The Voyage of the Beagle *The Floating Press* Voyage of the Beagle chronicles Charles Darwin's five years as a naturalist on board the H.M.S. Beagle. The notes and observations that he recorded in his diary included Chile, Argentina and Galapagos Islands and encompasses the ecology, geology and anthropology of the places he visits. A fascinating travel memoir the ideas that were later to evolve into Darwin's theory of natural selection find their naissance in Voyage of the Beagle. **A Panegyric on Macarius Bishop of Tków Aurora Australis** *Good Press* "Aurora Australis" by Sir Ernest Henry Shackleton, Frank Wild, Tannatt William Edgeworth David, George Marston, Alistair Mackay, James Murray, Douglas Mawson. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of THE SECRET. Are you smart enough? THE SECRET: A TREASURE HUNT was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum. **The Worst Journey in the World Antarctic 1910-1913** *Simon and Schuster* "And I tell you, if you have the desire for knowledge and the power to give it physical expression, go out and explore," wrote Apsley Cherry-Garrard in the opening chapters of his now classic exploration narrative, The Worst Journey in the World. The incredible tale that he tells is of the fated last voyage of Captain Robert Scott and his crew to the outermost reaches of the South Pole on the Terra Nova. Chronicling the journey of the Terra Nova from England in 1910 to New Zealand in 1913, The Worst Journey in the World vividly describes the entirety of Scott's harrowing and tragic final expedition. Driven by a lust to investigate the untold scientific knowledge contained within the South Pole, these courageous pioneers embarked on a journey into previously unexplored territory, subjecting themselves to the ultimate physical and mental limits as they traveled the massive expanses of the icy tundra. Cherry-Garrard was a key member of the Terra Nova crew that, in addition to the desire to uncover scientific data, desperately sought to be the first Europeans to reach the South Pole. But the expedition was thwarted at every turn by punishing weather, extreme bad luck, and the intense physical and mental decline of the crew on the final stages of their journey. Confronted by the shattering knowledge that rival explorer Roald Amundsen had reached the South Pole only a few weeks before them, Scott's team then had to negotiate the last stage of their voyage, a doomed attempt which has no equal in peril, disaster, and tragedy. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home. **James Fitzjames The Mystery Man of the Franklin Expedition** *Dundurn* James Fitzjames was a hero of the early nineteenth-century Royal Navy. A charismatic man with a wicked sense of humour, he pursued his naval career with wily determination. When he joined the Franklin Expedition at the age of 32 he thought he would make his name. But instead the expedition completely disappeared and he never returned. Its fate is one of history's last great unsolved mysteries, as were the origins and background of James Fitzjames - until now. Fitzjames packed a great deal into his thirty-two years. He had sailed an iron paddle steamer down the River Euphrates and fought with spectacular bravery in wars in Syria and China. But Fitzjames was not what he seemed. He concealed several secrets, including the scandal of his birth, the source of his influence and his plans for after the Franklin Expedition. In this first complete biography of the captain of the HMS Erebus, William Battersby draws extensively on Fitzjames' personal letters and journals - most never published before - as well as official naval records, to strip away 200 years of misinformation and half-truths and enables us to understand for the first time this intriguing man and his significance for the Franklin Expedition. **Sharpe's Prey: The Expedition to Copenhagen, 1807 (The Sharpe Series, Book 5)** *HarperCollins UK* *SHARPE'S ASSASSIN, the brand new novel in the global bestselling series, is available to buy now* **Vehicle-dependent Expedition Guide The White Darkness** *Simon and Schuster* 'A riveting, exciting and thoroughly compelling tale of adventure' JOHN GRISHAM on David Grann's The Lost City of Z 'A wonderful story of a lost age of heroic exploration' Sunday Times on The Lost City of Z 'Marvellous ... An engrossing book whose protagonist could out-think Indiana Jones' Daily Telegraph on The Lost City of Z DAILY MAIL BOOK OF THE WEEK One man's perilous quest to cross Antarctica in the footsteps of Shackleton. Henry Worsley was a devoted husband and father and a decorated British special forces officer who believed in honour and sacrifice. He was also a man obsessed. He spent his life idolizing Ernest Shackleton, the 20th-century polar explorer, who tried to become the first person to reach the South Pole and later sought to cross Antarctica on foot. Shackleton never completed his journeys, but he repeatedly rescued his men from certain death and emerged as one of the greatest leaders in history. Worsley felt an overpowering connection to those expeditions. He was related to one of Shackleton's men, Frank Worsley, and spent a fortune collecting artefacts from their epic treks across the continent. He modelled his military command on Shackleton's legendary skills and was determined to measure his own powers of endurance against them. He would succeed where Shackleton had failed, in the most brutal landscape in the world. In 2008, Worsley set out across Antarctica with two other descendants of Shackleton's crew, battling the freezing, desolate landscape, life-threatening physical exhaustion and hidden crevasses. Yet when he returned home he felt compelled to go back. On November 2015, at age 55, Worsley bid farewell to his family and embarked on his most perilous quest: to walk across Antarctica alone. David Grann tells Worsley's remarkable story with the intensity and power that have led him to be called 'simply the best narrative nonfiction writer working today'. Illustrated with more than 50 stunning photographs from Worsley's and Shackleton's journeys, The White Darkness is both a gorgeous keepsake volume and a spellbinding story of courage, love and a man pushing himself to the extremes of human capacity. Praise for David Grann's Killers of the Flower Moon: 'A riveting true story of greed, serial murder and racial injustice' JON KRAKAUER 'A fiercely entertaining mystery story and a wrenching exploration of evil' KATE ATKINSON 'A fascinating account of a tragic and forgotten chapter in the history of the American West' JOHN GRISHAM 'Disturbing and riveting...Grann has proved himself a master of spinning delicious, many-layered mysteries that also happen to be true...It will sear your soul' DAVE EGGERS, New York Times Book Review 'An extraordinary story with extraordinary pace and atmosphere' Sunday Times 'A marvel of detective-like research and narrative verve' Financial Times **Sex** *Harvill Secker* **Wild Rescuers: Expedition on the Tundra** *HarperCollins* A New York Times bestselling series! From StacyPlays, the YouTube sensation with over 2 million subscribers, comes the exhilarating third book in her Minecraft-inspired adventure series about a girl raised by wolves. Stacy always knew that the intelligent, playful wolves who raised her weren't like other animals. Normal wolf packs don't spend their time rescuing animals and caring for an orphaned girl. But lately, Stacy's wolves have revealed to her just how special they are—supernaturally special. The wolves each have their own unique ability: they can breathe underwater, run at impossible speeds, heal wounds, and more. They're extraordinary—but how did they get that way? Determined to uncover the truth, Stacy leads the pack north. But the harsh tundra biome pushes the pack to its limits. Can they survive long enough to discover the truth? And is Stacy prepared for what the truth actually is? Fans of Minecraft: The Crash and PopularMMOs Presents: A Hole New World will love this illustrated, action-packed series! **The Last Expedition** *Random House* WITH AN INTRODUCTION BY SIR RANULPH FIENNES The Last Expedition is Captain Scott's gripping account of his expedition to the South Pole in 1910-12. It was meant to be a voyage of scientific discovery and a heroic exploration of the last unconquered wilderness. Scott's expedition, carried in the Terra Nova, pitted him and his team not only against the elements but also against the Norwegian explorer, Amundsen. Ultimately, Scott was beaten by both. The journals are full of incident and drama, courage and endurance, hope and bitter disappointment. These journals were found, along with Scott's body, several months after his death and just 11 miles from base camp and safety. **Magical Jungle An Inky Expedition and Colouring Book** *Random House* From the international bestselling creator of Lost Ocean comes a beautiful new colouring book that takes you on a wondrous expedition through the jungle. Follow ink evangelist and queen of colouring, Johanna Basford down an inky trail through Magical Jungle and discover a forgotten world of flora and fauna just waiting to be coloured in. Through intricate pen and ink illustrations, colour-inners of all ages are invited to explore an exotic rainforest teeming with creatures large and small. Encounter speckled tree frogs and dainty hummingbirds, prowling tigers and playful monkeys. Let your imagination run wild in the leafy treetop canopy or find yourself drawn to the delicate world of sensational blossoms and tropical plants below. There are ancient relics to be found along the way, each one leading toward the mystical treasure hidden at the heart of the magical jungle. Only the bravest, most inquisitive colourers will discover what lies hidden at the end of this inky quest. For Magical Jungle Johanna has picked a crisp ivory paper that accentuates and compliments your chosen colour palette. The smooth, untextured pages allows for beautiful blending or gradient techniques with coloured pencils, or are perfect for pens, allowing the nib to glide evenly over the surface without feathering. **The Kon-Tiki Man Thor Heyerdahl** *Isis Large Print Books* **South The Endurance Expedition** *Penguin UK* The Imperial Trans-Antarctic Expedition was perhaps the most ambitious, elaborate and confident of all the British attempts to master the South Pole. Like the others it ended in disaster, with the Endeavour first trapped and then crushed to pieces in the ice and its crew trapped in the Antarctic, seemingly doomed to a slow and horrible death. In the face of extraordinary odds, Shackleton, the expedition's leader, decided on the only course that might just save them: a 700 nautical mile voyage in a small boat across the ferocious Southern Ocean in the forelorn hope of reaching the only human habitation within range: a small whaling station on the rugged, ice-sheeted island of South Georgia. South tells the story both of the whole astonishing expedition and of Shackleton's journey to rescue his men - one of the greatest feats of navigation ever recorded. **Baby Einstein: Jane's Animal Expedition** *Disney Press* The adventurous Jane wants to learn about animals. So she takes off in her little red plane in search of them. But where do animals live:? The desert? The rain forest? The ocean? Children will enjoy traveling around the world with Jane and meeting the many different creatures she discovers in each habitat. **Endlessness** "Endlessness (2020) is an artist book that takes Scott's expedition to the Antarctic in 1910-13 as its starting point. Through facts, borrowed text, new and found images, Endlessness retells this journey, while a series of visual and written "interludes" open up a more speculative narrative on solitude, interiority, and vision.The book is based around a pair of skis used on the expedition, which belonged to one of the younger members of Scott's Polar Party, Apsley Cherry-Garrard and are carved with his initials, most likely by the man himself. The skis--

now at the Royal Geographical Society in London--are reproduced at actual scale, and run across several pages as a visual nod to Cherry-Garrard's physical ordeals in the Antarctic and a reminder that to live life to the full is to find a balance between the corporeal and the reach of our imagination. The book also mulls over the uncertainties of vision. Cherry-Garrard was profoundly myopic, photographs showing him habitually wearing metal-rimmed spectacles. These would have frozen to his face if worn outside during the expedition so for much of the time he would have been operating with minimal sight. As a show of distant solidarity, Tim O'Riley uses his own optical prescription for astigmatism to structure 'graphical fields' that punctuate the book." -- <https://www.timoriley.net/> **Hidden London Discovering the Forgotten Underground** *Yale University Press* Travel under the streets of London with this lavishly illustrated exploration of abandoned, modified, and reused Underground tunnels, stations, and architecture. **The Van Conversion Bible The Ultimate Guide to Converting a Campervan** *Climbingvan* Want to wake up to a breathtaking new view every morning? Rarely did he consume strong drink. On his expeditions, he tolerated a 'mild spree' at times of celebration. But that was all. Drinking to excess appalled him. From an early age, growing up in a teetotal home, he was wary of alcohol. How, then, must he have felt about signing an order for twenty-five cases of whisky — 300 bottles — for his 1907-09 British Antarctic Expedition? Shackleton's Whisky follows the story of the Rare Old Highland Whisky taken south on his Nimrod expedition. It celebrates the extraordinary achievements of men exploring an extraordinary place. It dips into the human-interest stories of polar life in the 'heroic era' of Antarctic exploration. Shackleton once wrote of his interest in documenting 'the little incidents that go to make up the sum of the day's work, the humour and the weariness, the inside view of men on an expedition'. Here is one such account, based largely on what he wrote and said about the expedition and also on what the members of his expedition wrote, for most participants kept a diary or journal. Antarctic exploration and whisky, in their own way, are both steeped in history, maturity, endurance, character, and technology. Both have a worldwide following, millions of fans. Their pathways coincided on the British Antarctic Expedition 1907-09. With the recovery 100 years later of three cases of Scotch from icy entombment under the hut at Cape Royds and the subsequent return of three bottles to Scotland for sampling, analysis and a near-magical replication, the relationship of whisky and Antarctic exploration came sharply into focus, making a unique odyssey to the end of the Earth and back. **Endurance Shackleton's Incredible Voyage** *Hachette UK* Experience one of the greatest adventure stories of the modern age in this New York Times bestseller: the harrowing tale of British explorer Ernest Shackleton's 1914 attempt to reach the South Pole. In August 1914, polar explorer Ernest Shackleton boarded the *Endurance* and set sail for Antarctica, where he planned to cross the last uncharted continent on foot. In January 1915, after battling its way through a thousand miles of pack ice and only a day's sail short of its destination, the *Endurance* became locked in an island of ice. Thus began the legendary ordeal of Shackleton and his crew of twenty-seven men. When their ship was finally crushed between two ice floes, they attempted a near-impossible journey over 850 miles of the South Atlantic's heaviest seas to the closest outpost of civilization. With an introduction by Nathaniel Philbrick, *Endurance* is the definitive account of Ernest Shackleton's fateful trip. Alfred Lansing brilliantly narrates the gripping and miraculous voyage that has defined heroism for the modern age. **In the Heart of the Antarctic** Frustrated by his experiences on an expedition led by Captain Robert Scott, explorer Ernest Shackleton, in 1907, launched his own attempt to reach the South Pole. At the mercy of a hostile continent it was to become the most extreme test of endurance imaginable. This is his thrilling account of that expedition. **The North Pole: Its Discovery in 1909 Under the Auspices of the Peary Arctic Club** *Library of Alexandria* **The South Pole An Account of the Norwegian Antarctic Expedition in the Fram, 1910-1912** *Rowman & Littlefield* Roald Amundsen (1872-1928), the foremost polar explorer, records his race to be the first man to reach the South Pole. **Leading at The Edge Leadership Lessons from the Extraordinary Saga of Shackleton's Antarctic Expedition** *AMACOM* Drawing on the amazing story of Shackleton and his polar exploration team's survival against all odds, author Dennis N. T. Perkins demonstrates the importance of a strong leader in times of adversity, uncertainty, and change. Part adventure tale and part leadership guide, *Leading at the Edge* uncovers what the legendary Antarctic adventure of Sir Ernest Shackleton, his ship *Endurance*, and his team of twenty-seven polar explorers can teach us about bringing order to chaos through true leadership. Among other skills, you'll learn how to: instill optimism while staying grounded in reality, step up to risks worth taking, consistently reinforce your team message, set a personal example, find things to celebrate, laugh small things off, and--even in the face of extreme temperatures, hazardous ice, scarce food, and complete isolation--never give up. This second edition of *Leading at the Edge* features additional lessons, new case studies of the strategies in action, tools to uncover and resolve conflicts, and expanded resources. An updated epilogue compares the leadership styles of the famous polar explorers Shackleton, Amundsen, and Scott, which transcend the one-hundred-plus years since their historic race to the South Pole to help today's leaders learn valuable lessons about the meaning of true success. **The Book of the Jihad of 'Ali ibn Tahir al-Sulami (d. 1106) Text, Translation and Commentary** *Routledge* In 1105, six years after the first crusaders from Europe conquered Jerusalem, a Damascene Muslim jurist named 'Ali ibn Tahir al-Sulami (d. 1106) publicly dictated an extended call to the military jihad (holy war) against the European invaders. Entitled *Kitab al-Jihad* (The Book of the Jihad), al-Sulami's work both summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted, covering topics as diverse as who should fight and be fought, treatment of prisoners and plunder, and the need for participants to fight their own inner sinfulness before turning their efforts against the enemy. Al-Sulami's text is vital for a complete understanding of the Muslim reaction to the crusades, providing the reader with the first contemporary record of Muslim preaching against the crusaders. However, until recently only a small part of the text has been studied by modern scholars, as it has remained for the most part an unedited manuscript. In this book Niall Christie provides a complete edition and the first full English translation of the extant sections (parts 2, 8, 9 and 12) of the manuscript of al-Sulami's work, making it fully available to modern readers for the first time. These are accompanied by an introductory study exploring the techniques that the author uses to motivate his audience, the precedents that influenced his work, and possible directions for future study of the text. In addition, an appendix provides translations of jihad sermons by Ibn Nubata al-Fariqi (d. 985), a preacher from Asia Minor whose rhetorical style was highly influential in the development of al-Sulami's work. **Narrative of the Expedition of an American Squadron to the China Seas and Japan Performed in the Years 1852, 1853, and 1854, Under the Command of Commodore M.C. Perry, United States Navy, by Order of the Government of the United States** *Expedition Adventures into Undiscovered Worlds* *Random House* Shine a light into the unknown There are still dark corners of our planet that are yet to be explored. In this remarkable book, Steve Backshall offers an unflinching account of his adventures into these uncharted territories around the globe, in search of world firsts. Each location brings its own epic challenges - whether it's the first climb of an arctic ice fall in Greenland, the first recorded navigation of a South American river, or the first exploration of the world's longest cave system in Mexico. But all of them represent new tests of the limits of human endeavour. Accompanying a major 10-part series on BBC and Dave, *Expedition* is a breathtaking journey into the unknown, and a brilliantly written celebration of the pleasures of genuine discovery. **Endurance Shackleton's Incredible Voyage** *Voyages* Adventure, shipwreck, storms and survival on the high seas. ENDURANCE is the story of one of the most astonishing feats of exploration and human courage ever recorded. In 1914 Sir Ernest Shackleton and a crew of 27 men set sail for the South Atlantic on board a ship called the *Endurance*. The object of the expedition was to cross the Antarctic overland. In October 1915, still half a continent away from their intended base, the ship was trapped, then crushed in ice. For five months Shackleton and his men, drifting on ice packs, were castaways on one of the most savage regions of the world. This utterly gripping book, based on first-hand accounts of crew members and interviews with survivors, describes how the men survived, how they lived together in camps on the ice for 17 months until they reached land, how they were attacked by sea leopards, the diseases which they developed, and the indefatigability of the men and their lasting civility towards one another in the most adverse conditions conceivable. **Layers of Learning Russia & Prussia, Central Asia, History of Science, Watercolor** *CreateSpace* In this unit you can play games that Russian children have been playing for centuries, make a cosmonaut craft of the Baikonur Cosmodrome in Kazakhstan, craft a lapbook of the history of science, and try your hand at some real watercolor painting projects. There are dozens of projects to choose from in Unit 3-10. In each unit you'll find a recommended library list, important background information about each topic, lots of activities to choose from for kids of all ages, and sidebars with a bunch more ideas including Additional Layers, Fabulous Facts, On The Web, Writer's Workshop, Famous Folks, and Teaching Tips. Printable maps and worksheets are included at the end of each unit and may be printed as often as needed for your family or class. **Hold Still A Portrait of Our Nation in 2020** Spearheaded by The Duchess of Cambridge, Patron of the National Portrait Gallery, Hold Still was an ambitious community project to create a unique collective portrait of the UK during lockdown. People of all ages were invited to submit a photographic portrait, taken in a six-week period during May and June 2020, focussed on three core themes - Helpers and Heroes, Your New Normal and Acts of Kindness. From these, a panel of judges selected 100 portraits, assessing the images on the emotions and experiences they conveyed. Featured here in this publication, the final 100 images present a unique and highly personal record of this extraordinary period in our history. From virtual birthday parties, handmade rainbows and community clapping to brave NHS staff, resilient keyworkers and people dealing with illness, isolation and loss. The images convey humour and grief, creativity and kindness, tragedy and hope - expressing and exploring both our shared and individual experiences. Presenting a true portrait of our nation in 2020, this publication includes a foreword by The Duchess of Cambridge, each image is accompanied by an extended caption and further works show the nationwide outdoor exhibition of Hold Still. **CoolTravel - Discovering the Middle East & Africa** **Storytelling Expedition for Kempinski Hotels** *Maarten Schäfer* Kempinski Hotels asked us to activate their brand positioning 'A Friend With Local Knowledge'. We visited all the properties in the Middle East and Africa and were guided by the Kempinski staff to experience the destination. The stories were shared in this book and in the social media of the hotels. The book is used - on travel fares - as a cross selling tool between the different hotels - and is for sale in the hotel gift shops. **Nimrod Ernest Shackleton and the Extraordinary Story of the 1907-09 British Antarctic Expedition** *Bloomsbury Pub Limited* On New Year's Day 1908, the ship *Nimrod* set off for the mysterious regions of the Antarctic. The leader of the small expedition was Ernest Shackleton who, in the next year and a quarter would record some of the greatest achievements of his career and would then, together with his companions, return home as a hero. Shackleton and his party battled against extreme cold, hunger, danger and psychological trauma in their attempt to reach the South Pole and to return alive. They climbed the active volcano of Mount Erebus, planted the Union Jack at the previously unattained South Magnetic Pole, and struggled to within 97 miles of the South Geographic Pole. Beau Riffenburgh has written the definitive account of what Shackleton grandly called the British Antarctic Expedition. The story features an extraordinary cast of characters including Scott, Douglas Mawson, who would become one of the greatest Antarctic explorers, and the Antarctic pioneers Nansen and Amundsen. *Nimrod* is a story of an adventure which was a source of huge pride and fascination to both the leaders and subjects of the British Empire, and a journey almost too incredible even for Shackleton. **The Oxford English Dictionary Vol. 1- Kon-Tiki and I Illustrations with Text Begun on the Pacific on Board the Raft "Kon-Tiki" and Completed at "Solbakken" in Borre** The author relates the voyage of the Kon-Tiki expedition across 4300 miles of ocean in a raft as he experienced and sketched it. **Nanga Parbat Incorporating the Official Report of the Expedition of 1953 Erebus One Ship, Two Epic Voyages, and the Greatest Naval Mystery of All Time** *Random House Canada* Intrepid voyager, writer and comedian Michael Palin follows the trail of two expeditions made by the Royal Navy's HMS *Erebus* to opposite ends of the globe, reliving the voyages and investigating the ship itself, lost on the final Franklin expedition and discovered with the help of Inuit knowledge in 2014. The story of a ship begins after the defeat of Napoleon at Waterloo, when Great Britain had more bomb ships than it had enemies. The solid, reinforced hulls of HMS *Erebus*, and another bomb ship, HMS *Terror*, made them suitable for discovering what lay at the coldest ends of the earth. In 1839, *Erebus* was chosen as the flagship of an expedition to penetrate south to explore Antarctica. Under the leadership of the charismatic James Clark Ross, she and HMS *Terror* sailed further south than anyone had been before. But Antarctica never captured the national imagination; what the British navy needed now was confirmation of its superiority by making the discovery, once and

for all, of a route through the North-West Passage. Chosen to lead the mission was Sir John Franklin, at 59 someone many considered too old for such a hazardous journey. Nevertheless, he and his men confidently sailed away down the Thames in April 1845. Provisioned for three winters in the Arctic, Erebus and Terror and the 129 men of the Franklin expedition were seen heading west by two whalers in late July. No one ever saw them again. Over the years there were many attempts to discover what might have happened--and eventually the first bodies were discovered in shallow graves, confirming that it had been the dreadful fate of the explorers to die of hunger and scurvy as they abandoned the ships in the ice. For generations, the mystery of what had happened to the ships endured. Then, on September 9th, 2014, came the almost unbelievable news: HMS Erebus had been discovered thirty feet below the Arctic waters, by a Parks Canada exploration ship. Palin looks at the Erebus story through the different motives of the two expeditions, one scientific and successful, the other nationalistic and disastrous. He examines the past by means of the extensive historical record and travels in the present day to those places where there is still an echo of Erebus herself, from the dockyard where she was built, to Tasmania where the Antarctic voyage began and the Falkland Islands, then on to the Canadian Arctic, to get a sense of what the conditions must have been like for the starving, stumbling sailors as they abandoned their ships to the ice. And of course the story has a future. It lies ten metres down in the waters of Nunavut's Queen Maud Gulf, where many secrets wait to be revealed.
