young Italian Americans and their Italian cultural and historical heritage. In **Sense of Origins**, Rosemary Serra explores the lives of a significant group of self-identified young Italian Americans residing in New York City and its surrounding areas. The book presents and examines the results of a survey she conducted of their values, family relationships, prejudices and stereotypes, affiliations, attitudes and behaviors, and future perspectives of Italian American culture. The core of the study focuses on self-identification with Italian cultural heritage and analyzes it according to five aspects—physical, personality, cultural, psychological, and emotional/affective. The data provides insights into today's young Italian Americans and the ways their perception of reality in everyday interactions is affected by their heritage, while shedding light on the value and symbolic references that come with an Italian heritage. Through her rendering of relevant facets that emerge from the study, Serra constructs interpretative models useful for outlining the physiognomy and characterization of second, third, fourth, and fifth generations of Italian Americans. In the current climate, questions of ethnicity and migrant identity around the world make **Sense of Origins** useful not only to the Italian American community but also to the descendants of the innumerable present-day migrants who find themselves living in countries different from those of their ancestors. The book will resonate in future explorations of ethnic identity in the United States. Rosemary Serra is Associate Professor of Sociology at the University of Trieste, Italy. She is the author

and editor of several Italian-language books in sociology, including *Logiche di rete: Dalla teoria all'intervento sociale*. Scott R. Kapuscinski teaches English at Queens College, City University of New York. **The Ancient Dancer in the Modern World Responses to Greek and Roman Dance** *Oxford University Press* When the eighteenth-century choreographer Jean-Georges Noverre sought to develop what is now known as modern ballet, he turned to ancient pantomime as his source of inspiration; and when Isadora Duncan and her contemporaries looked for alternatives to the strictures of classical ballet, they looked to ancient Greek vases for models for what they termed 'natural' movement. This is the first book to examine systematically the long history of the impact of ideas about ancient Greek and Roman dance on modern theatrical and choreographic practices. With contributions from eminent classical scholars, dance historians, theatre specialists, modern literary critics, and art historians, as well as from contemporary practitioners, it offers a very wide conspectus on an under-explored but central aspect of classical reception, dance and theatre history, and the history of ideas. **Twelve Years a Slave** *Prabhat Prakashan* "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt **Nobiltà Di Dame A Treatise on Courtly Dance, Together with the Choreography and Music of 49 Dances** *Oxford [Oxfordshire] ; New York : Oxford University Press* **Fabritio Caroso** was dancing master to some of the greatest princely families of Italy, and **Nobiltà di dame**, his sumptuous collection of ballroom dances and their music, reflects an age that believed that the person of high rank should be a work of art, uniting strength and beauty. Caroso's detailed instructions (including rules for steps, style and etiquetter, and forty-eight actual choreographies) are unequalled by any contemporary manual in their specificity and clarity. Most dances are preceded by an engraving showing the opening position and illustrating many aspects of dress, posture, and gesture. A full scholarly apparatus, giving new information unavailable elsewhere, makes the book even more valuable to dancers and to students of dance and music at the junction of the Renaissance and Baroque eras. **The Sentient Archive Bodies, Performance, and Memory** *Wesleyan University Press* The **Sentient Archive** gathers the work of scholars and practitioners in dance, performance, science, and the visual arts. Its twenty-eight rich and challenging essays cross boundaries within and between disciplines, and illustrate how the body serves as a repository for knowledge. Contributors include Nancy Goldner, Marcia B. Siegel, Jenn Joy, Alain Platel, Catherine J. Stevens, Meg Stuart, André Lepecki, Ralph Lemon, and other notable scholars and artists. Hardcover is un-jacketed. **Run From hell to Central Park** *LIT EDIZIONI* A man falls from the fourth floor. It is the only choice he has left to stop suffering. As he falls he announces his last wish, but then his body freezes a few centimetres above the ground. A

thread of light descends from above him, he clings to it, and tries to escape from the dark well of depression that has swallowed him. Aldo Amedei is a successful journalist who has lost everything, even his dreams. The past is regret, the present is populated by monsters and ghosts, but he tries to follow that thread of light, that crazy desire that kept him alive, by running the New York marathon. He doesn't even know why he thought of it; after all, he is a man who takes his car to drive a hundred metres. He starts running, like an escaped prisoner hunted by his nightmares. He falls, he gets up, he falls again and gets back on his feet. And each time it hurts more and more. But he doesn't let go. For love, and with the love of Teresa, his young partner. Spitting out his soul along streets full of toil, angels and vultures, he comes back to life, to passion and to dreams. He's helped by a doctor, a unexpected coach and a grandson even crazier than himself. He becomes another person, embedding people into his heart, along with laughter, surprises and new emotions. But his enemies don't give up, they chase him, determined to bring him back into the black well of depression. There's everything still to play for, as in the last challenge, between life and death: the 42 kilometres and 195 metres of the New York marathon. Against the wind and against everything. From Hell to Central Park.

**Studia Instrumentorum Musicae Popularis I (new series) "The New Series of the ICTM Study Group Journal STUDIA INSTRUMENTORUM MUSICAE POPULARIS starts with a broad overview on the topics "Percussion" and "Migration of Musical Instruments", an outcome of the 17th Meeting of the Study Group on Folk Musical Instruments, held in Erkner near Berlin from April 1-4, 2009. 25 scholars from 15 countries contributed articles to the volume, which appear in their alphabetical order due to the fact that clear borders cannot and should not be delineated. Moreover, the editors leave it to the readers' community to discuss hierarchies regarding their importance or their qualitative refinement for discussion and further improvements are the main aim of the publication. Since 1969, when the Musikhistoriska museet in Stockholm has published its first volume of the journal, edited by Erich Stockmann, many fields of organological research have changed their methodological repertoire, their interdisciplinary tools and especially their non-instrumental focus on complex subjects. Nevertheless, classical working methods are still highly esteemed as a basic precondition for detailed discoveries using modern technology and external expertise. The volume comprises papers of authors, who already contributed to the journal's former series in their youth, as well as those of authors with their first journal publication, who are just starting to explore their scientific scope. Thus this volume brings together generations of scholars with different experiences and their open minded curiosity about each other. Challenging discussions and a wide field of interdisciplinary connections enriched their outcomes and will help to create new scientific spaces beyond the tangibility of musical instruments and the intangibility of musical sound."--**

But then he accepts a request from one of his teachers to help out at a youth club in the destitute Sicilian neighbourhood of Brancaccio. This narrow tangle of alleyways is controlled by local mafia thugs, but it is also the home of children like Francesco, Maria, Dario, Totò: children with none of Federico's privileges, but with a strength and vitality that changes his life forever. Norton & Company "Nobody writes better about music .... again and again, unerring insight into just the features that make the music special and fine."-The New York Review of Books English in Europe OUP Oxford English in Europe charts the English invasion of Europe since 1945. Sixteen distinguished European scholars report on the English words and phrases that have become integral parts of their languages. Each describes the effect of English on the host language, and shows how the process of incorporation often modifies pronunciation and spelling and frequently transforms meaning and use. The languages surveyed are Icelandic, Dutch, French, Spanish, Norwegian, German, Italian, Romanian, Polish, Croatian, Finnish, Albanian, Russian, Bulgarian, Hungarian, and Greek. The book is designed as a companion to A Dictionary of European Anglicisms but may be read as an independent work. This is the first systematic survey of a phenomenon that is fascinating, alarming, and apparently unstoppable. *Re Root Roots to unearth a beautiful life* Notion Press The meaning of our life is solely focused on the various aspects which make our life beautiful, happy, and also entertaining. We are in bound by a lot of thoughts on our minds that constantly disturb us in the long run of our life. These thoughts redirect us to a different path where we lose ourselves without knowing the consequences we are going to face. We rely more on our past which creates resistance with the universe, making us forget about enjoying our present and making our future worth living. It is true that for the trees to grow stronger, their roots must be strong. Every root makes a difference in some or the other way. We have chapters written for our life already and we can't skip any of them as it works that way. Every person you meet, everything you feel and see is important and is connected in many ways. Do you know what is one of the biggest assets of our body? Our mind. In the same way, this book elucidates the roots which are important for you to discover the beautiful life that you can think of living. When these roots, though generic, grow stronger, they help you create a mental garden of thoughts that will reflect the way you want your life to be. For a human to live, positivity, happiness, and calmness are a few craft keys to their mind. When you maintain it, you'll then make a cloud that would contain a cluster of happiness, entertainment, peace, the beauty of our soul which will drift you off-limits in making every moment, every second count in your life making it to the beautiful destination that you eventually wanted to reach. *Las Películas de mi vida una novela* Harper Collins A Chilean seismologist working in California draws parallels between the shifting plate tectonics that comprise his professional world, his complex and culturally rich family life, and the B movies that marked his childhood. 40,000 first printing. *Illustrazione Di Milazzo E Studj Sulla Morale E Su' Costumi Dei Villani Del Suo Territorio* Wentworth Press This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Caridi brings contemporary Jerusalem alive by describing it as a place of sights and senses, sounds and smells, but she also shows us a city riven by the harsh asymmetry of power and control embodied in its lines, limits, walls, and borders. She explores a cruel city, where Israeli and Palestinian civilians sometimes spend hours in the same supermarkets, only to return to the confines of their respective districts, invisible to each other. *Radio Programming Roles FEBC Perspectives When People Play People Development Communication Through Theatre Zed Books* There is a growing sense that existing media have failed to serve the purposes of development, and in particular have not reflected either the concerns or the needs of the rural majority in Third World countries. Theatre, however, is now being used as a way of increasing popular participation in the development process. This book examines these experiences of training extension workers in the use of theatre-for-development, and explores the author's own attempts-notably with the Marotholi Travelling Theatre in Lesotho - to develop a new model of theatrical communication. *333 Elementary Exercises in Sight Singing Hassell Street Press* This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. Jean-Marie Floch provides an introduction to the potential offered by a semiotic approach to a variety of marketing and communication problems or situations. Key semiotic concepts and principles are gradually introduced using real life studies. *Labics - Structures A System of Relations* *Park Publishing (WI)* Labics is a rising Rome-based architectural firm that has gained great international acclaim in recent years for both its projects and its submissions to major competitions. Its guiding principle is the idea of "structure." Each of the firm's projects--which range from housing and office buildings to museums, cultural centers, schools, subway stations, and public spaces--is intended to exemplify the importance of the respective type of structure. *Labics--Structures* is the first book on Labics's remarkable and rapidly growing body of work. The book is arranged in four chapters that explore the idea of structure in different contexts: "Geometric," "Bearing," "Circulation," and "Public Space Structures." Alongside topical essays, it features twenty projects selected by the firm's founding directors, Maria Claudia Clemente and Francesco Isidori, to represent the diversity of the firm's work, as well as its wide geographic reach--with buildings in Italy, Finland, Switzerland, England, Bosnia and Herzegovina, Saudi Arabia, and Iran. Each project is documented with atmospheric photographs and a wealth of plans and diagrams to illustrate concepts and details.
