OKAY FOR NOW

HarperCollins **2011 National Book Award Finalist As a fourteen-year-old who just moved to a new town, with no friends and a louse for an older brother, Doug Swieteck has all the stats stacked against him. So begins a coming-of-age masterwork full of equal parts comedy and tragedy from Newbery Honor winner Gary D. Schmidt. As Doug struggles to be more than the "skinny thug" that his teachers and the police think him to be, he finds an unlikely ally in Lil Spicer—a fiery young lady who "smelled like daisies would smell if they were growing in a big field under a clearing sky after a rain." In Lil, Doug finds the strength to endure an abusive father, the suspicions of a whole town, and the return of his oldest brother, forever scarred, from Vietnam. Together, they find a safe haven in the local library, inspiration in learning about the plates of John James Audubon's birds, and a hilarious adventure on a Broadway stage. In this stunning novel, Schmidt expertly weaves multiple themes of loss and recovery in a story teeming with distinctive, unusual characters and invaluable lessons about love, creativity, and survival.**

LIZZIE BRIGHT AND THE BUCKMINSTER BOY

HarperCollins **A 2005 Newbery Honor Book It only takes a few hours for Turner Buckminster to start hating Phippsburg, Maine. Despite his father's-and the town's-disapproval of their friendship, Turner spends time with Lizzie, and it opens up a whole new world to him, filled with the mystery and wonder of Maine's rocky coast. The two soon discover that the town elders, along with Turner's father, want to force the people to leave Lizzie's island so that Phippsburg can start a lucrative tourist trade there. Turner gets caught up in a spiral of disasters that alter his life-but also lead him to new levels of acceptance and maturity. This sensitively written historical novel, based on the true story of a community's destruction, highlights a unique friendship during a time of change. Author's note.**

BAD BOYFRIENDS

USING ATTACHMENT THEORY TO AVOID MR. (OR MS.) WRONG AND MAKE YOU A BETTER PARTNER

This book is a practical guide to using the science of attachment and relationships to find the right life partner. If you were brought up in the Western world, you've been trained on fairy tales of love and relationships that are misleading at best, and at worst have you making mistake after mistake in starting relationships with the wrong kinds of people who will waste your time and keep you from finding a loyal partner. Science has the answer! Or at least a guide to save you the time and effort of discovering for yourself how many wrong types of romantic partners there are. Reading this book will help you recognize the signs of some of the syndromes that prevent people from being good partners. We'll go through those syndromes and point out some of the signs. Those little red flags you sometimes notice when you are getting to know someone? Often they speak loud and clear once you understand the types, and you can decide immediately to run away or approach with caution those who show them. If you're young and just starting to look for a partner, good news-the world is swarming with well-adjusted, charming matches for you, if you know how to recognize them. The bad news: you are inexperienced and you may not recognize the right type of person when you date them. Many people expect to experience an immediate sense of excitement, an overwhelming rush of attraction, and to fall in love rapidly and equally with someone who feels the same. This rarely happens, and when it does it usually ends badly! And expecting it will cause you to let go of people who are steady, loving, and attentive, if you had given them a chance. So once you've identified someone who makes you laugh, answers your messages, and is there for you when you want them, don't make the mistake of tossing them aside for the merely good-looking, sexy, or intriguing stranger. If you're older, bad news: while you were spending time and effort on relationships you were hoping would turn out better, or even happily nestled in a good relationship or two, most of the secure, reliable, sane people in your age group got paired off. They're married or happily enfamilied, and most of the people your age in the dating pool are tragically unable to form a good long-term relationship. You should always ask yourself, "why is this one still available?"-there may be a good answer (recently widowed or left a long-term relationship), or it may be that this person has just been extraordinarily unlucky in having over twenty short relationships in twenty years (to cite one case!) But it's far more likely you have met someone with a problematic attachment style. As you age past 40, the percentage of the dating pool that is able to form a secure, stable relationship drops to less than 30%[1]; and since it can take months of dating to understand why Mr. or Ms. SeemsNice is really the future ex-partner from Hell, being able to recognize the difficult types will help you recognize them faster and move on to the next. This book outlines the basics (which might be all you need), and points you toward more resources if you want to understand more about your problem partner. If you're wondering if the guy or girl you've been hanging out with might not be quite right, this is the place to match those little red flags you've noticed with known bad types. And by getting out fast, you can avoid emotional damage and wasted time, and get going on finding someone who's really right for you. Study all of the bad types and you'll detect them before even getting involved. Or you could be one of the few people who recognizes their own problems in one of these types. There are study materials and plans of action for you, too. If you've had lots of relationships and they all seem to go wrong, the common factor is you! Your task is to make yourself into a better partner - a goal that even the most evolved of us can always work toward.
