World History, Volume II: Since 1500

Cengage Learning Noted teachers and scholars William J. Duiker and Jackson J. Spielvogel present a balanced, highly readable overview of world history that explores common challenges and experiences of the human past and identifies key patterns over time. Thorough coverage of political, economic, social, religious, intellectual, cultural, and military history is integrated into a chronological framework to help students gain an appreciation and understanding of the distinctive character and development of individual cultures in society. This approach, with organization around seven major themes (Science and Technology, Art and Ideas, Family and Society, Politics and Government, Earth and the Environment, Religion and Philosophy, and Interaction and Exchange), helps students link events together in a broad

comparative and global framework, thereby placing the contemporary world in a more meaningful historical context. Essential World History

A Global History of Early Modern Violence

This is the first extensive analysis of large-scale violence and the methods of its restraint in the early modern world. Using examples from Asia, Africa, the Americas and Europe, it questions the established narrative that violence was only curbed through the rise of western-style nation states and civil societies. Global history allows us to reframe and challenge traditional models for the history of violence and to rethink categories and units of analysis through comparisons. By decentring Europe and exploring alternative patterns of violence, the contributors to this volume articulate the significance of violence in narratives of state- and empire-building, as well as in their failure and decline, while also providing new means of tracing the transition from the early modern to modernity.

European History

IntroBooks Europe's relationship with culture, even at the most basic level, dates back to at least 20,000 BCE. The Venus of Willendorf and the cave paintings of Altamira and Lascaux are examples of the presence of civilization in Europe thousands of years ago. By 5000 BC, evidence proves that areas of Europe had begun to show hierarchical societies and a firm agricultural background had been formed by many of these societies. While a clear division of boundaries did not exist back then, the history of Europe if we go back to thousands of years ago, during the Neolithic age, can be mainly traced through their settlements and tools.

Soldier and Society in Roman Egypt

A Social History

Routledge The province of Egypt provides unique archaeological and documentary evidence for the study of the Roman army. In this fascinating social history Richard Alston examines the economic, cultural, social and legal aspects of a military career, illuminating the life and role of the individual soldier in the army. Soldier and Society in Roman Egypt provides a complete reassessment of the impact of the Roman army on local societies, and convincingly challenges the orthodox picture. The soldiers are seen not as an isolated elite living in fear of the local populations, but as relatively well-integrated into local communities. The unsuspected scale of the army's involvement in these communities offers a new insight into both Roman rule in Egypt and Roman imperialism more generally.

Western Civilization

Ideas, Politics and Society

Houghton Mifflin College Division [This book] examines the Western tradition - those unique patterns of thought and systems of values that constitute the Western heritage. While focusing on key ideas and broad themes, the text also provides a balanced treatment of economic, political, and social history for students in Western civilization courses.

The text is written with the conviction that history is not a meaningless tale. Without a knowledge of history, men and women cannot fully know themselves, for all human beings have been shaped by institutions and values inherited from the past. -Pref.

What is Consciousness?

Three Sages Look Behind the Veil

SelectBooks, Inc. **What is consciousness? Conventional thinking tells us it is the images, sensations, thoughts, and feelings produced by the brain. When the neurons in the brain stop firing, consciousness ceases to be. But does it?**
